Dear Mr. Thomas:

In our set-up for majors in Physical Education in the School of Education we are endeavoring to arrive at certain pertinent facts which will be conducive to our serving the schools of Kansas in a more intelligent way.

Will you be kind enough to send us the following information: How many high schools in the state are participating in competitive football? In competitive basketball? In competitive track? In competitive baseball?

I will appreciate it if you will give me this information at your early convenience.

Very sincerely yours,

FCA:AH

Mr. Chuck Taylor,

Dear Chuck:

We would like very much to have you give us a date here in Lawrence so that we could invite coaches of the nearby towns in to see the picture, and if it would be satisfactory to you to show the picture here to our own varsity and freshmen I would consider you a very good fellow.

I believe the film company would show this picture to our squad as a courtesy to one of the six coaches who cooperated in filming the picture.

Any afternoon or evening that would be convenient for you would be fine for us. We would not want you to make a special trip down here, but if you do come we would like to have you demonstrate your stuff as you do at the different schools to our boys.

With every good wish, I am

Mr. Sec Taylor, Sports Editor,
Des Moines Register-Tribune,
Des Moines, Iowa.

Dear Sec:

Please do not think that I am meddling when I offer a suggestion, whether it is worth anything or not.

You mentioned your coaches clinic and I wanted to tell you about a new basketball picture that Clair Bee, of Long Island University, Dr. H. C. Carlson, of the University of Pittsburgh, Dave McMillan, of Minnesota, George Keegan, of Notre Dame, John Bunn, of Stanford, and I shot for the Wilson Sporting Goods Company of Chicago, Converse, of Waltham, Mass., and Phillips "66".

I haven't even seen a preview of this film, but those who have seen it say it is a dandy. All of the coaches used the same team, Phillips "66", to demonstrate their stuff with. Each coach had introductory remarks to make concerning the type of work that he was to demonstrate and then the shooting of the picture followed.

Bob Russell, of the Lawler Sporting Goods firm at Lincoln, Nebraska, is one of the promoters and sponsors of this picture. He is interested in movie talkie educational films, and I believe that you could prevail upon him to show that at the coaches meeting, or else he would tell you who the Iowa representative is and you could contact him.

The Lowe-Campbell people and the others who have seen it pronounce it a splendid film. I know how impressionable people are regarding movies and this should be a help to you in your program.

You doubtless have seen the film that I made for the Eastman Kodak Company two years ago. It is a silent movie, but the fundamentals are more exhaustibly shown in the silent movie than they

~~2 - My Bailey~~
-2-

are in this short of the stuff that I show with the other coaches.

I had planned to stop off in Des Moines to see you on my way back from Okoboji, but my father passed away on Friday, the last day that I was there, so I had to hasten my schedule and take a train out earlier than I had planned. Previously I had planned to drive to Des Moines with Vic Young, of Lowe-Campbell's.

Is there anything that I can do to help you promote your program? If there is, I will be very happy to do so.

Please remember us kindly to Mrs. Taylor and your two sons.

With every good wish, I am

Sincerely yours,

Dear Doc:

We are arranging for a showing of that new sound basketball picture here Sunday, November 7th and since you had a prominent part in the making of the picture I would like to have you here. There will probably be some discussion with which you can be of valuable service.

We expect to have as many coaches and officials present as possible and are making preparations for a showing of the films throughout the state.

May we count on you being here?

Cordially,
Tommy

Mr. Harold G. Townsend,

Chicago, Illinois.

My dear Brother Townsend:

Your inquiry of September 27 concerning Mr. Harold Evans, Jr., of 9 West 57th Street, Kansas City, is before me. I trust that you will pardon the slight delay that the inquiry has occasioned. I am sending you the information that I received from Registrar George O. Foster, of the University of Kansas.

I have known young Evans' father, Harold Evans, of Kansas City, for a great many years. I knew him as an undergraduate and a pledge of Phi Kappa Psi, and I have followed him through the years of his University course and after his graduation. He was always one of the substantial Phi Psi's, enthusiastic, loyal, and dependable. Harold Evans, Sr., always was one of the old boys who came back at the call when the chapter needed him. And he still does the same.

If young Harold Evans is the type of man that his father is, and the feeling among the boys of the chapter on Mount Oread is that Harold is that type of fellow, then I think you need have no worry about the loan.

I was down at the house for luncheon the other day with Brother Ralph Spotts and his wife, who now live near Los Angeles. I had an opportunity to speak to young Harold Evans, and my impression is that he is a fine young man. He seems to merit this from all of his fellow Phi Psi's.

Perhaps it might be well to state that in this part of the country when a student is not especially strong in his academic work the University of Kansas will not accept him from a high school out of the state if his grades do not average a "C" rating, on the basis of A, B, C, D, without the recommendation of the high school.

principal of the out of state school. The University places them on probation and they must make a "C" average at the University to remain there.

I am very certain that the probation that he was placed upon was of this sort.

With every good wish, I am

Yours in the bond,

FCA:AH

Director of Physical Education.

Harold D. Evans -

Entered Fall '36, on probation on recommendation of high school principal; Southwest High School, K. C. Mo.

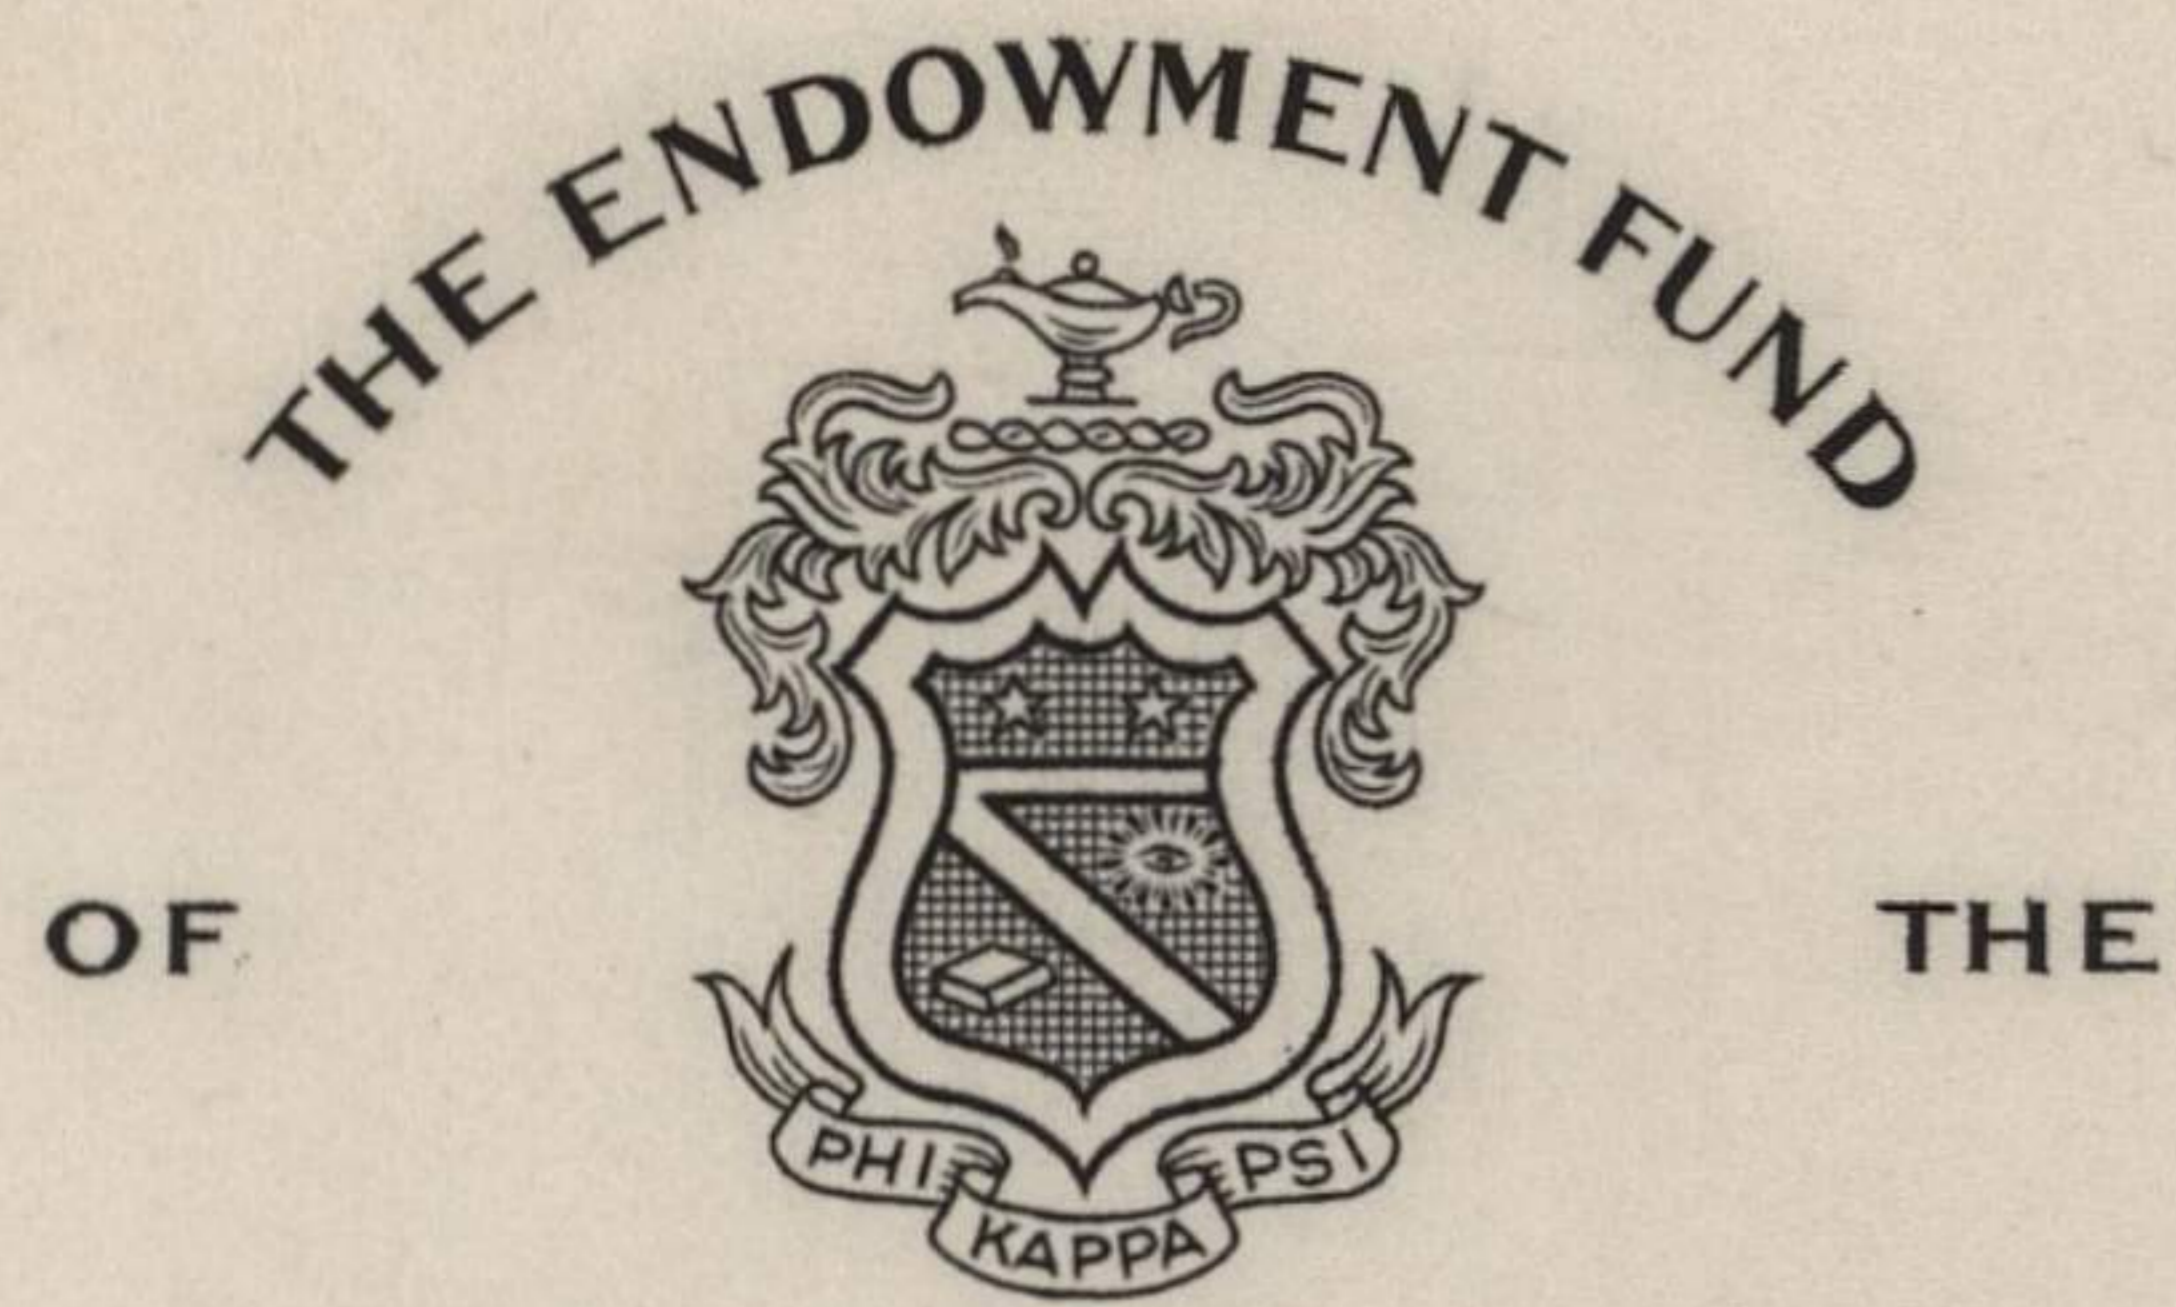

In fall semester, 1936, made the following credits:

5 hrs. A
3 hrs. B
2 hrs. C
5 hrs. D (Met probation requirements)

Spring semester:

5 hrs. B
3 hrs. C
7 hrs. D

Is now enrolled as a sophomore.

Dear Phog:

I have yours of September 27 and am mighty sorry to hear of Jack's illness. I of course will not mention it to anyone and I hope that he snaps out of it in good shape.

I rather took a liking to the boy. Originally he thought he wanted to go to Stanford, but I discouraged him as I was quite sure that his scholarship would not get him in, and I doubted whether he would do well so far from home. I encouraged him to go to Lawrence, as I felt that was the proper place for him. If he snaps out of his illness he will make a mighty good boy, I am sure.

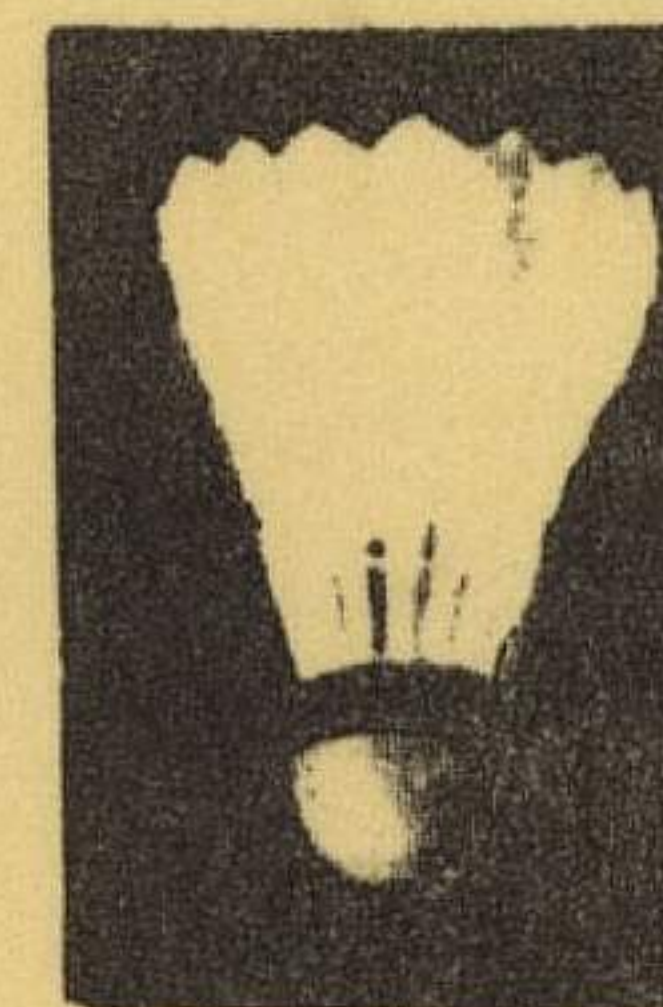

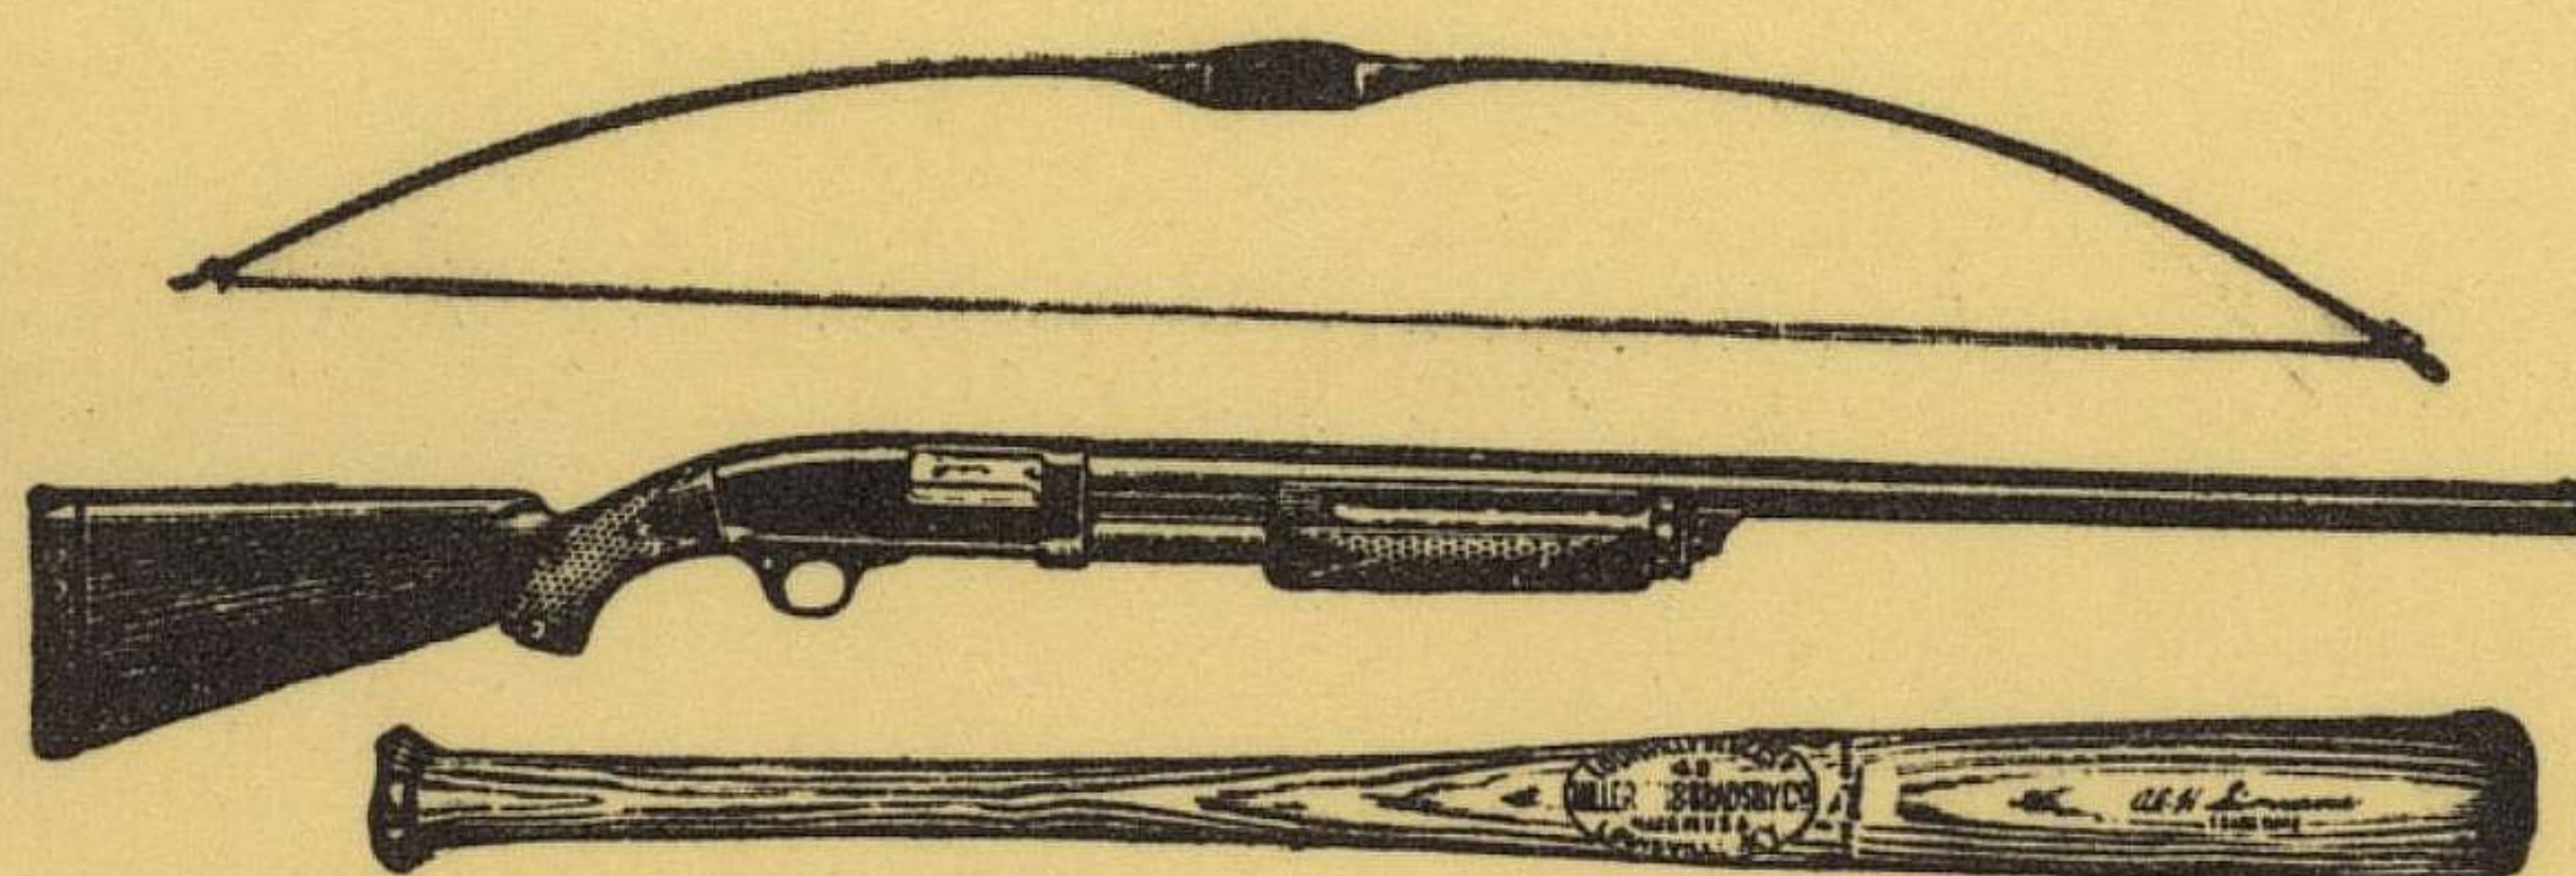

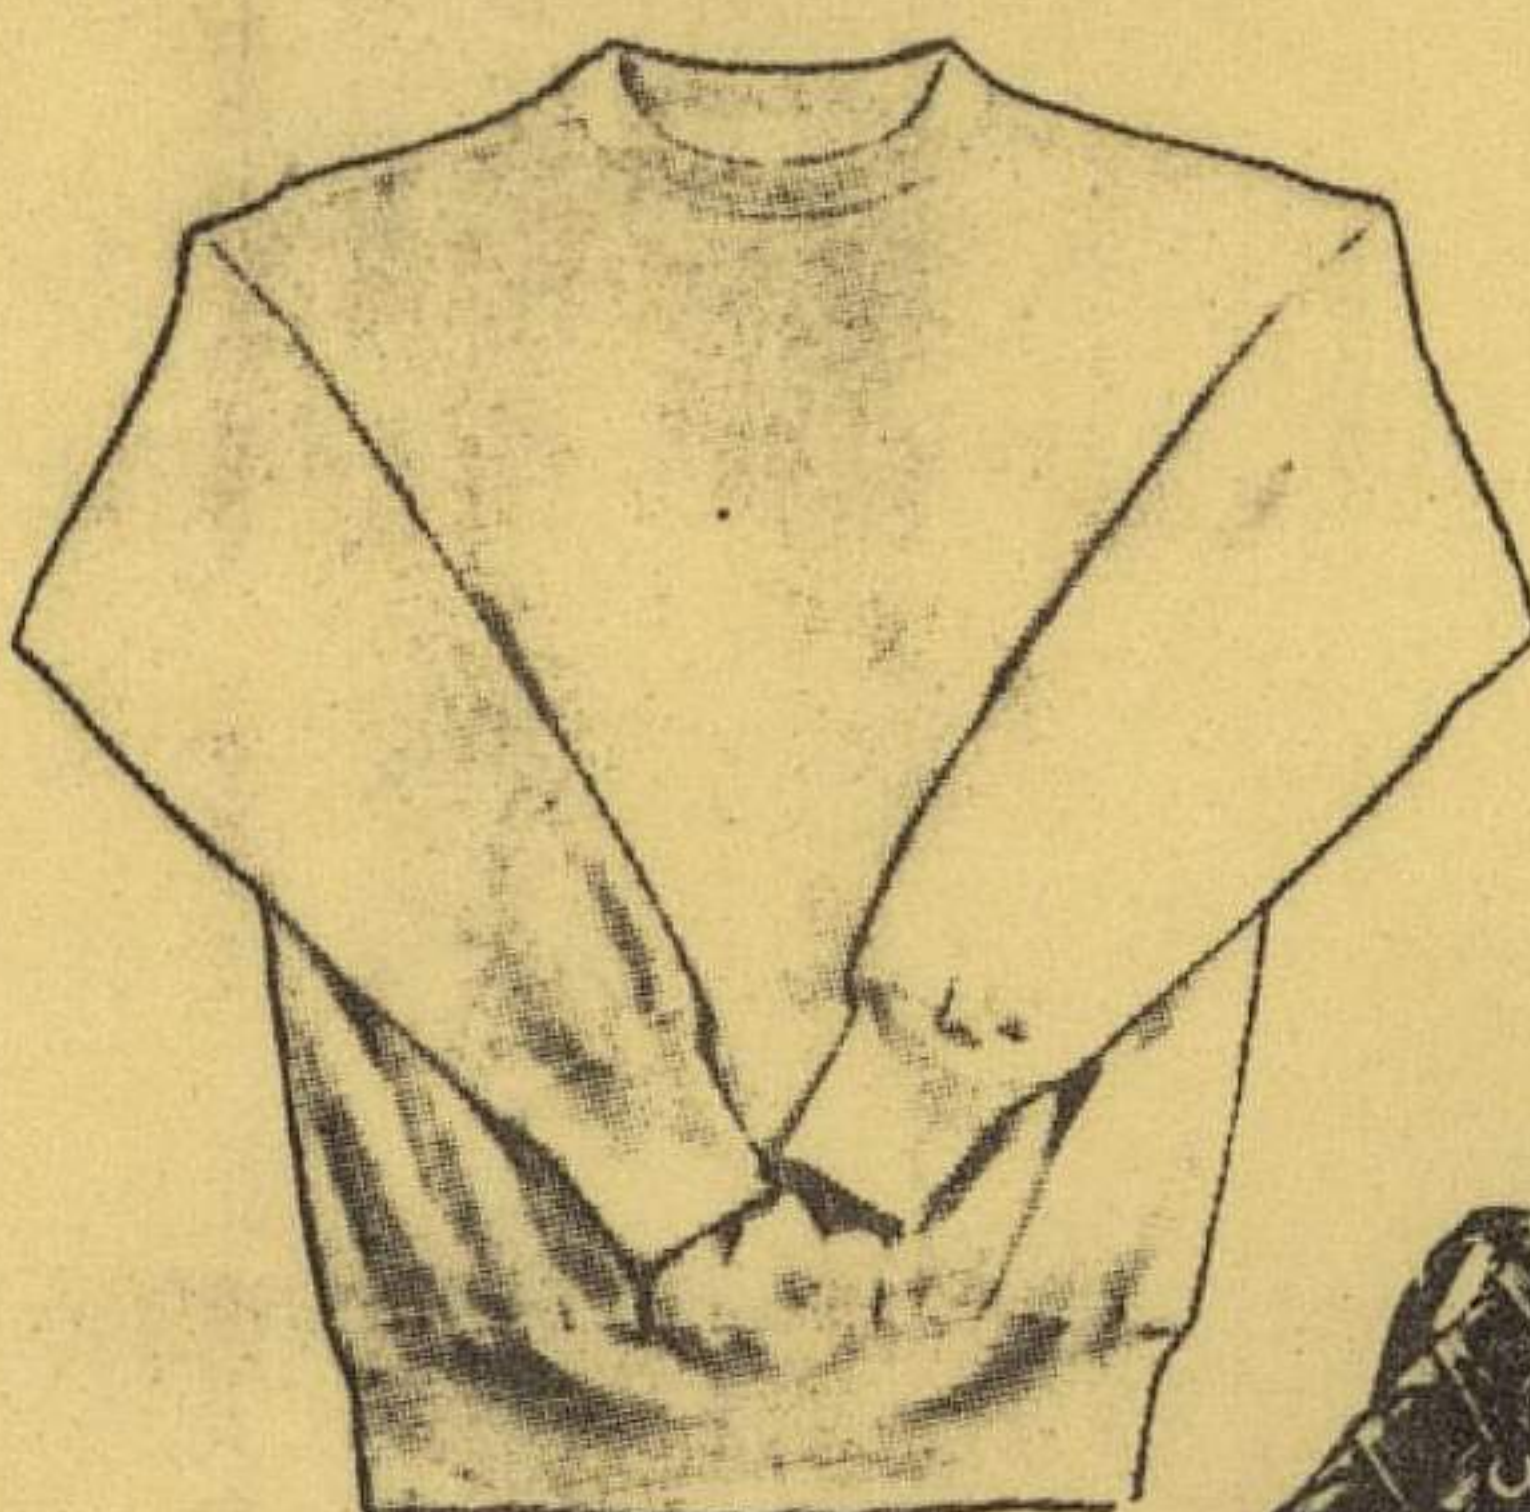

With reference to the caps for the golf clubs, I sent you these yesterday and hope they work out in good shape.

Dear Phog:

I have yours of October 1, and the factory was very glad to furnish the caps for the golf clubs without charge.

After the golf season is over, if your clubs are showing any signs of rust we can have them replated for you at 25¢ per club, which will put them in absolutely new condition. Also, if you care to have your wood clubs refinished at any time, our boys do a lot of this work and the cost is not very heavy.

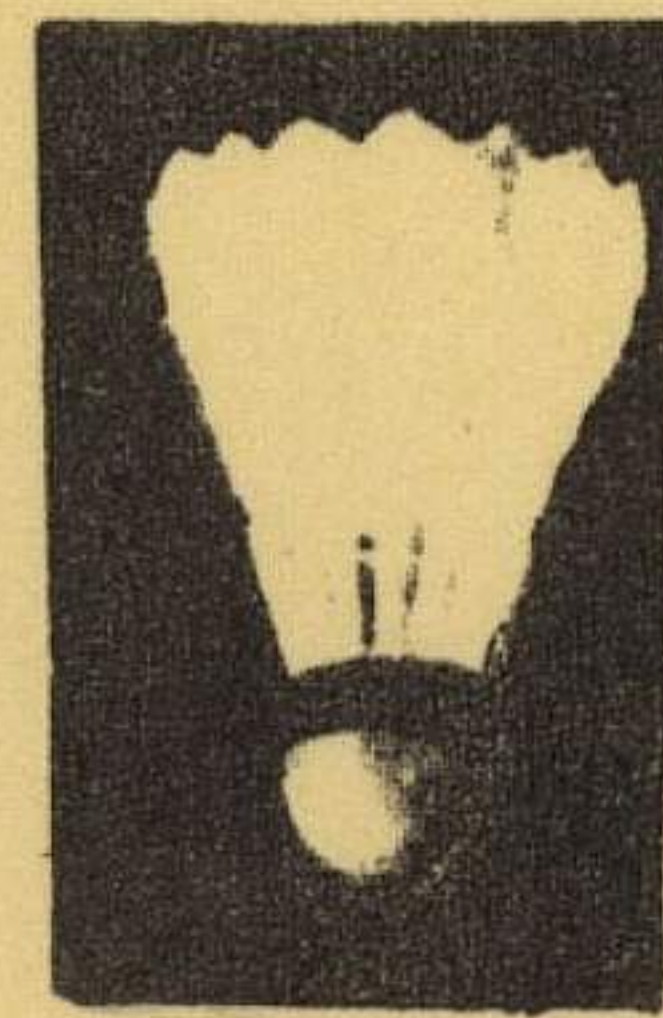

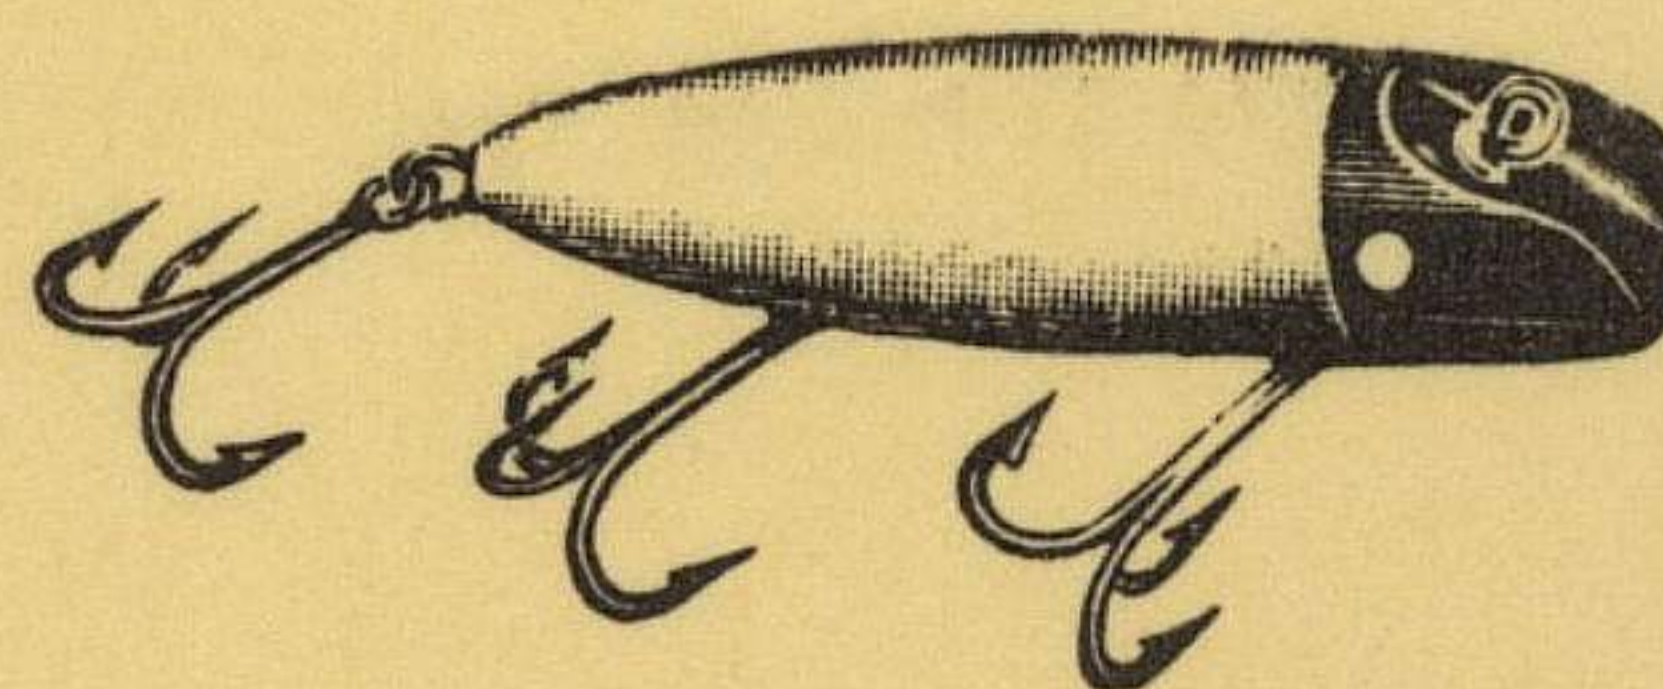

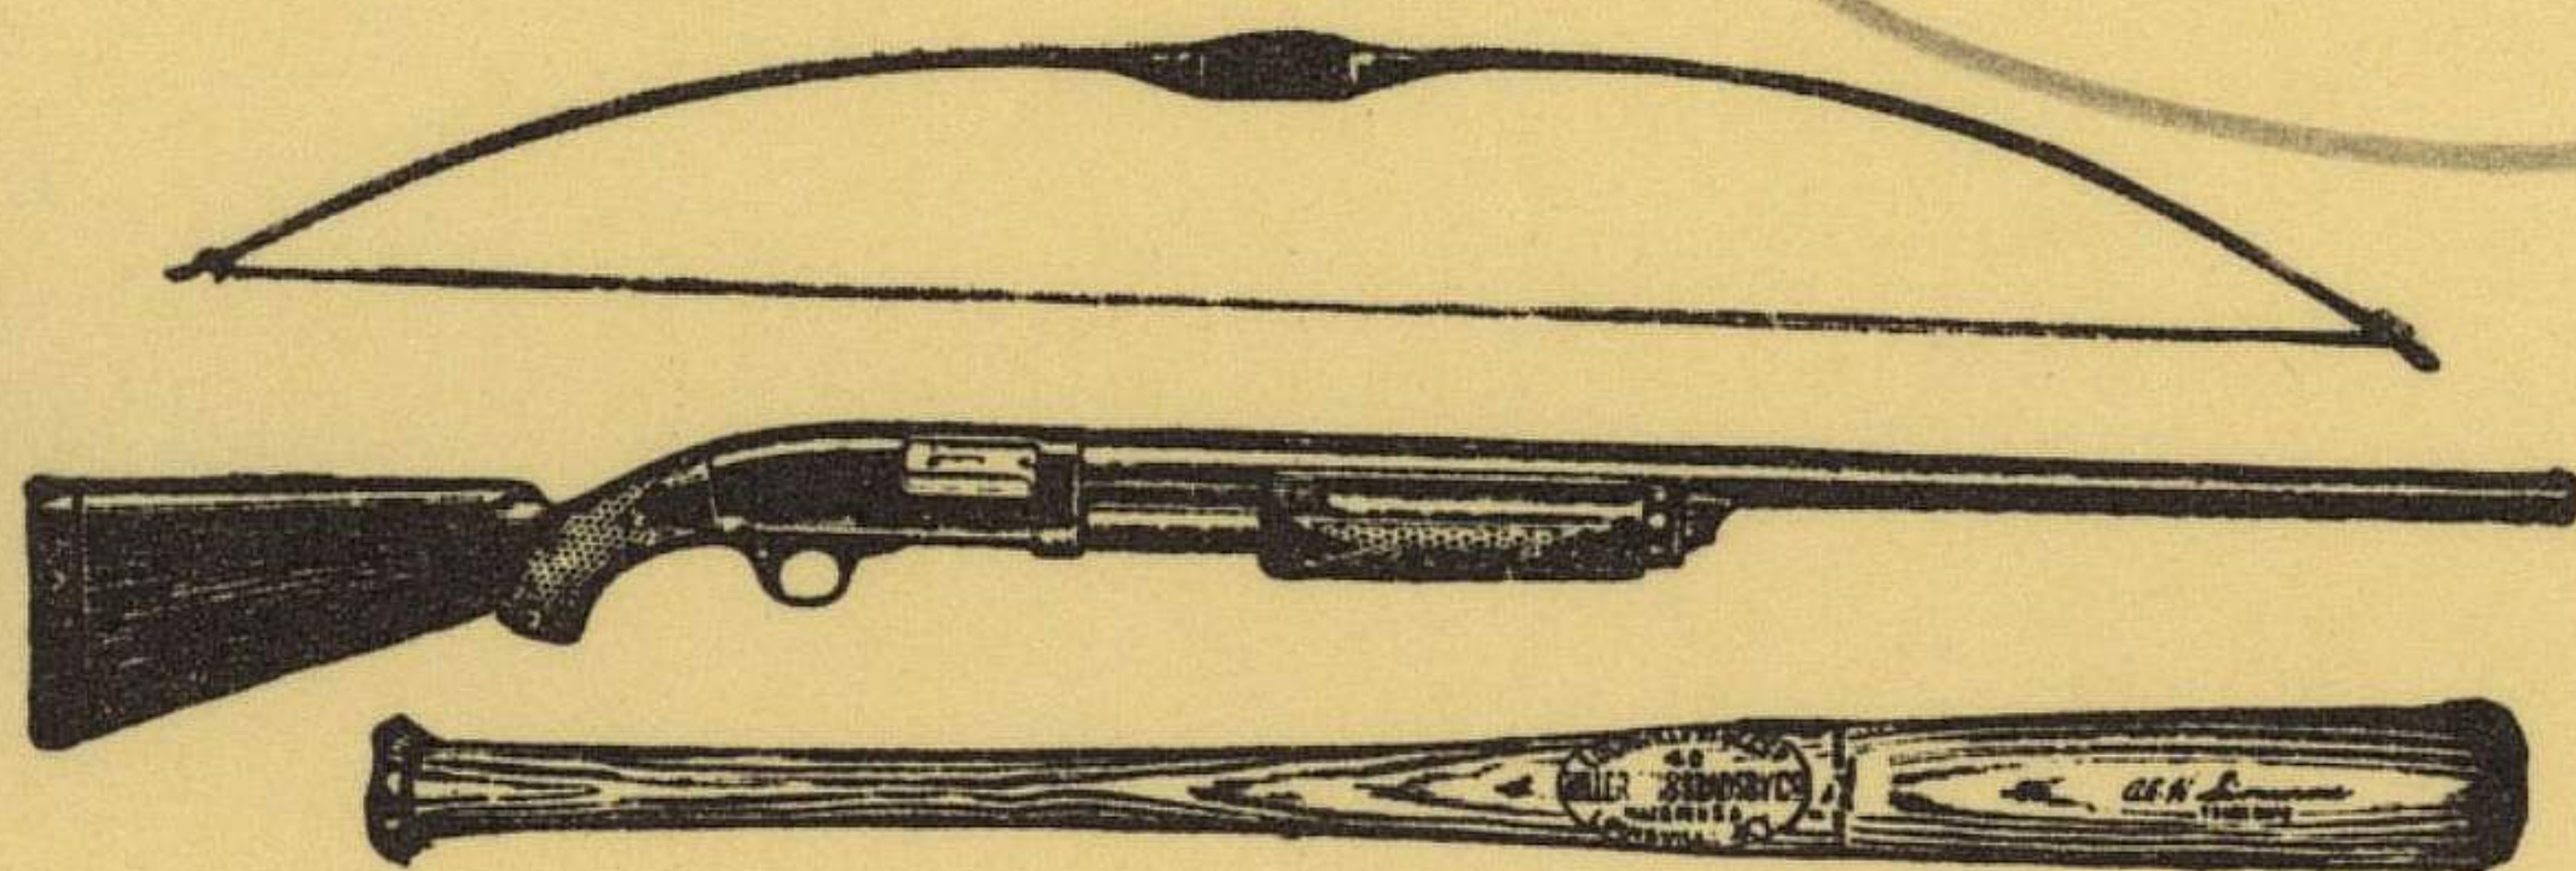

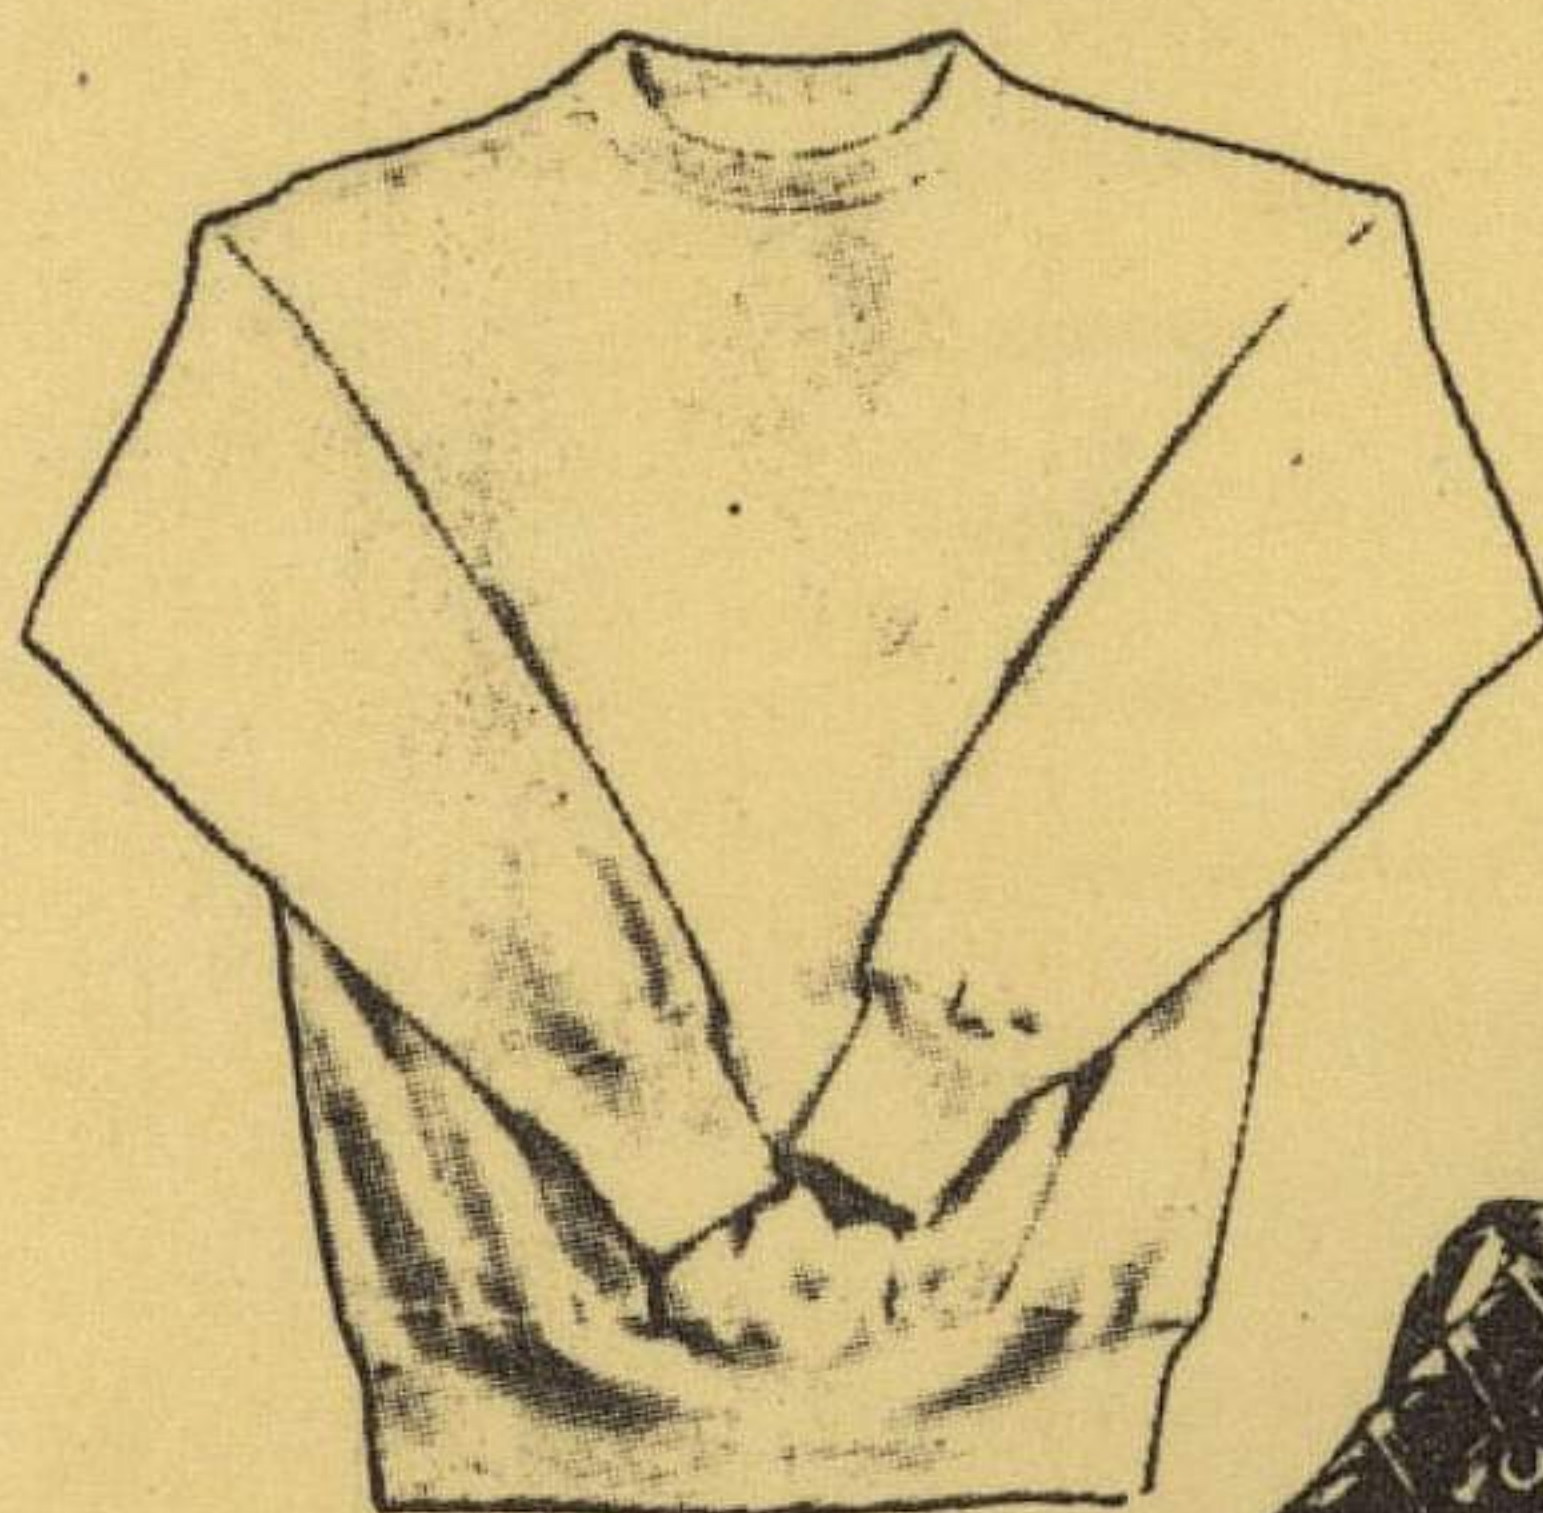

I was glad to see the Football Team come through in good shape last night and hope that the Big Six Conference battle is considerably more even and more of a dog fight this year than it has been for some time. I really think it is better for the schools and the Conference to have the teams pretty evenly matched and every game more or less a battle.

University of Kansas
Lawrence, Kansas

Dear Doctor Allen:

We have the University's order #68143 today for the three dozen cotton Gym Shirts. There are no sizes specified but we will give you a good assortment of the average range of sizes. If you desire to make any exchanges we will be glad to exchange sizes. We will give you mainly sizes 36 to 40, which is about the average run of university sizes, with perhaps a few 34s and 42s.

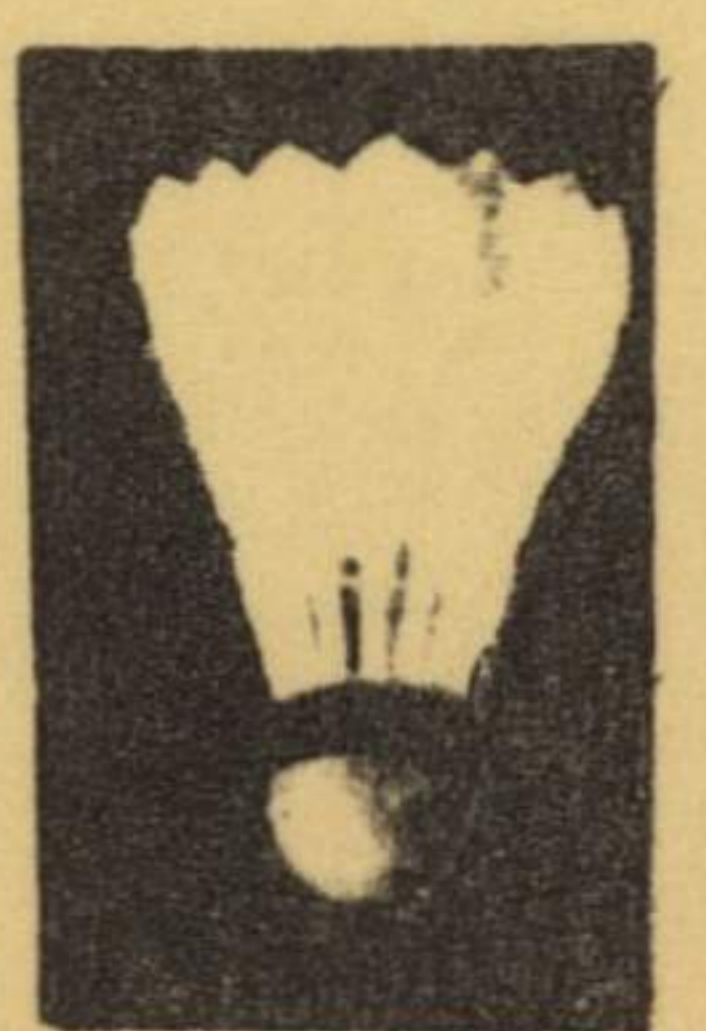

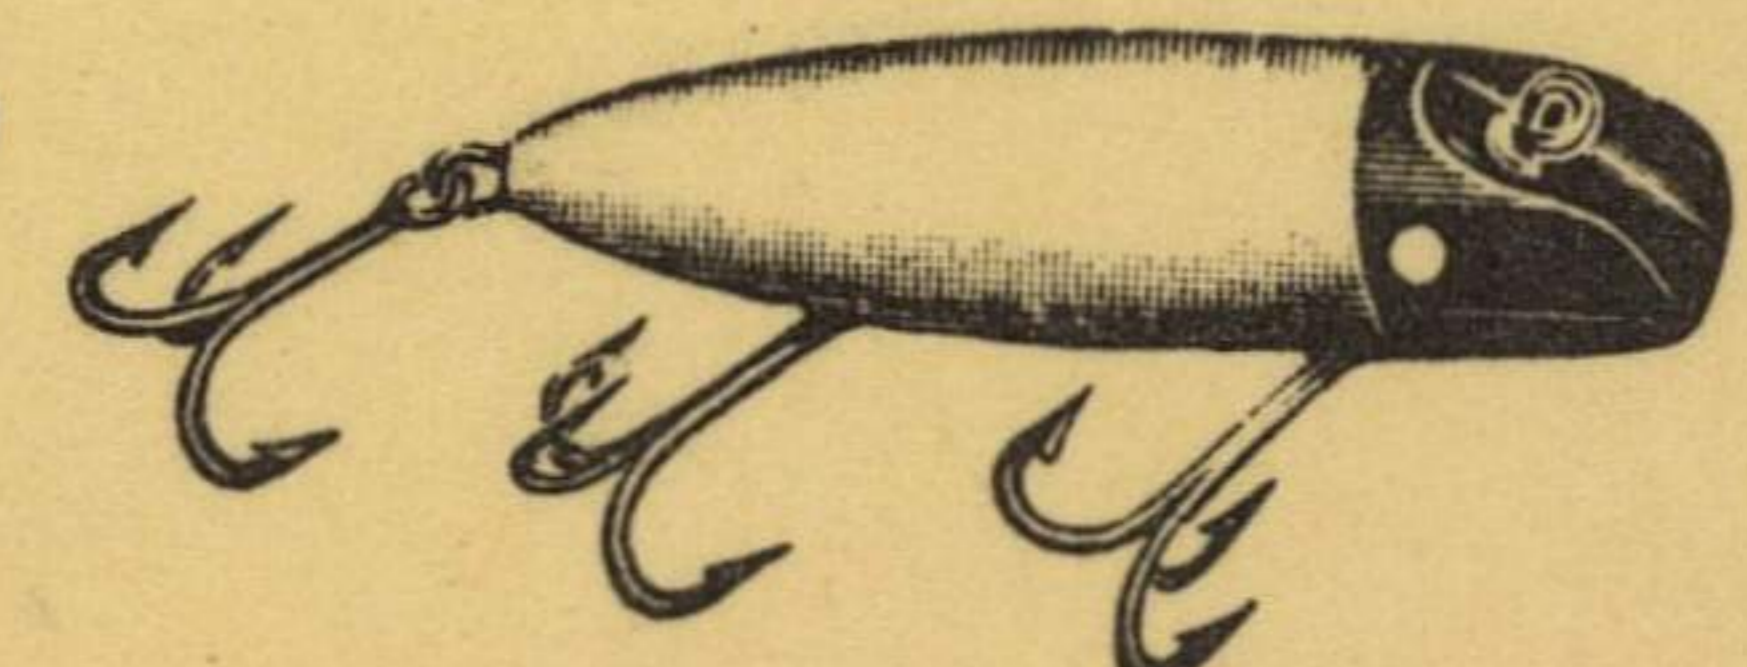

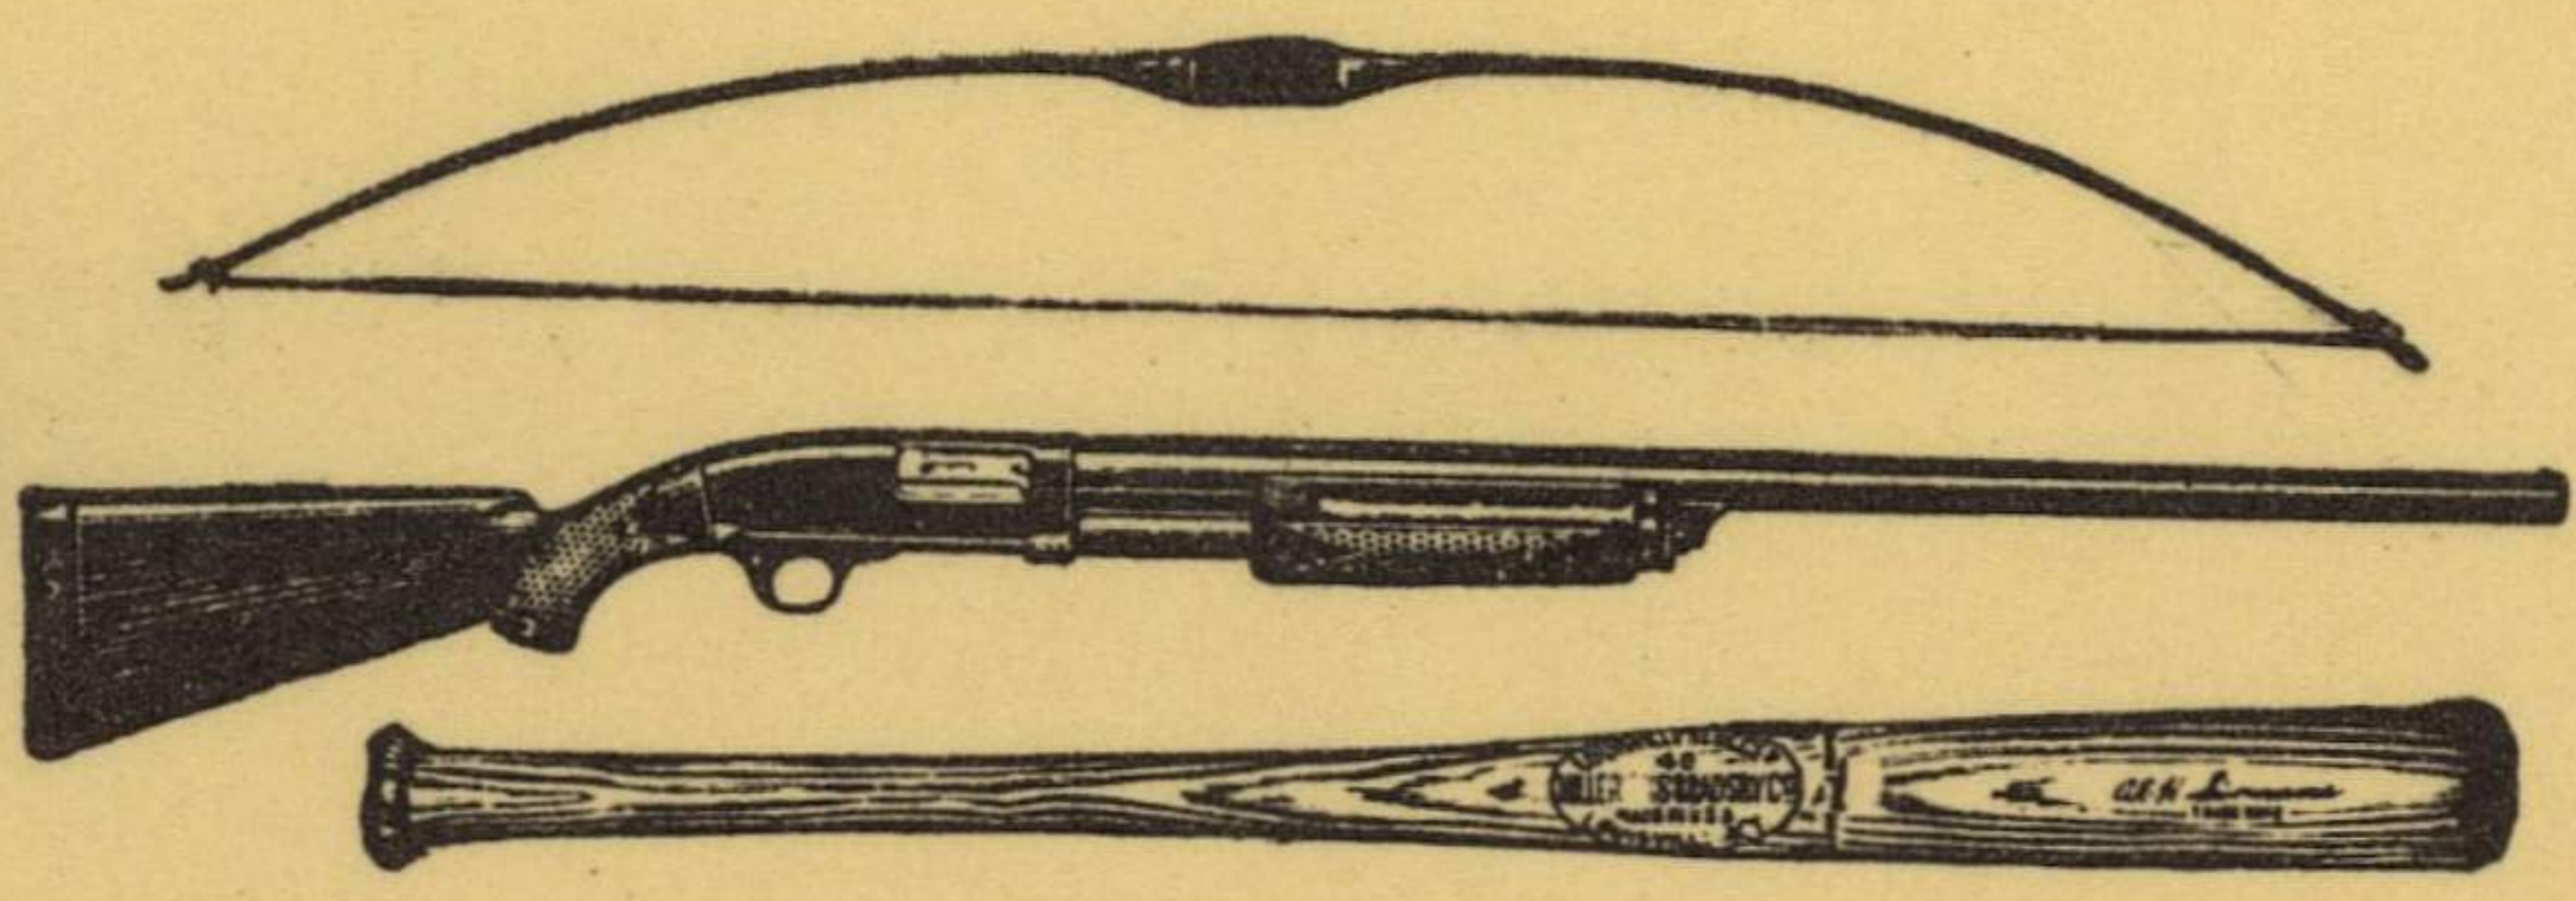

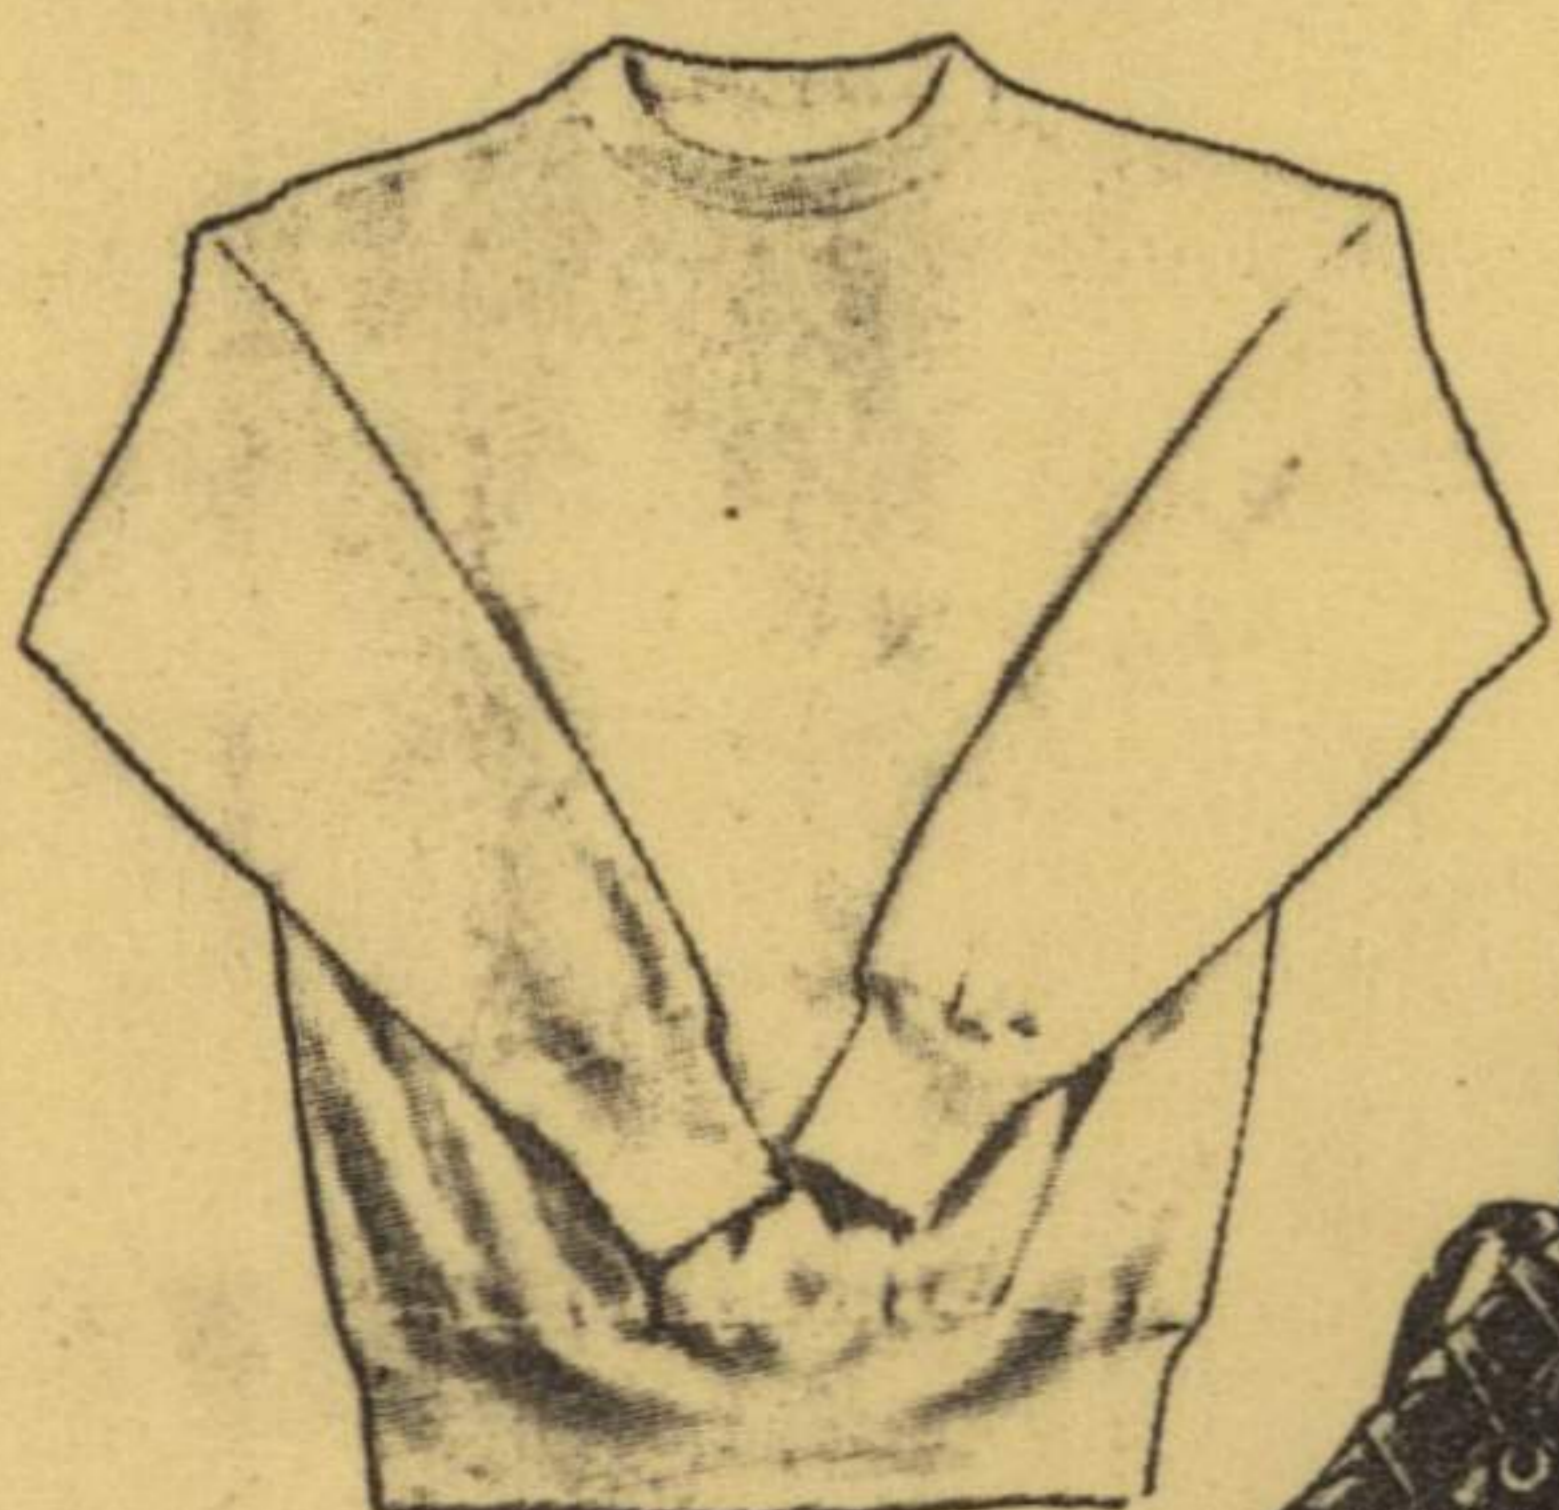

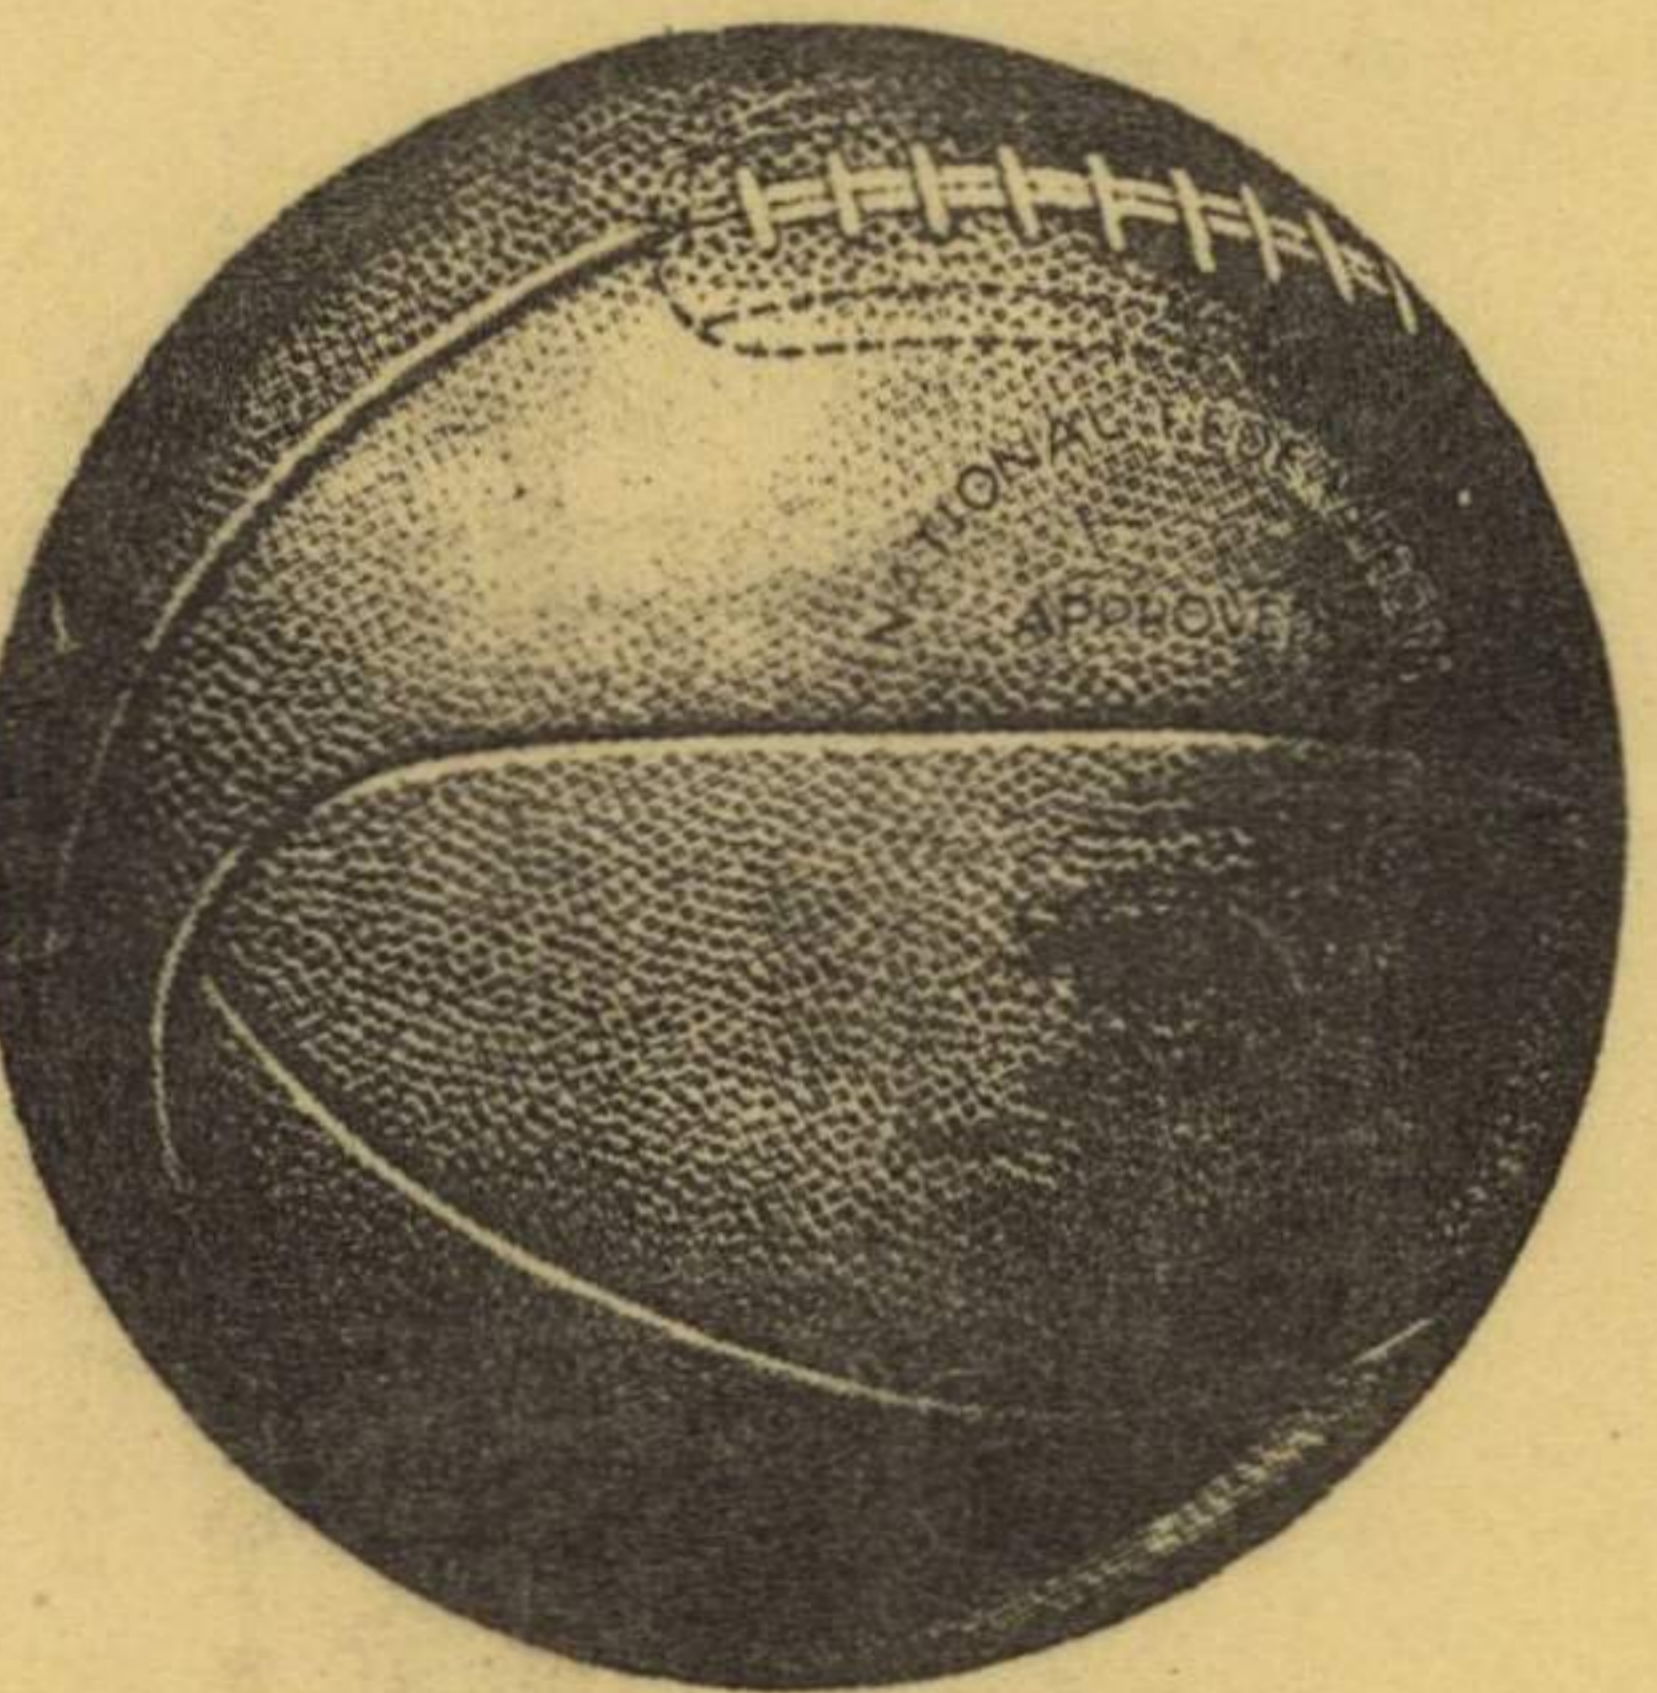

The order is appreciated.

Dear Doctor Allen:

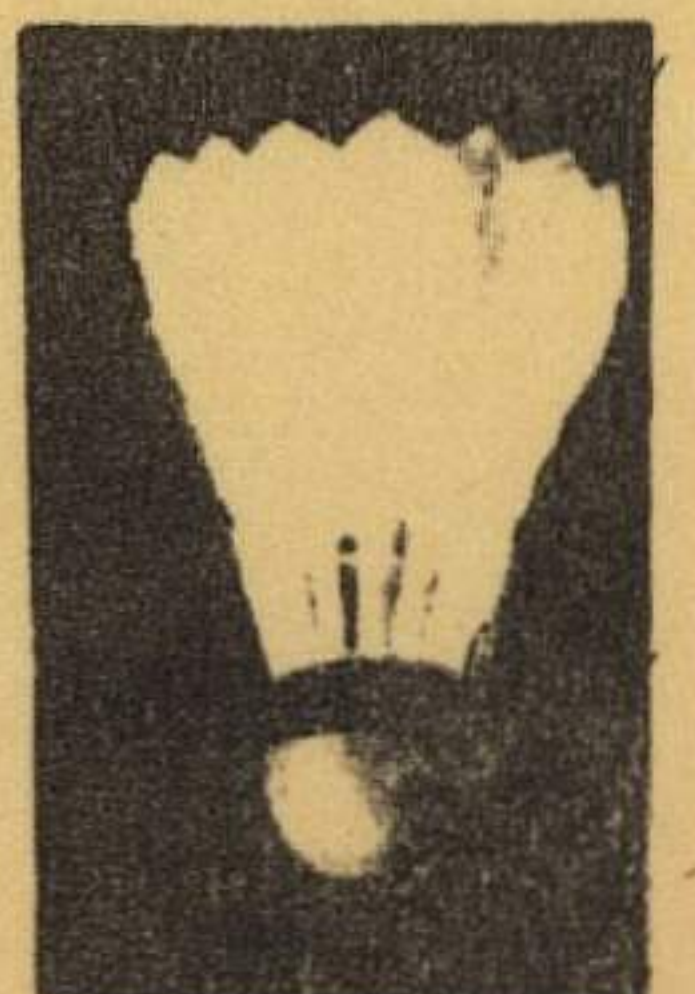

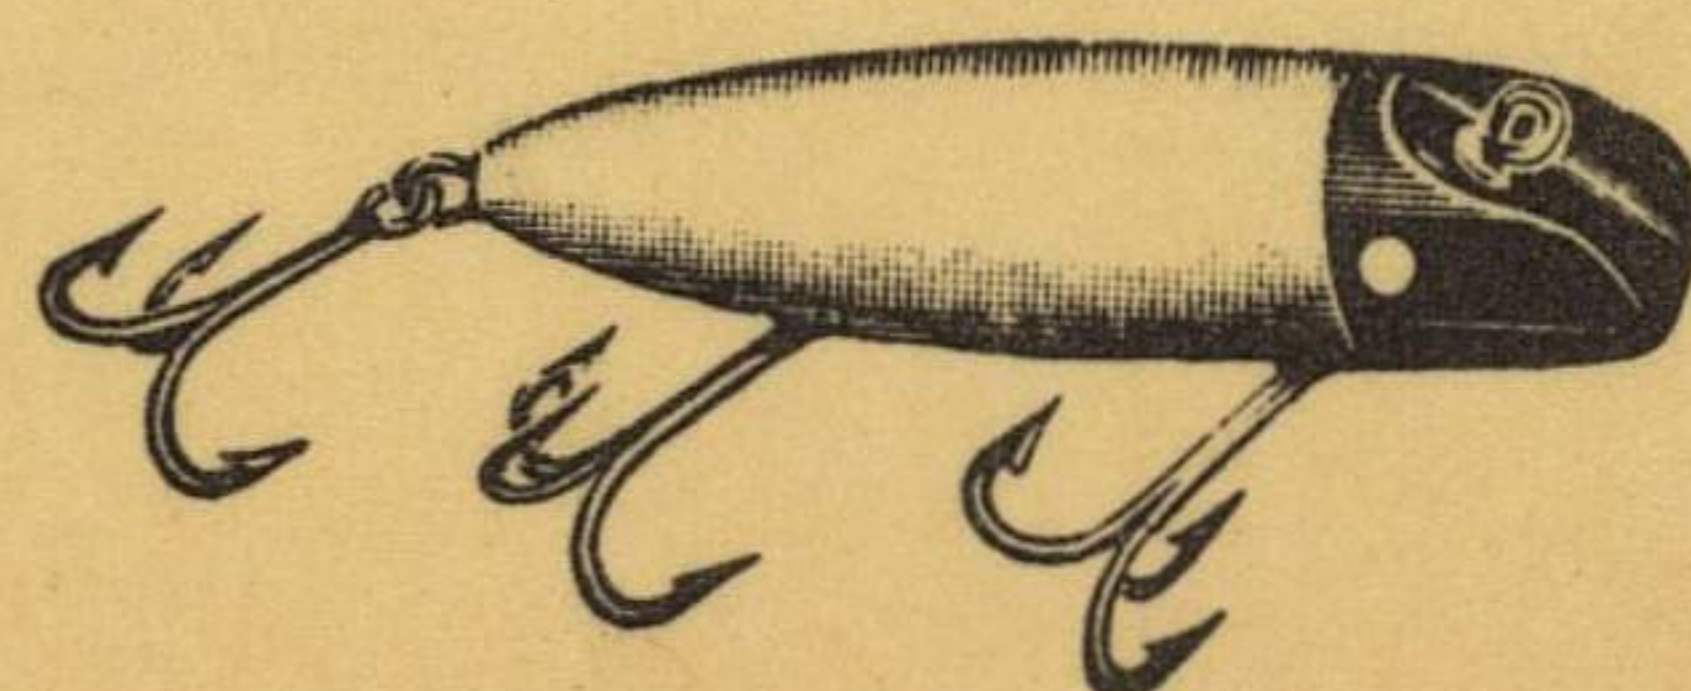

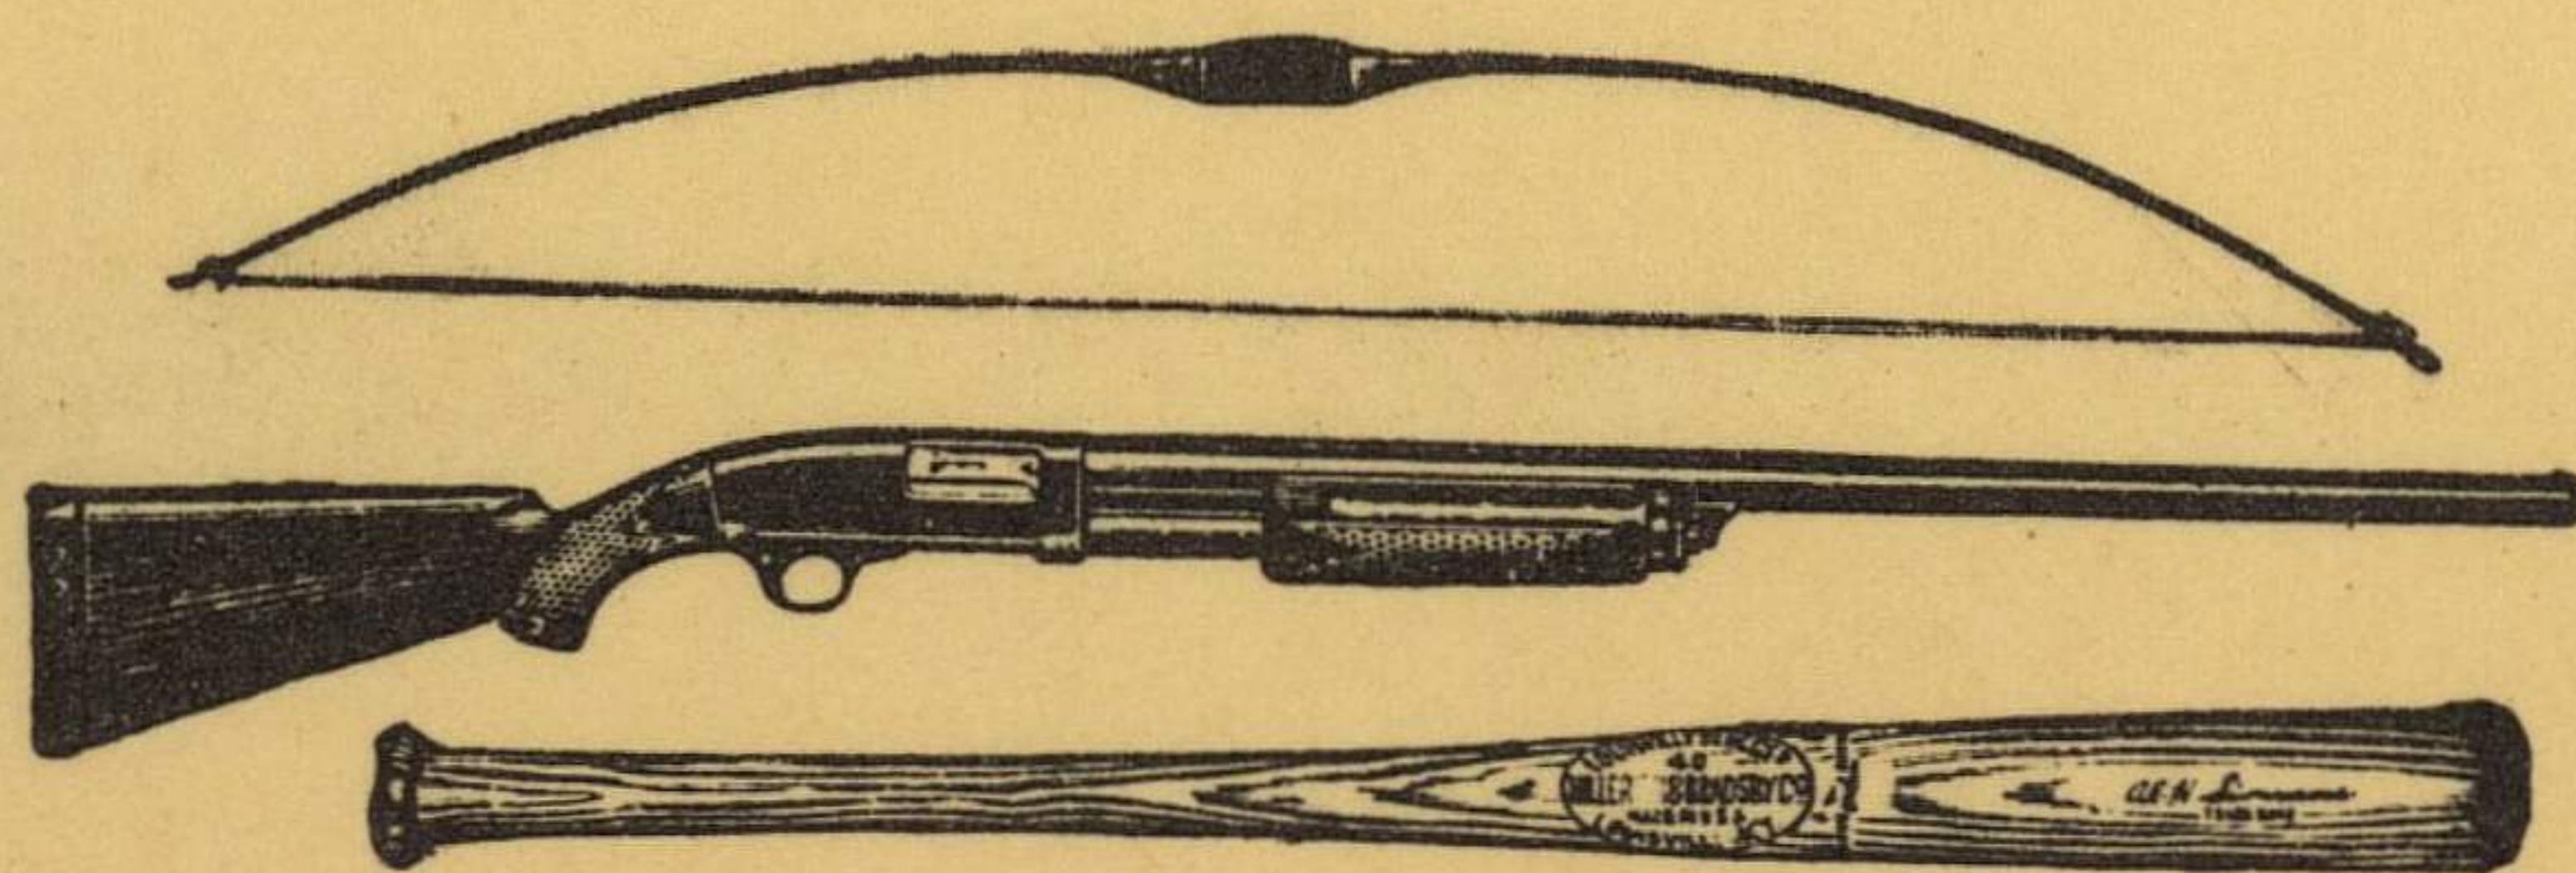

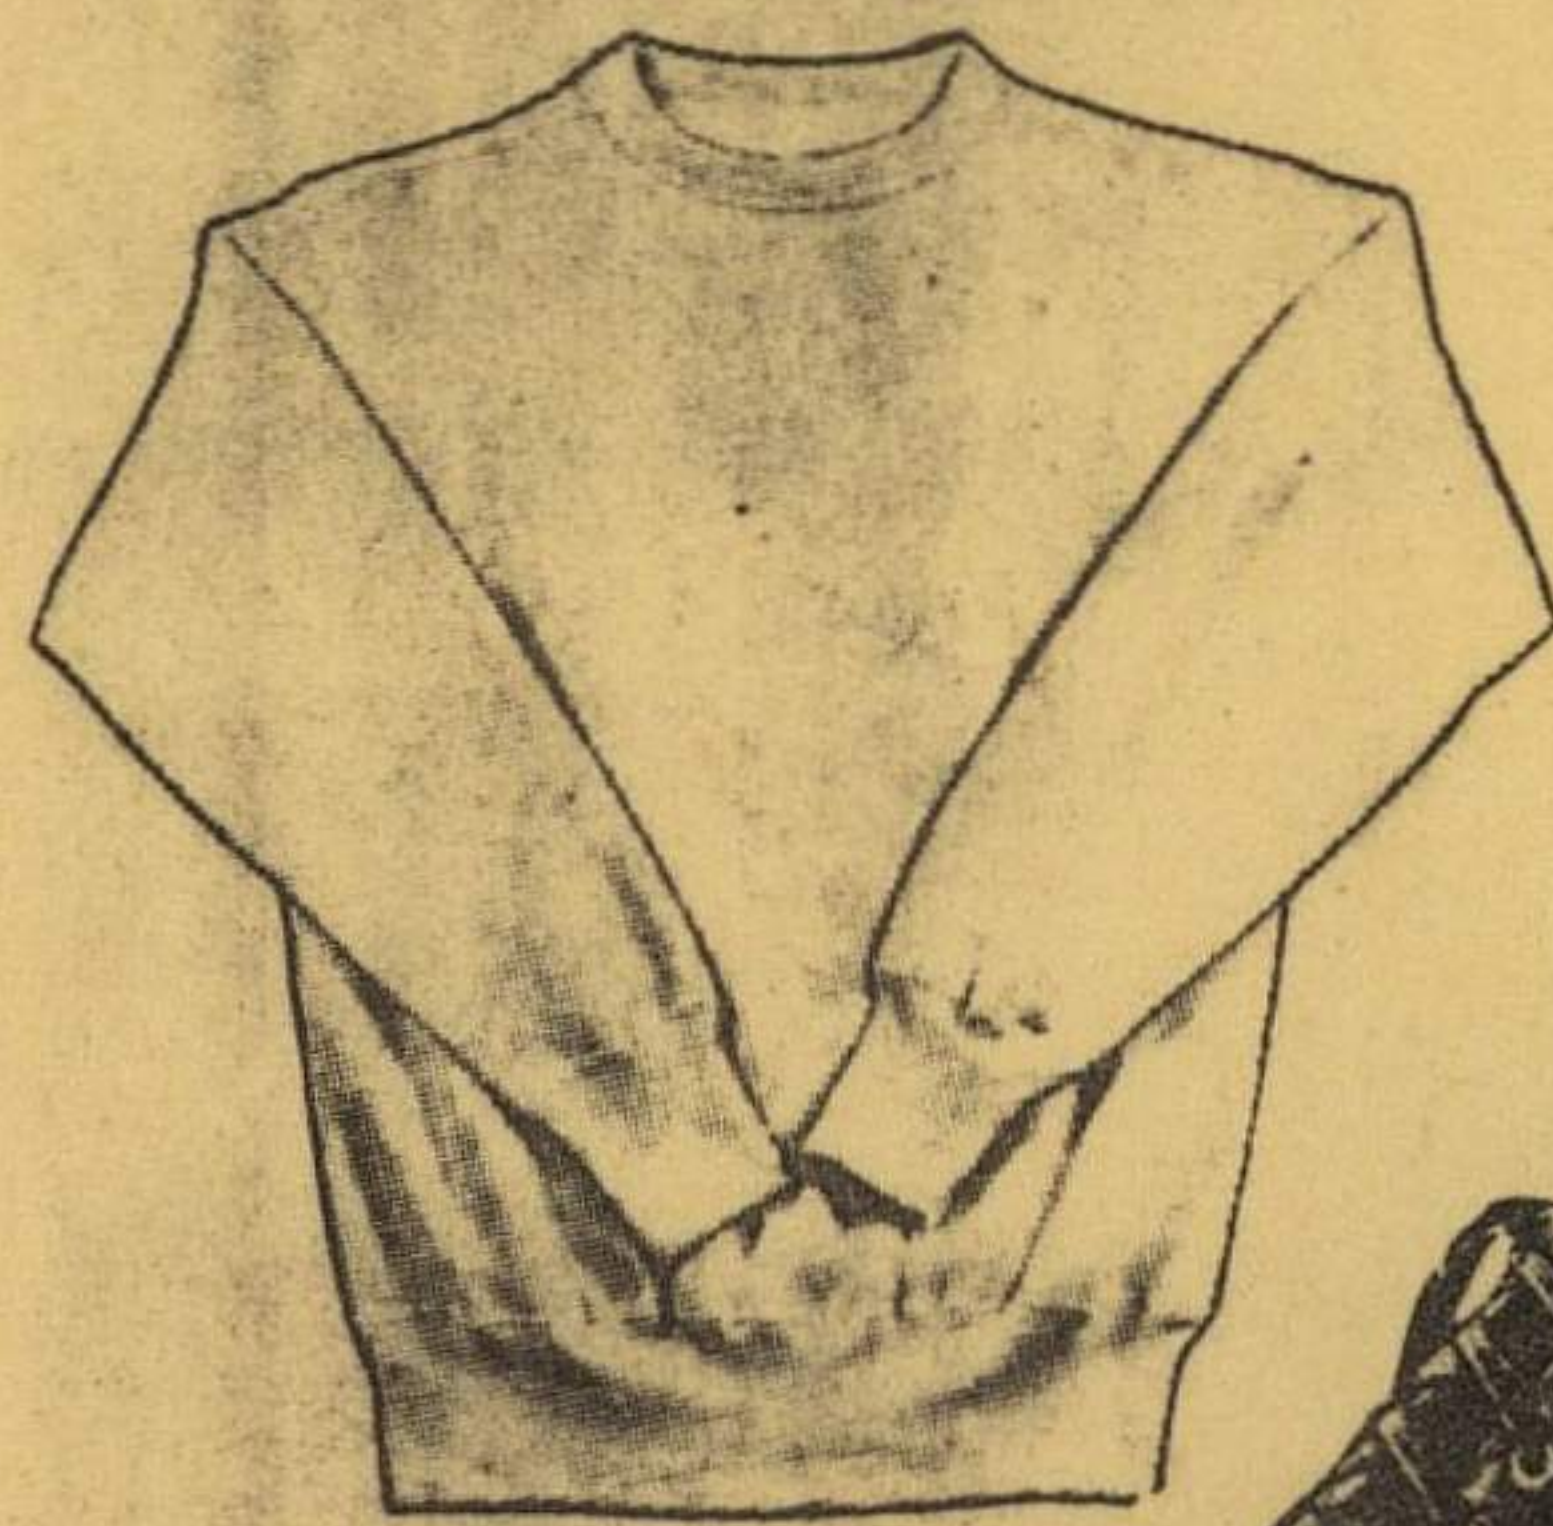

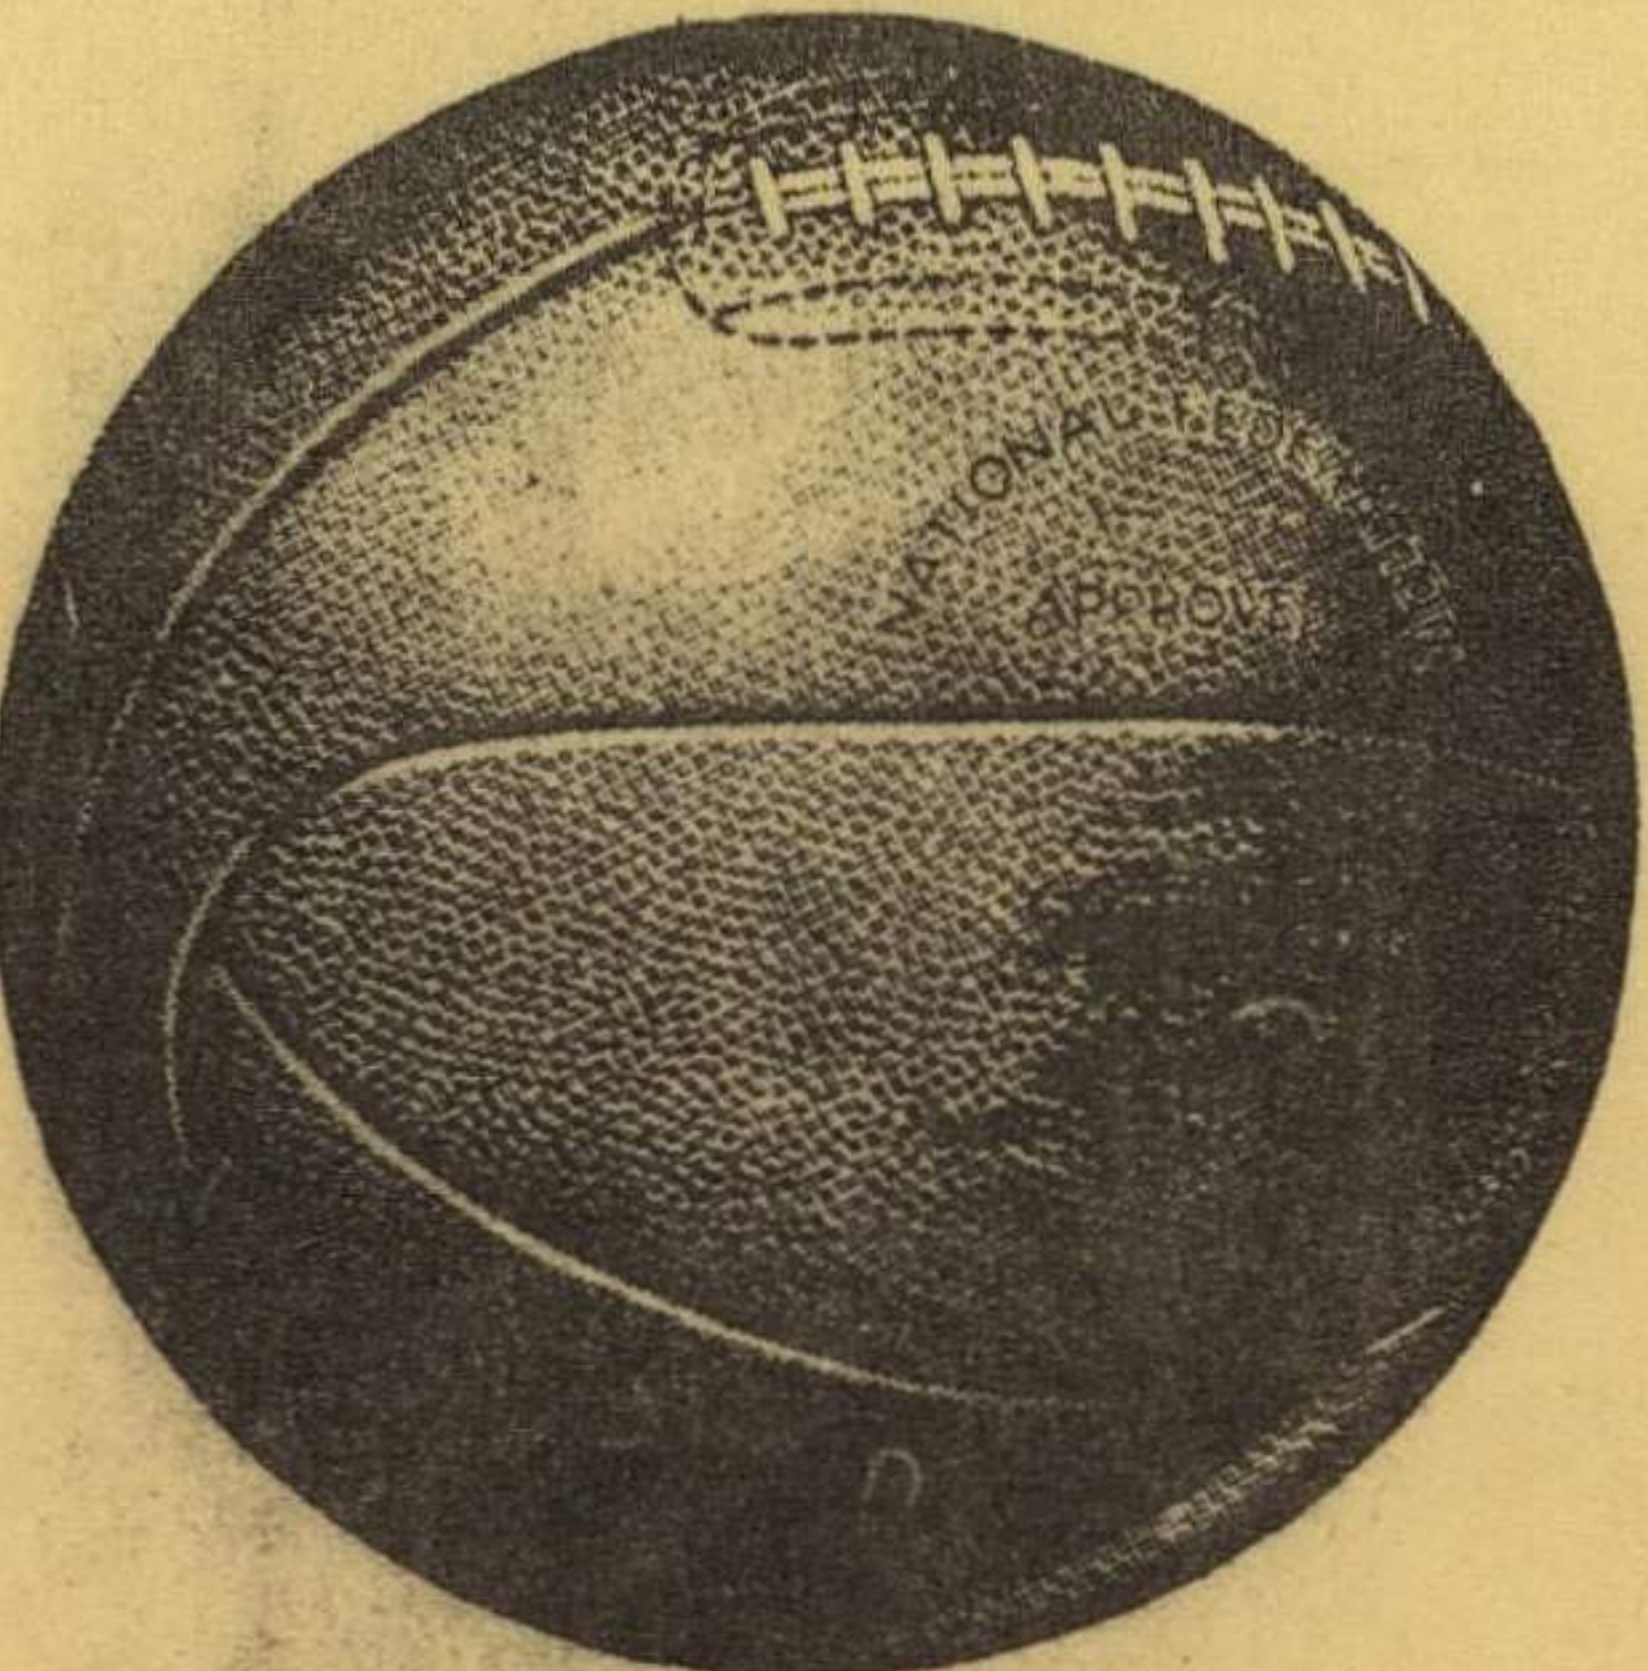

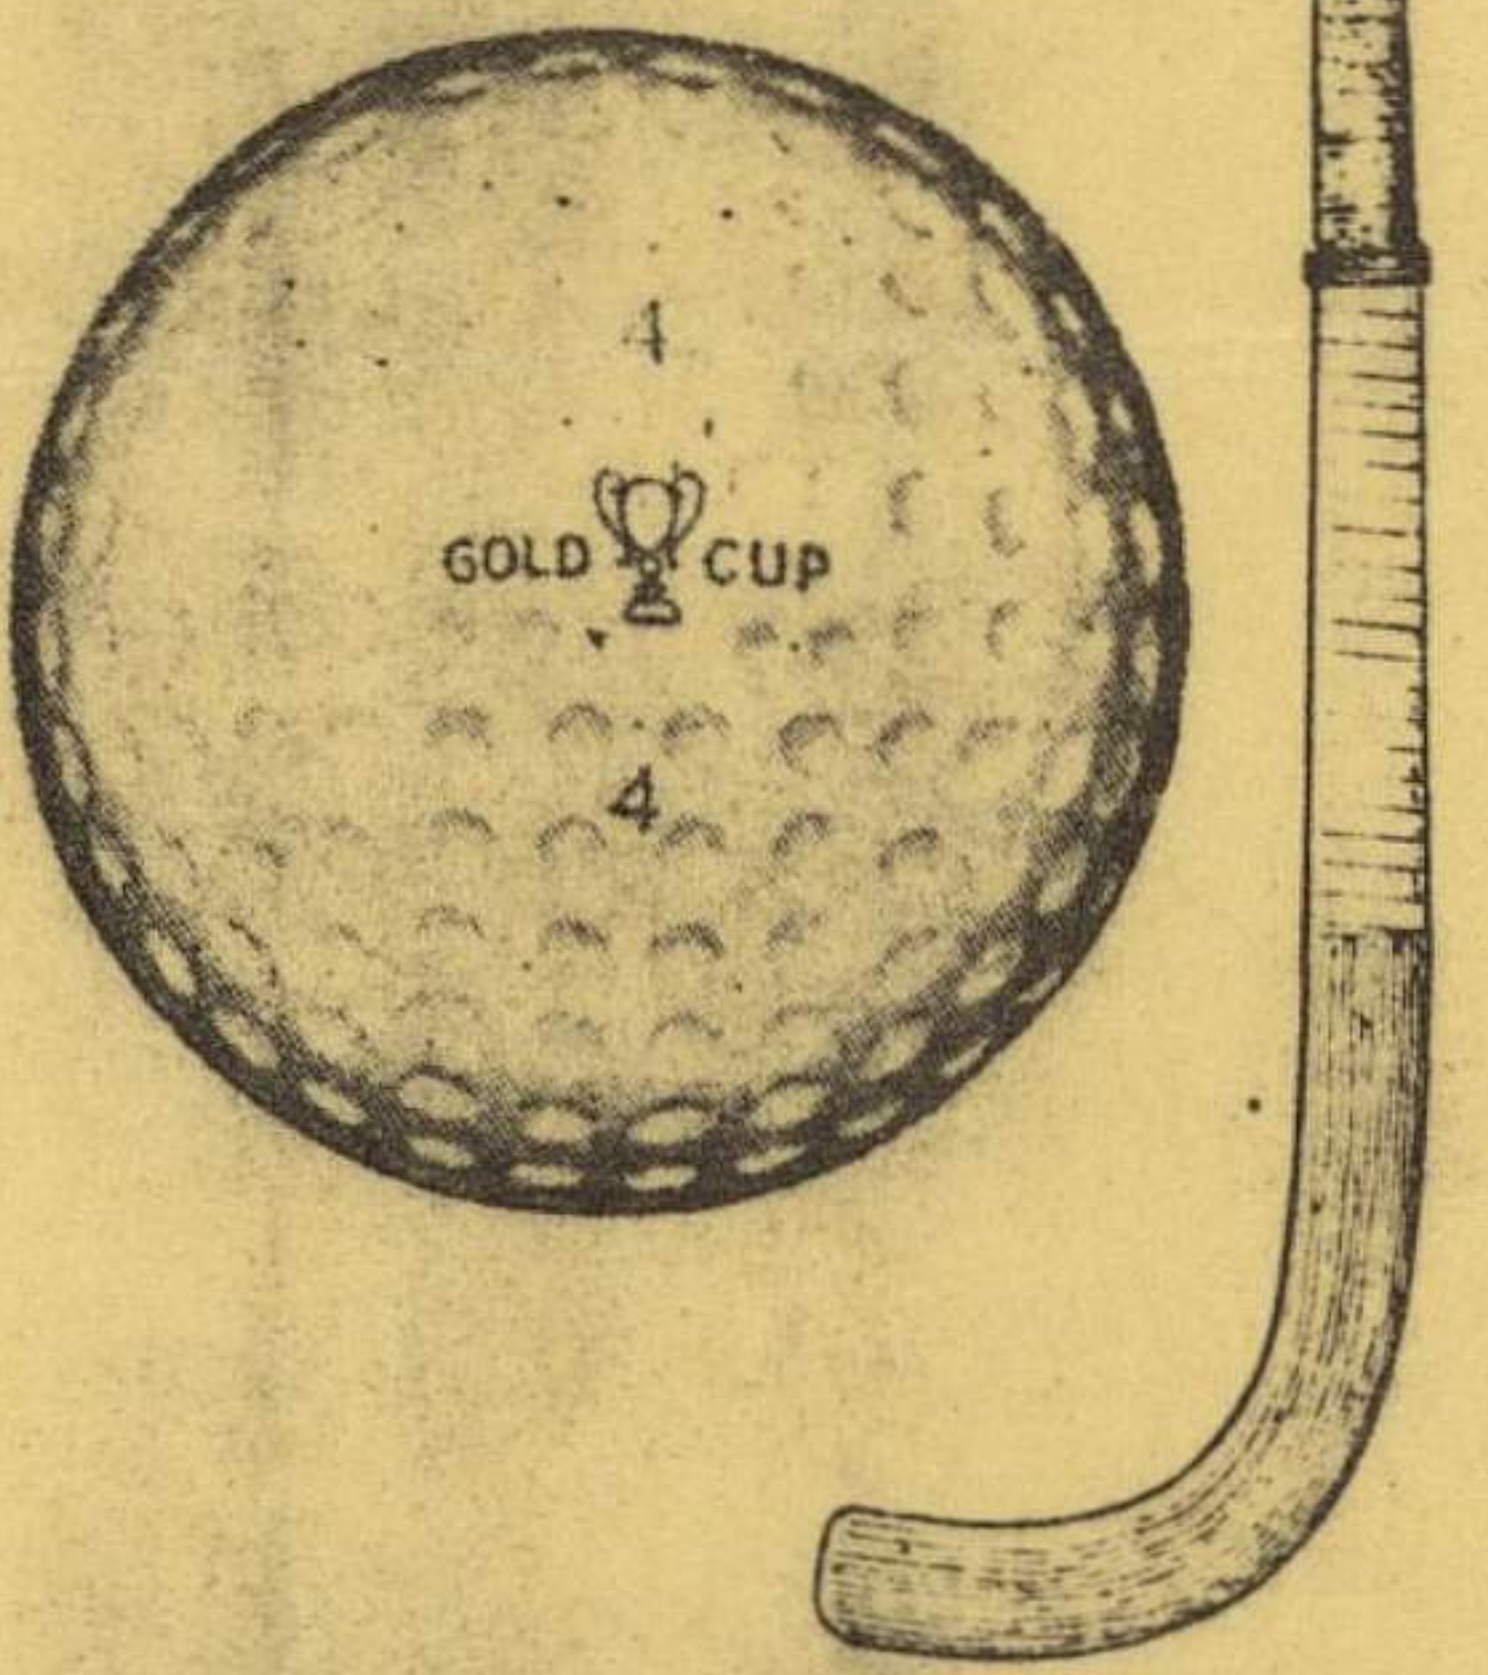

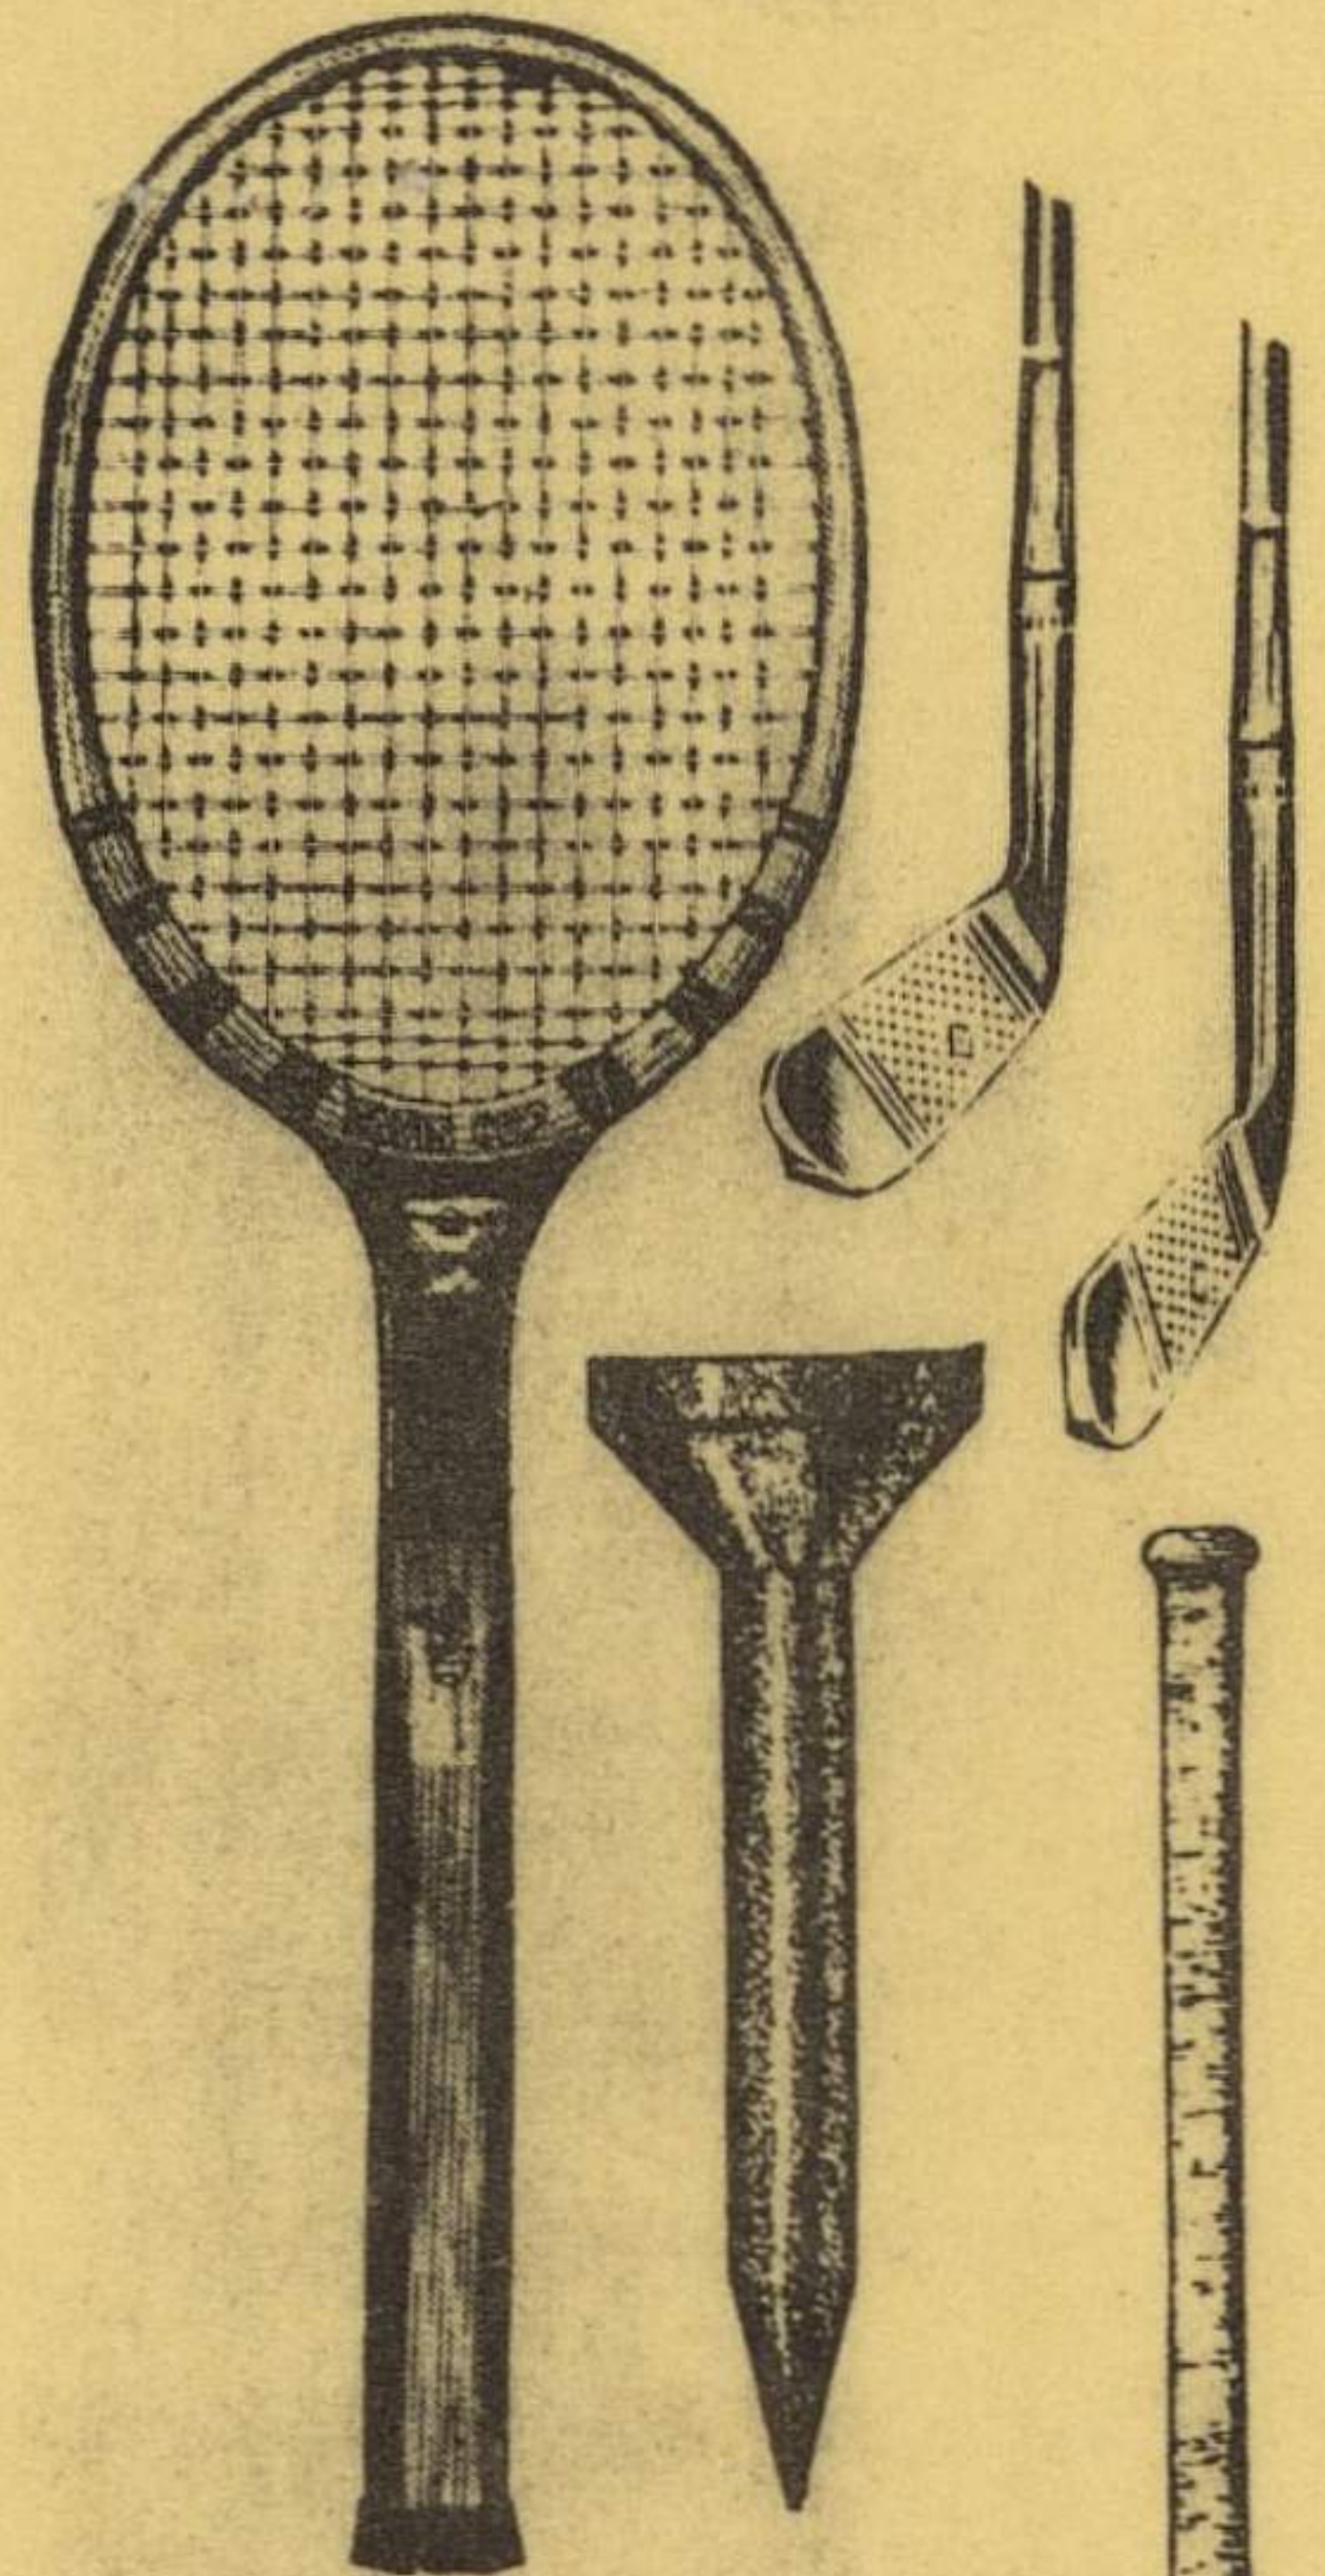

Under separate cover I am mailing you some caps for the ends of your golf clubs and also some of the little buttons out of the center of the caps. I believe you can get some of the boys probably to put these in for you, but if not, if you will send the clubs down or bring them the first time you come, I will have the boys here fix them. I believe, however, if you get a little good marine glue these will hold for you.

Dear Cap:

Yes, I did know that Jack Buckman from Argentine High School had entered K.U. Principal Harmon called me two or three times before Buckman came down.

I knew all about the unfortunate experience in the high school. In fact, I wrote him a letter in long hand as soon as the incident happened and admonished him to keep a "lip upper stiff". I told him that all of us made mistakes, and that if he did not make the same mistake again he would perhaps profit by his error.

One unfortunate thing about Jack is that on the very day he came down here to enroll he took very ill. He is now in the University hospital and has been for over a week. The case was diagnosed as intestinal influenza, but he has some trouble with the blood corpuscles. The granular type and the oval type are just reversed, which any physician would say is not a healthy condition, so they have him over there under observation.

I wish you would keep this in entire confidence as the physicians, of course, would not want to spread such a statement as it might give rise to wild rumor. I would say that the boy has a serious illness, but one which, I hope, is amenable to treatment. They have not been able to diagnose the case as yet, although he is much better and more hopeful of a speedy recovery. However, it does interfere terribly with his school work, and I am afraid he will get so far behind that he will not be able to make the grade.

By the way, Cap, can you order three or four of those bone ends for the gold clubs? I don't care whether the numbers are on them or not. I just want to plug up the openings. They all seem to come out so easily that I believe the fellow that

#2 - Mr. J. E. Turner.

bought the glue that was used in the end of the clubs did not get a very high grade.

I would be mighty happy to have you come up any Sunday and play golf on our new course. The fairways are not good, but the greens are in good shape, and I would be happy to have you. We have had a terrible drouth around Lawrence here and the grass is really in a bad way.

Dear Phog:

I presume you know that Jack Buckman of the Argentine High School has entered K. U. this fall.

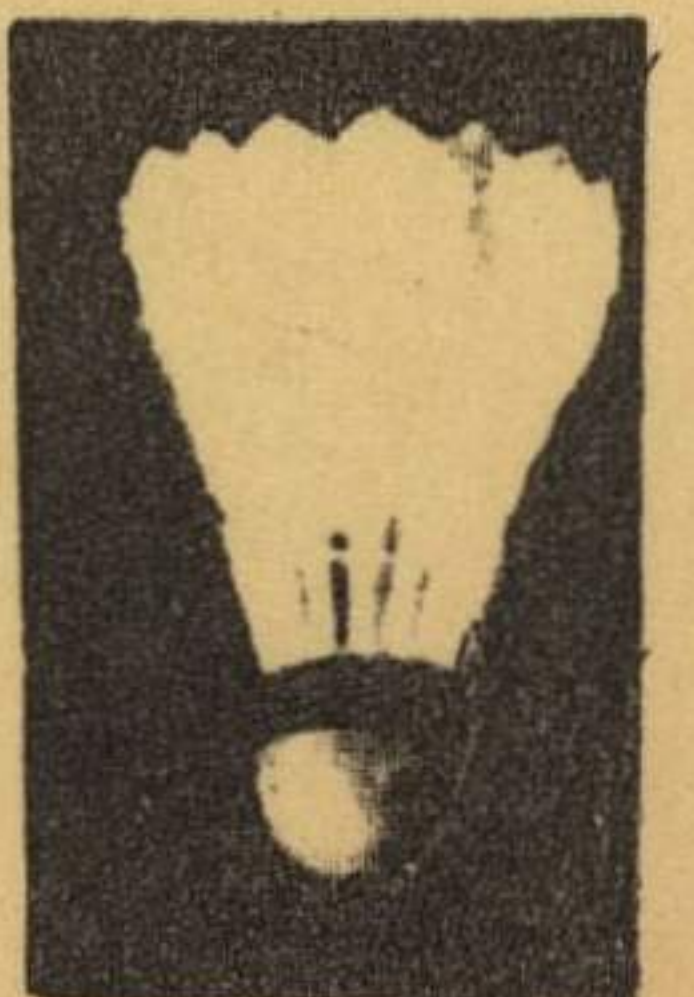

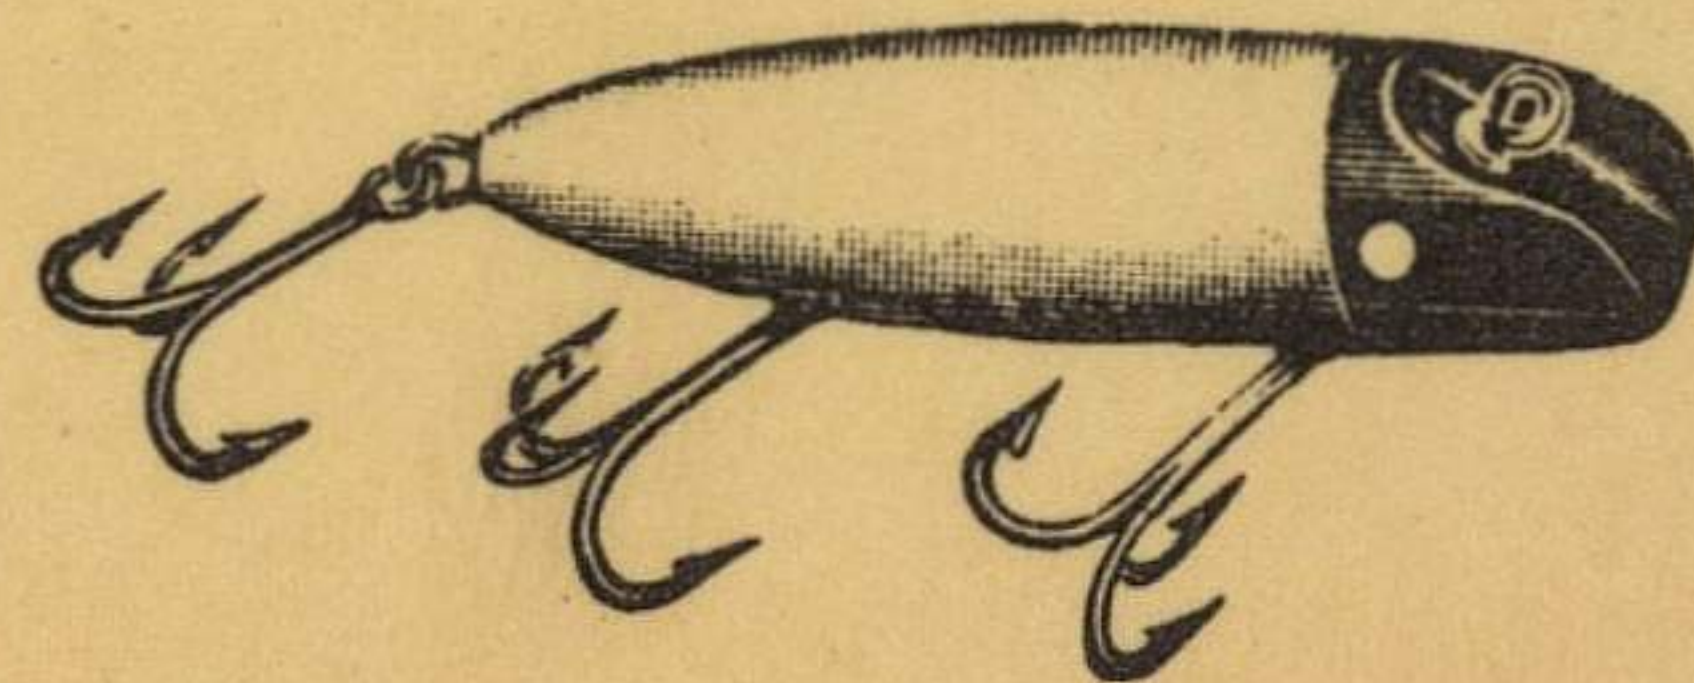

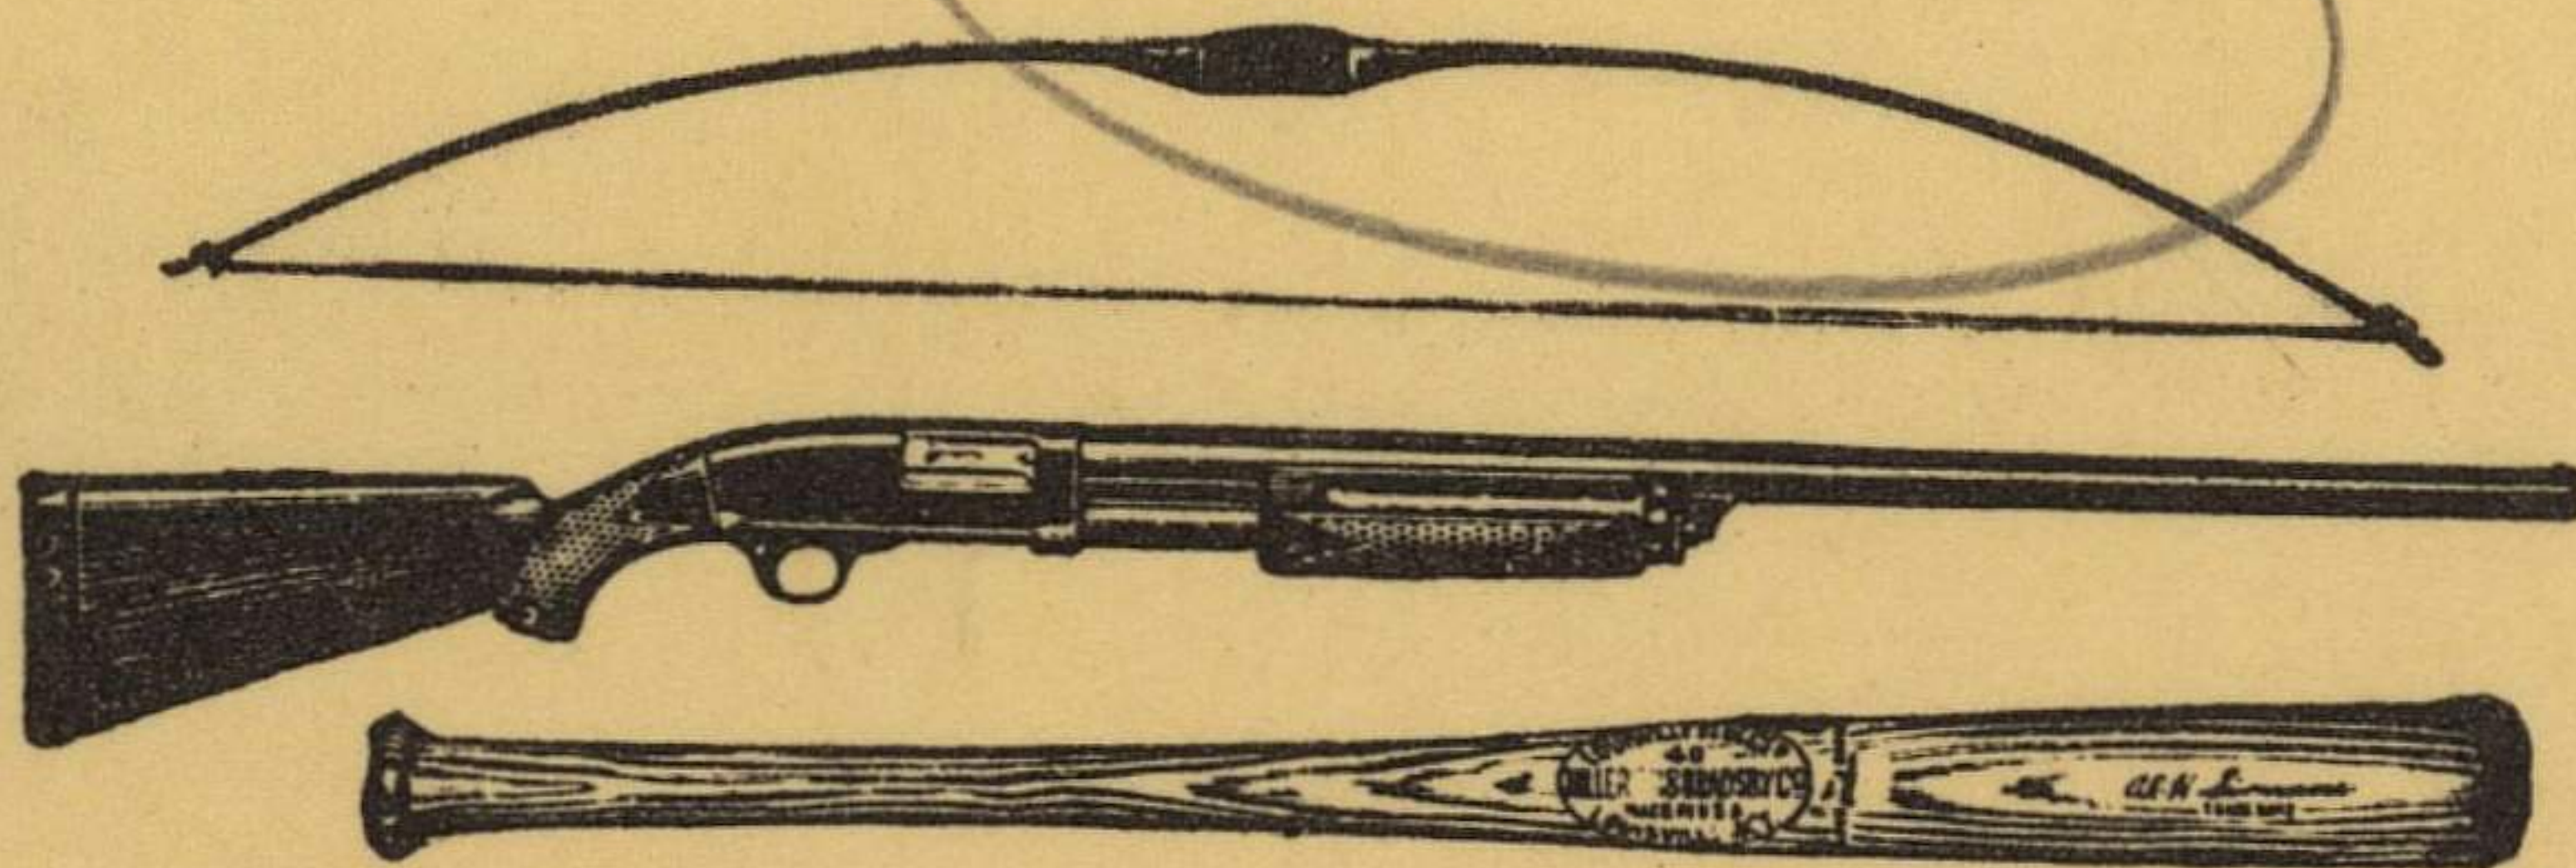

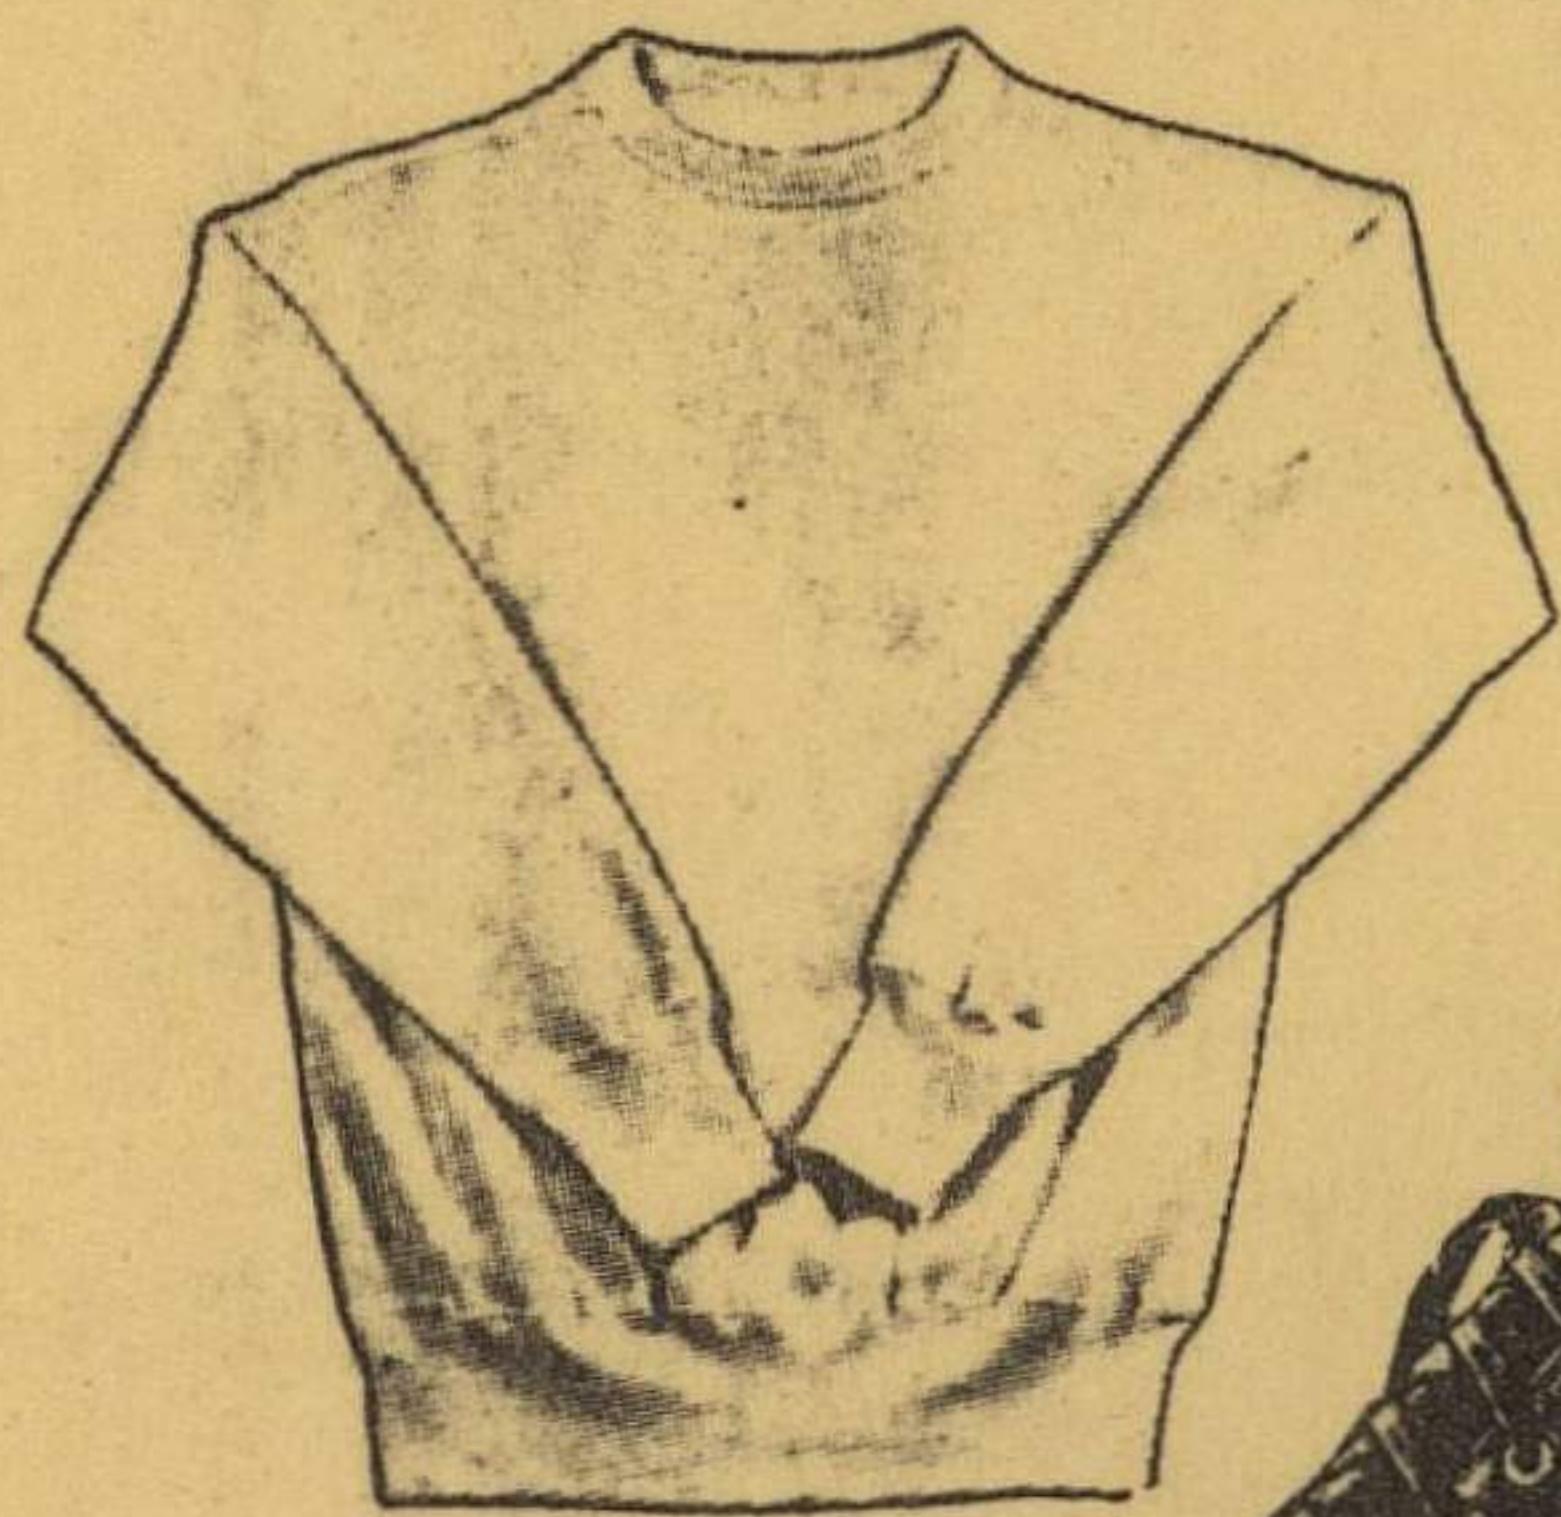

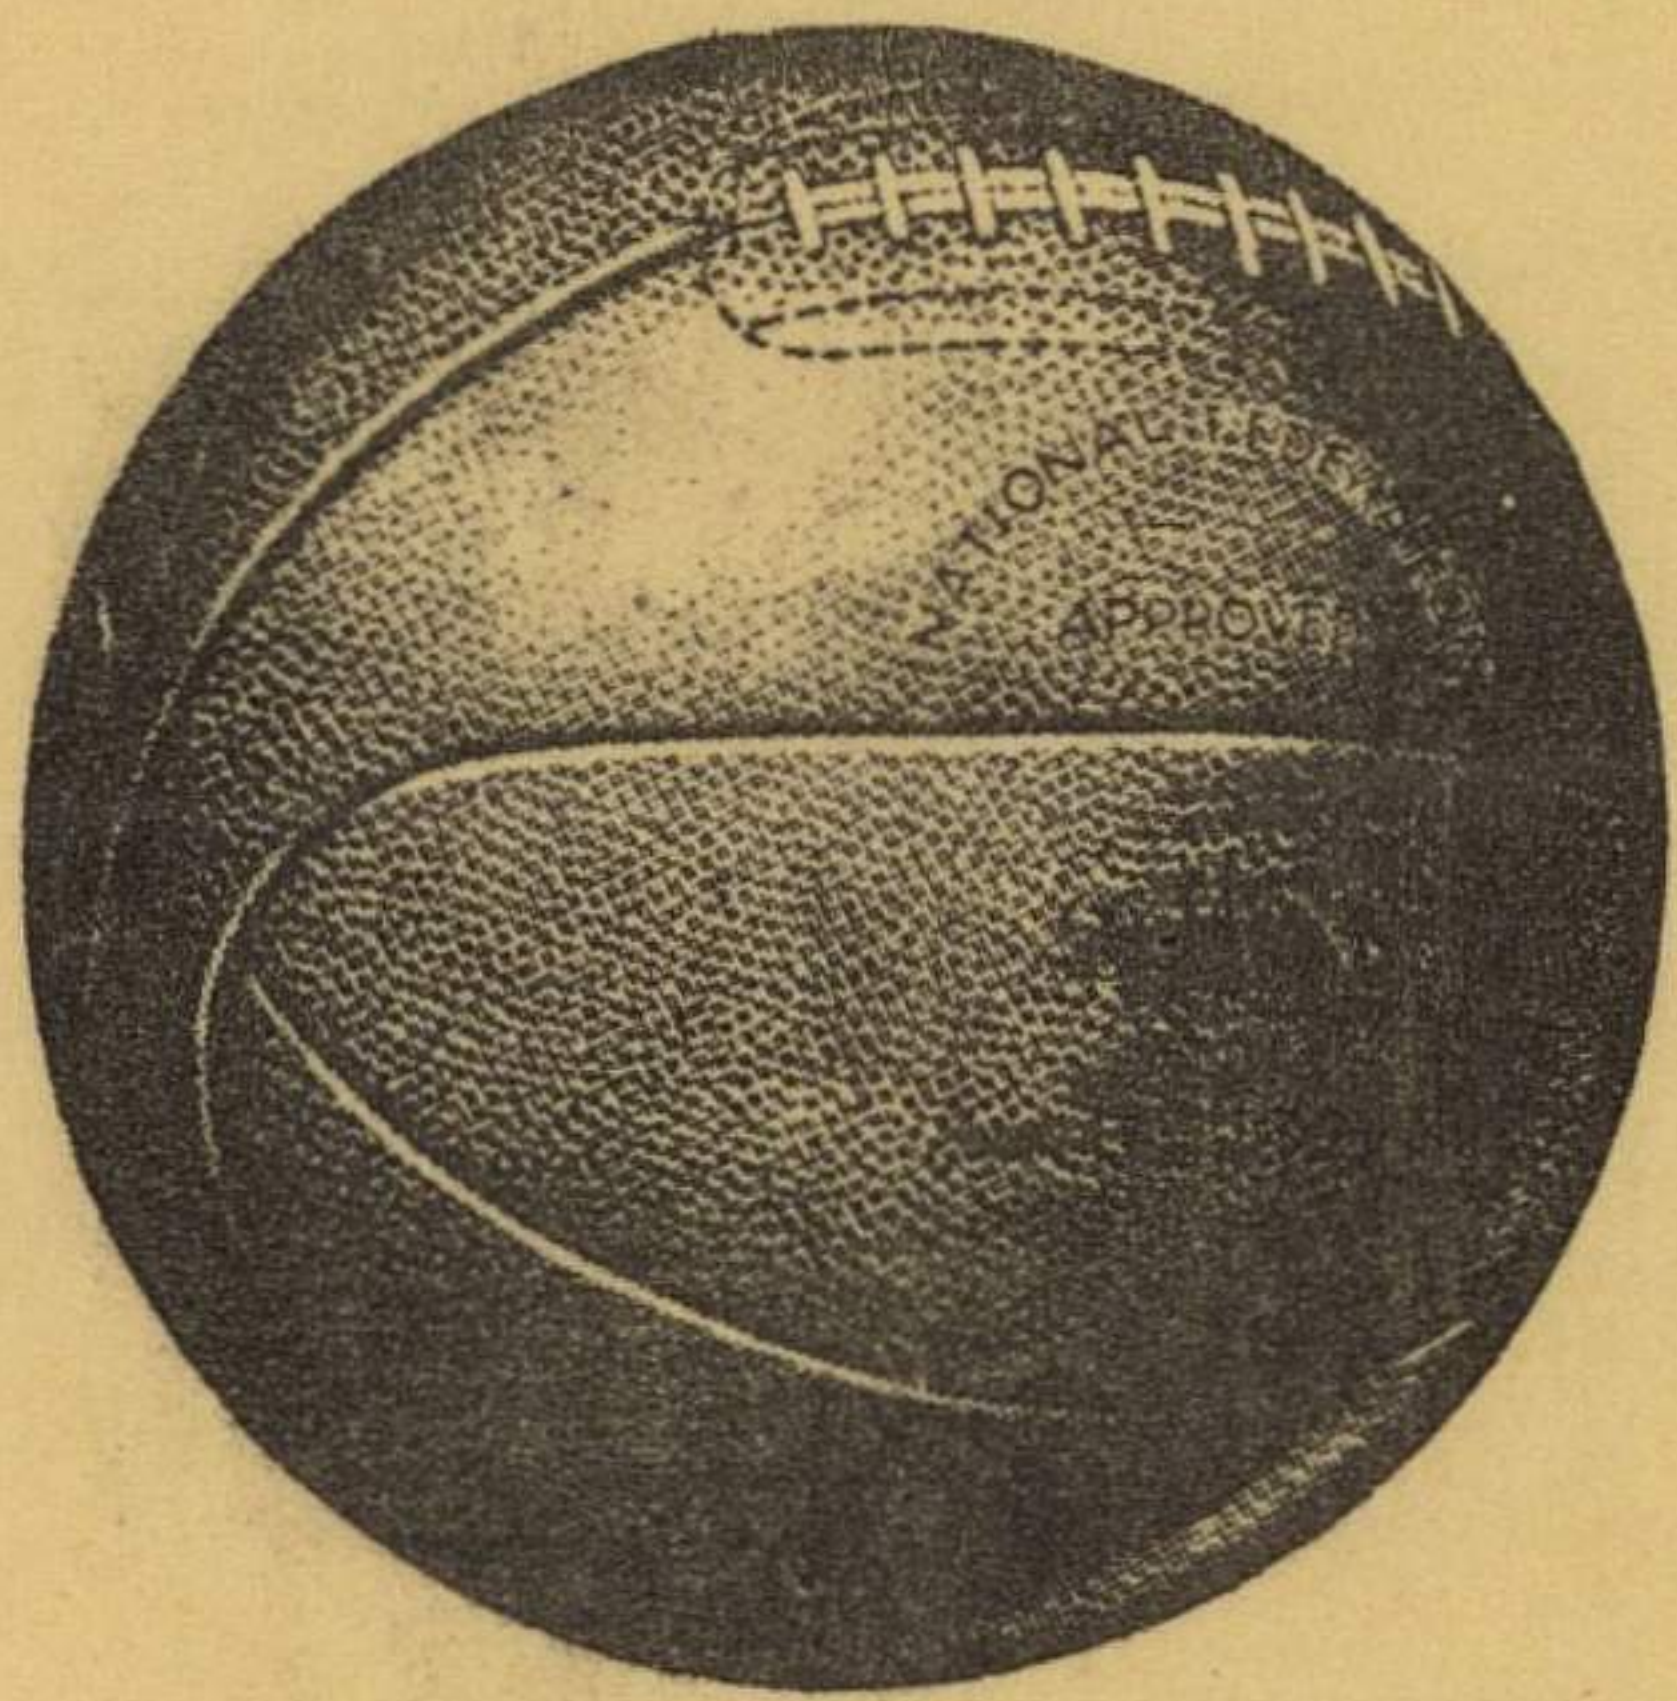

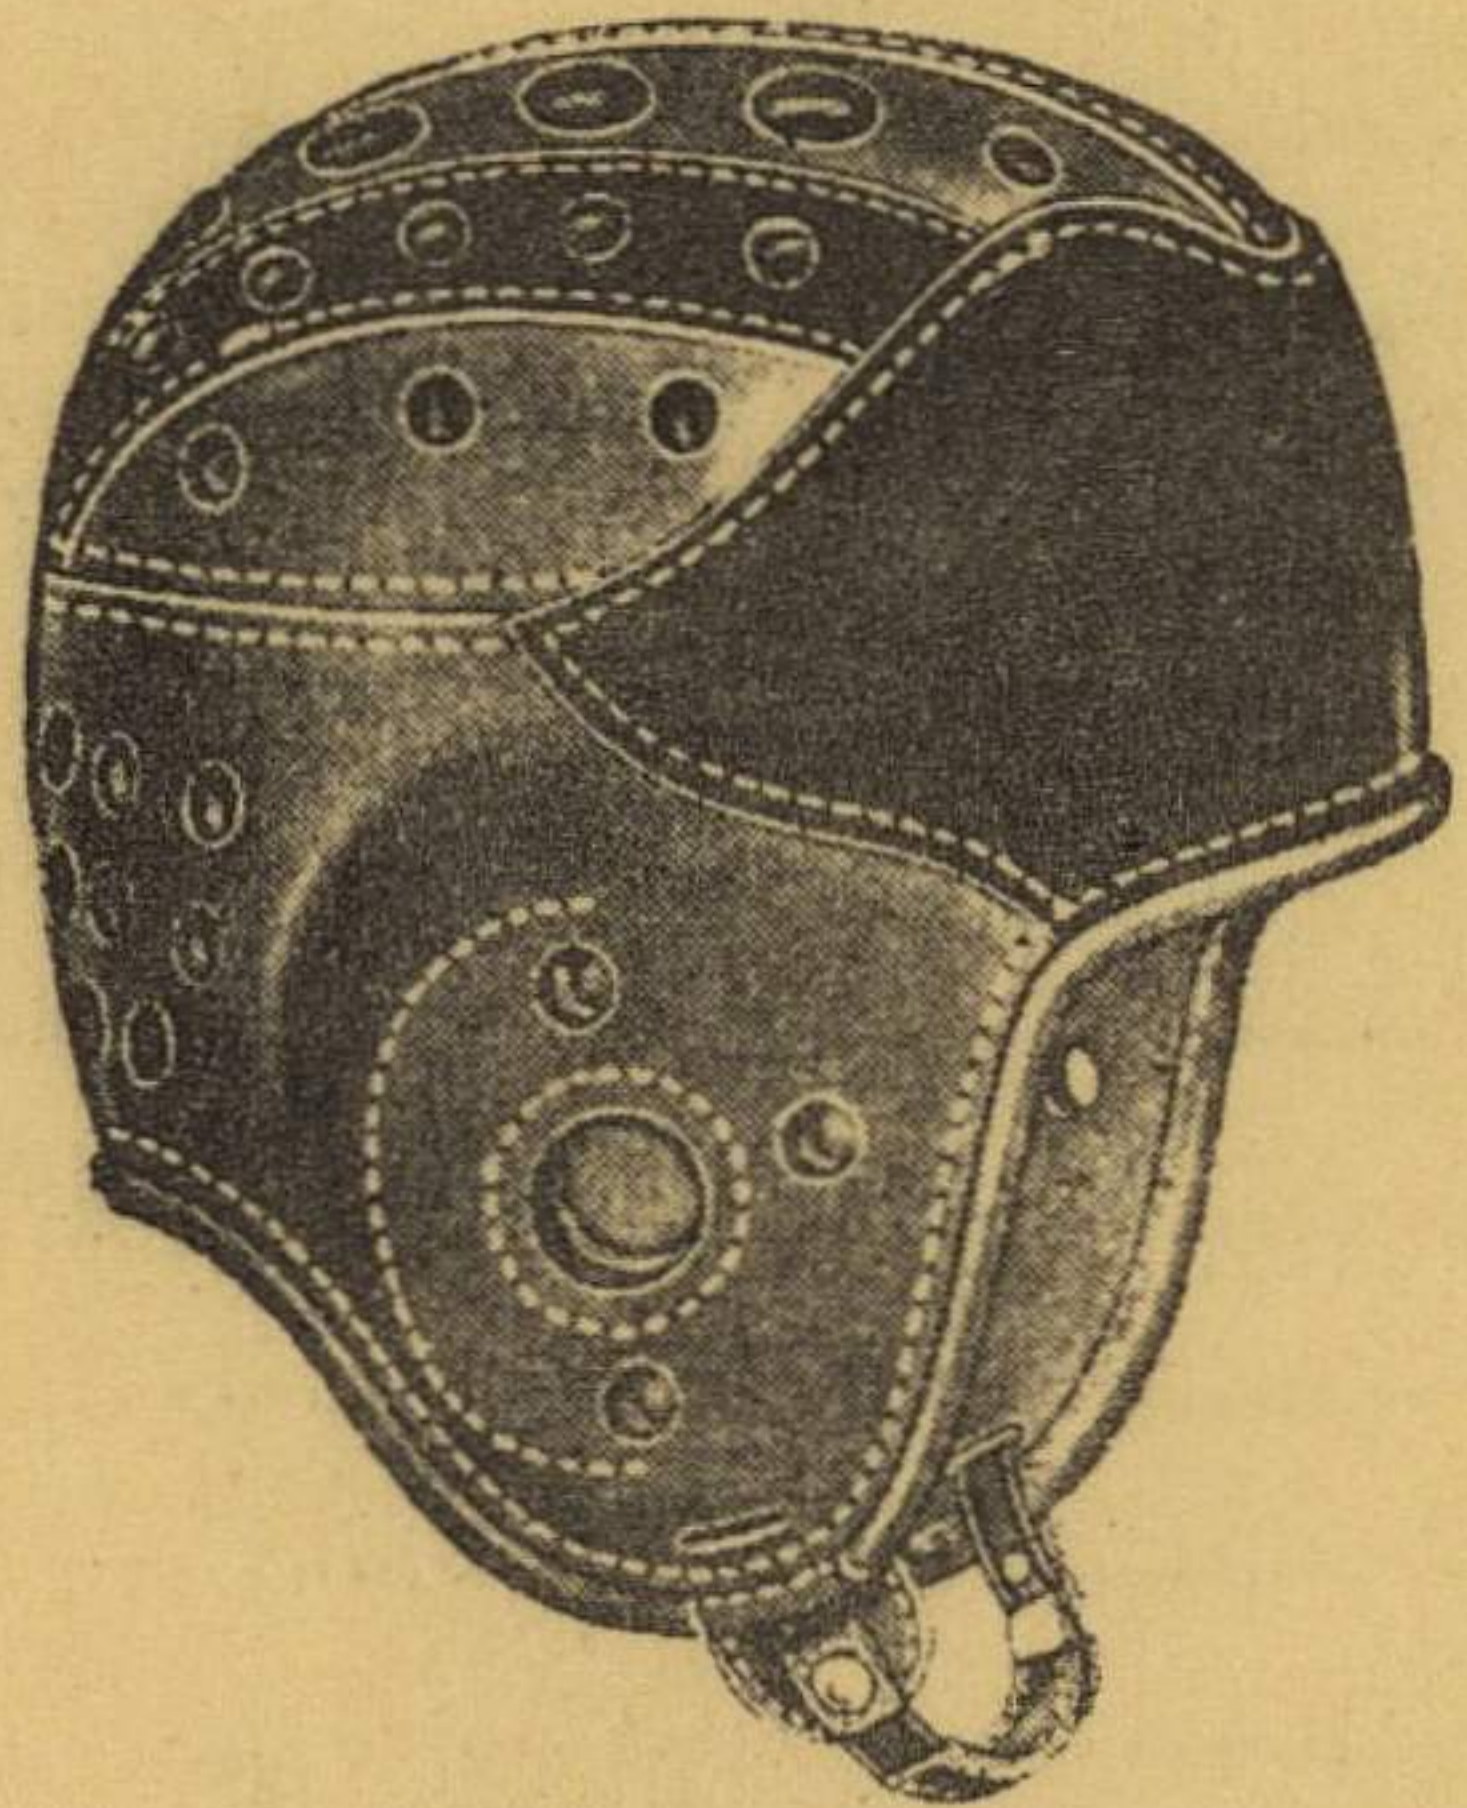

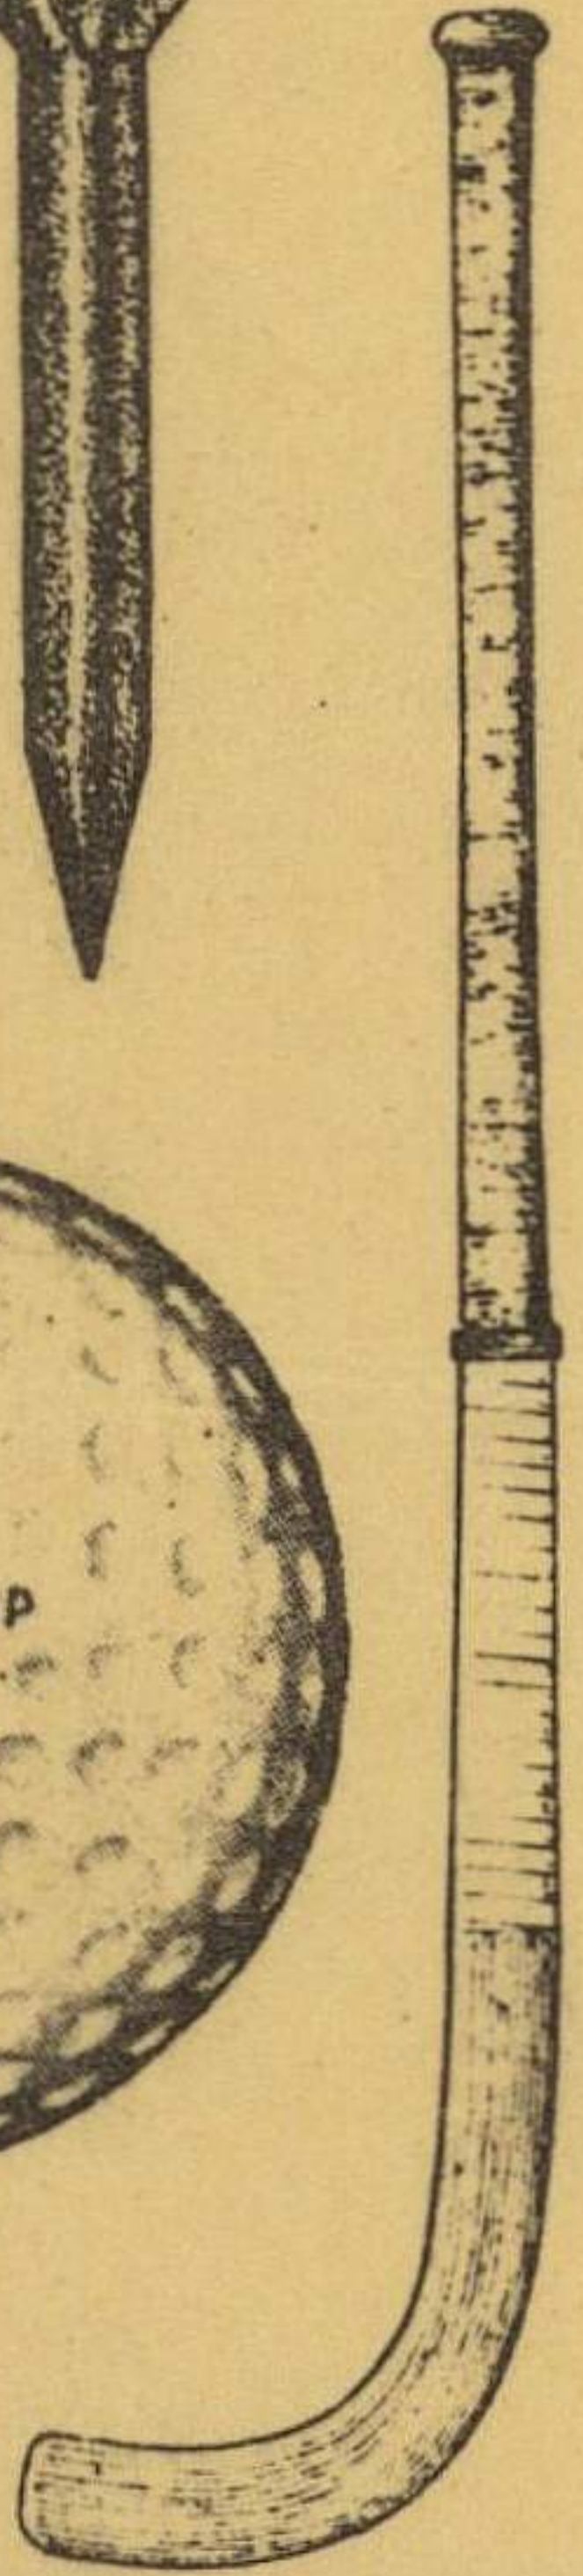

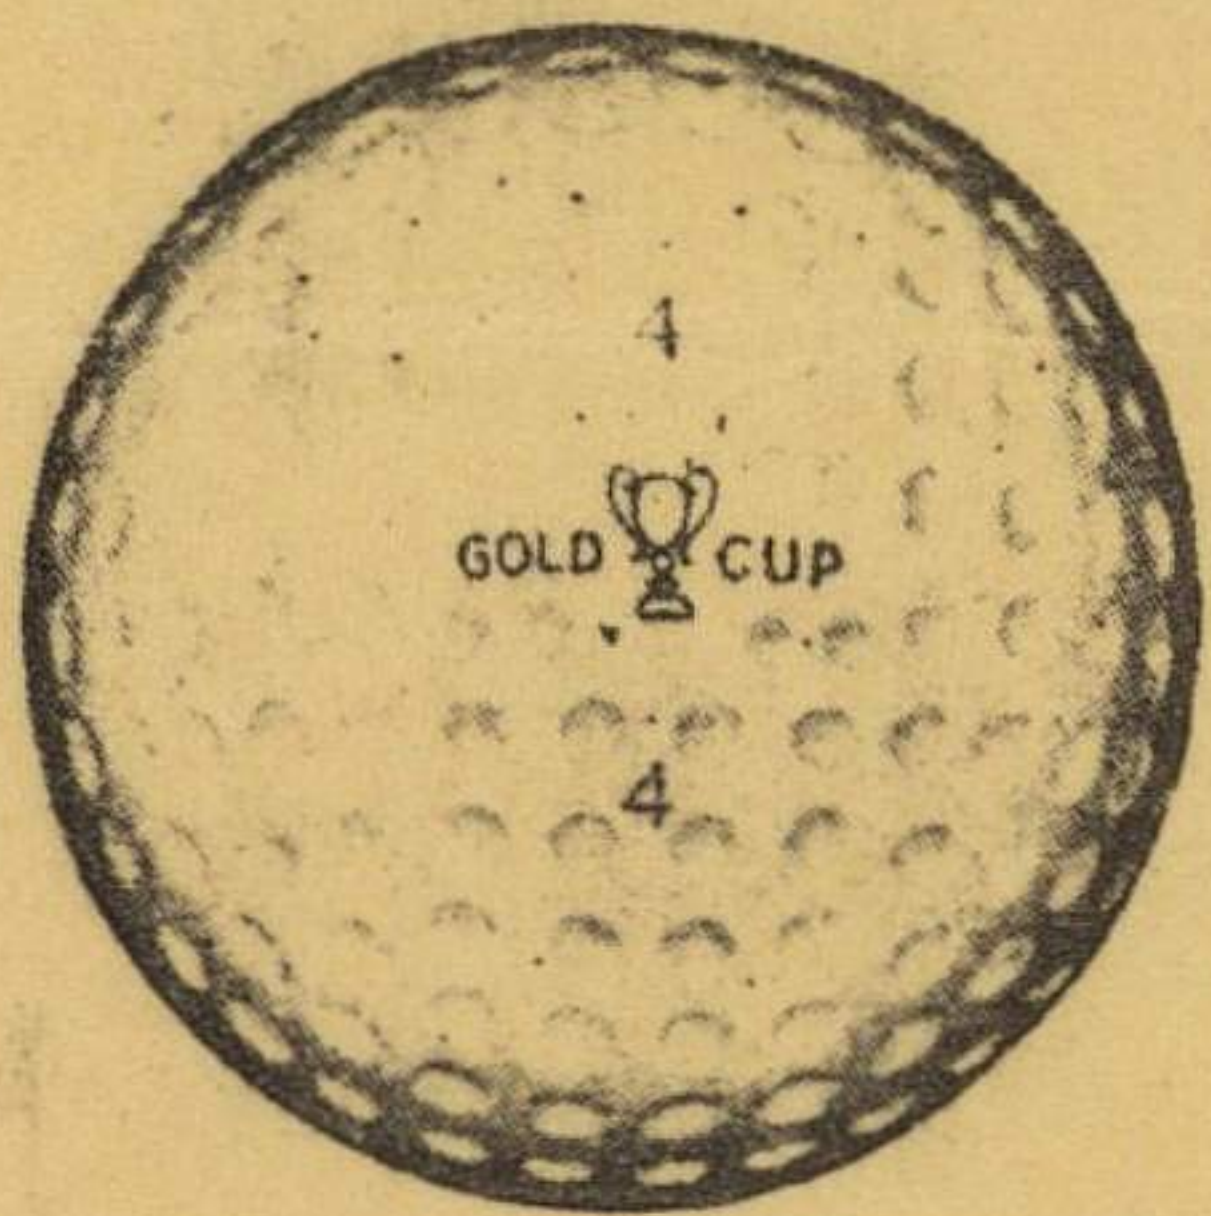

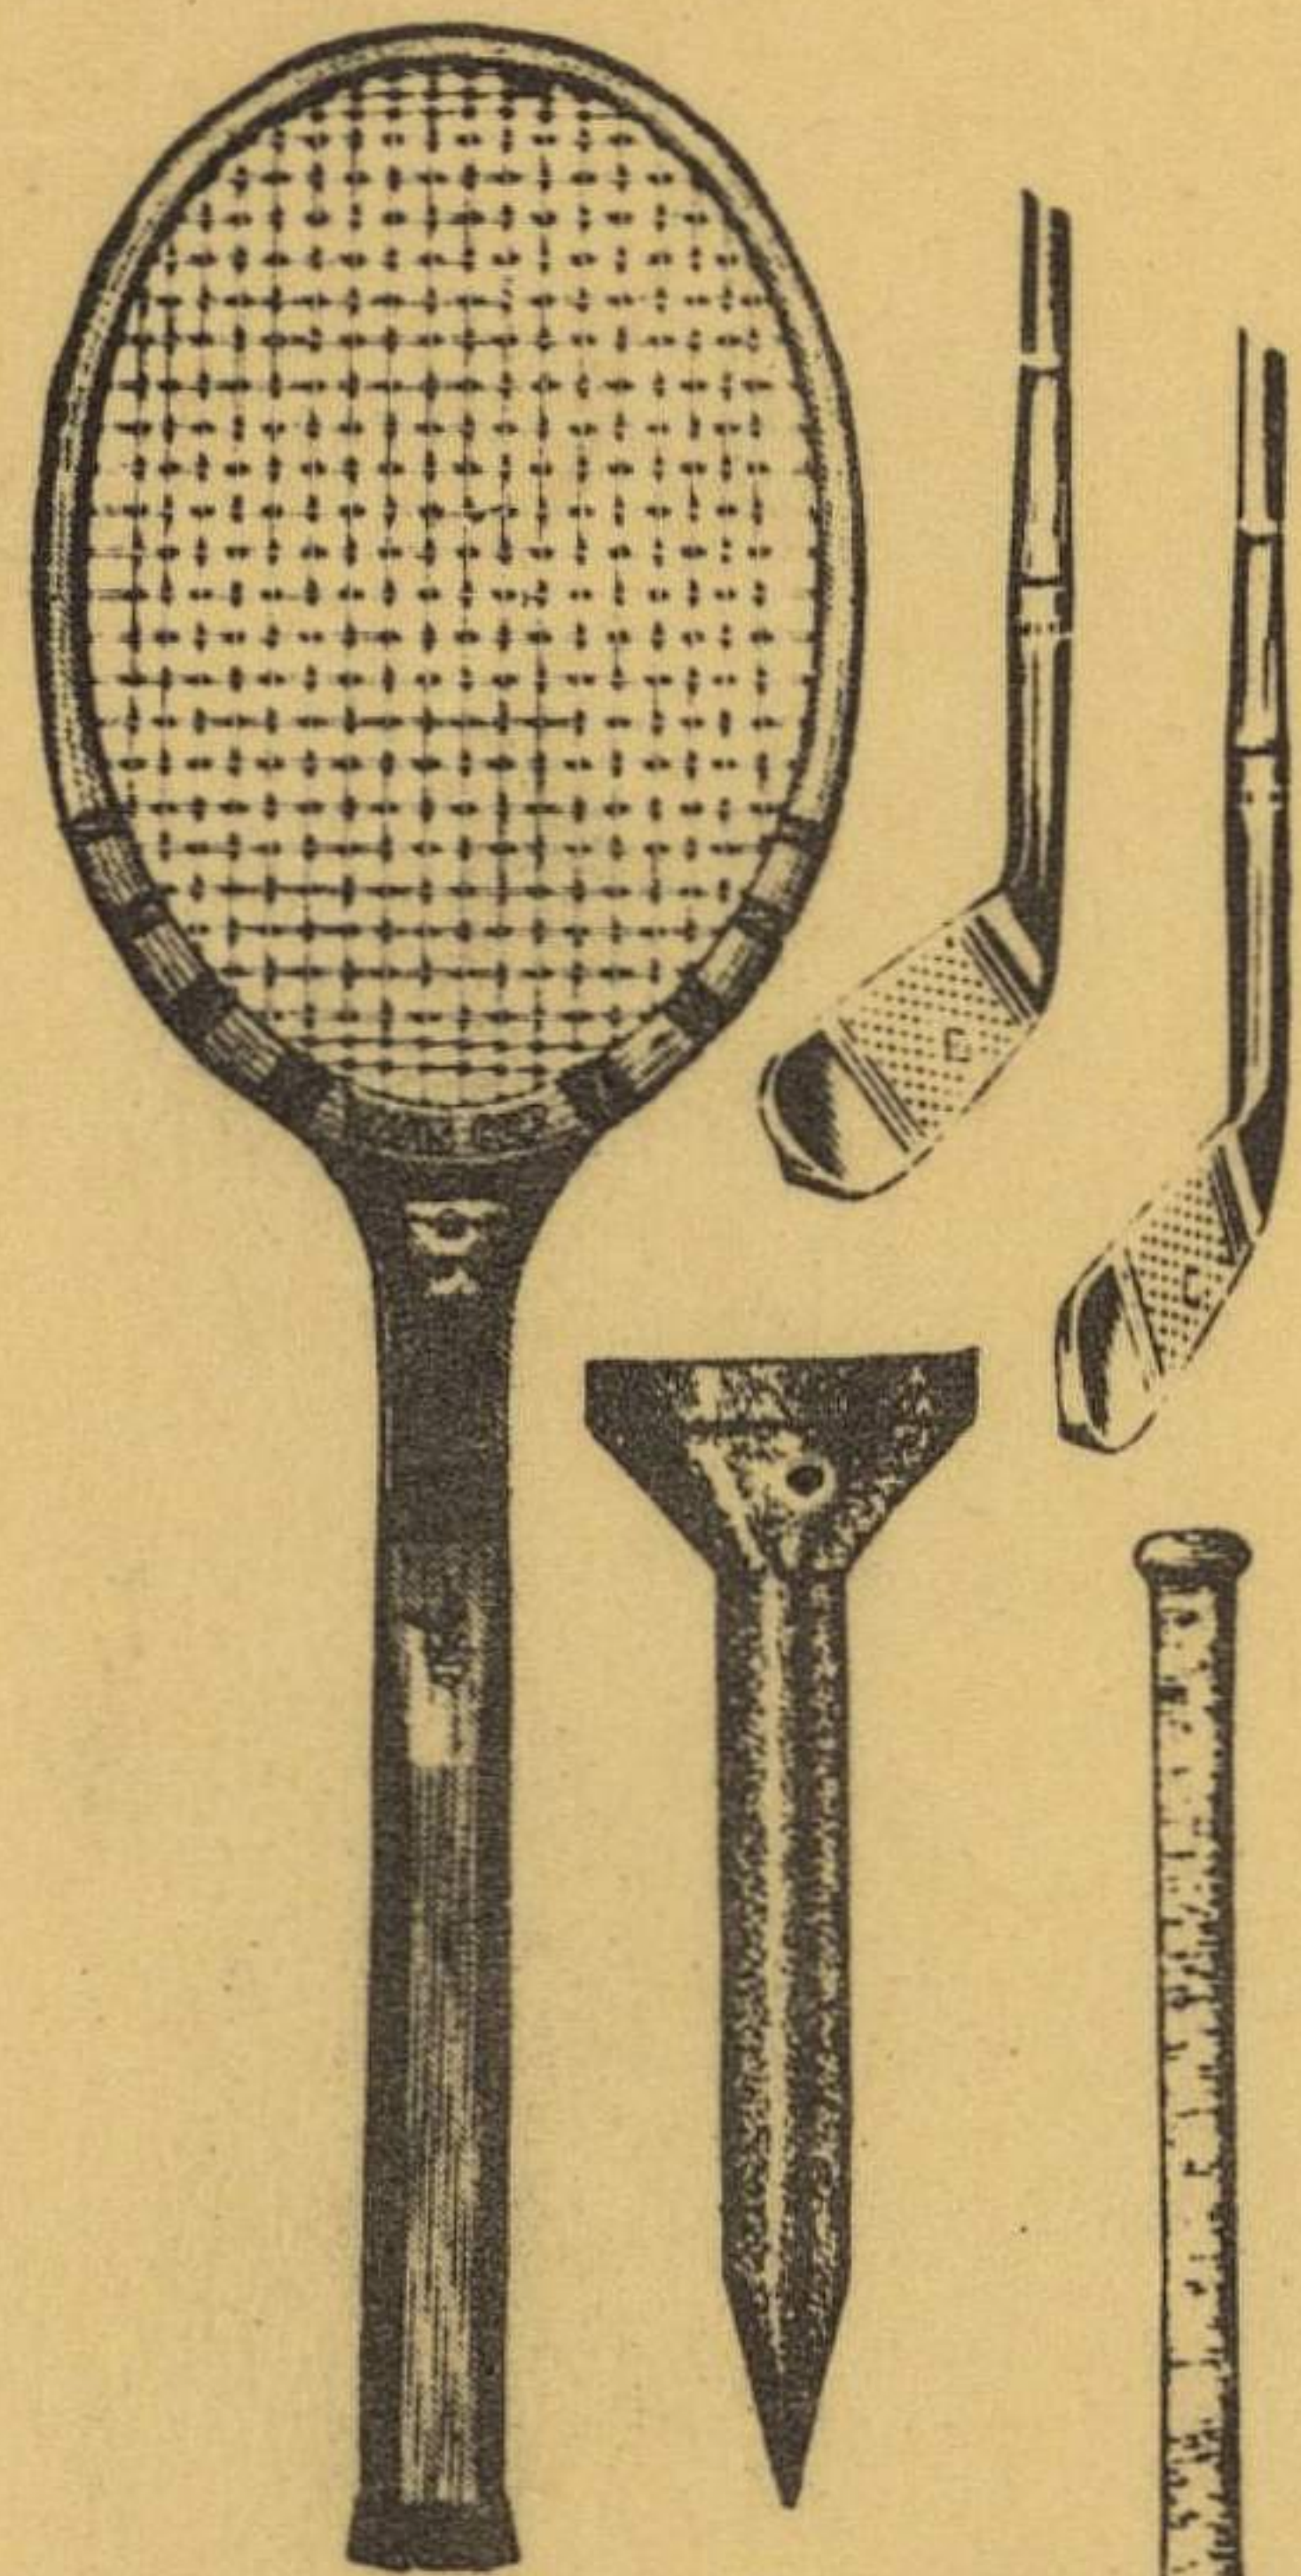

This boy had a little unfortunate experience with one of the officials in a basketball game here, and was suspended, but I think the experience was a good lesson to him. I know the boy quite well and he is a very likable lad and I do not believe he will ever have any more trouble of the kind. He is a splendid basketball prospect and is an extraordinary high jumper for a high school boy, having cleared 6 ft., 5-1/2 inches in high school. I believe you will find him a splendid basketball prospect and I think it will pay you to show him just a little personal attention. He may make you an outstanding star.

I would like to come up some Sunday and have a golf game with you if you have time to indulge in such frivolities on Sunday.

Dear Dr. Allen:

Your letter forwarded here, and I am glad to receive it.

All was set for another man and myself at Nortonville, I would have Science and Math., coach basket ball, and help in track - the other man teach Commerce and coach base ball, and track. Supt. Stover called me to confer with him in Kansas City, and that day the other man accepted a better salary elsewhere.

Then Supt. S. tried to find another man to teach Commerce, and assist in coaching, but was unable to find one at his salary offer. Then he decided to take another (younger) man for coaching, and use a woman for Commerce. We employed the Commercial teacher he intended to use - had called her to come to Nortonville.

Had the first plan gone thru, perhaps I would be in Nortonville. But, delay there, and I accepted here one day before final word from Nortonville. A much better salary offer here, altho a fair one, only.

We have a new school plant about half completed, and school is moving along - soft ball season now. Soon we will start basket ball, and I have some fair material from last season.

Expressing appreciation for my several courses with you, and thanking you for your assistance in many ways, I am extending best wishes for your success in the new arrangement in Physical Education in the University.

Sincerely yours,
