

May 15, 1943.

Mr. A. W. Livingston,
E. W. Bacharach & Co.,
Rialto Building,
Kansas City, Mo.

Dear Mr. Livingston:

Thank you very much for your two letters of May 14th giving your recommendations for rehabilitating our filter system and recirculating system, and also the names of firms making tile.

I have sent through our University Business Office the requisition for bushings and strainers, and sand and gravel, and am asking the Budget Committee to approve the larger item.

I am leaving Sunday night for St. Louis for the Rotary Convention, and as soon as I return I will take this up again with the Budget Committee. You will hear from me very soon after my return.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
