1008 Oak Street

Dear Phog

I have been trying to find a time when I can come up to see the pool and I find that I can best come up next Saturday the 12th. We are so short handed here for help that I was unable to get away this week, so if you can please make it for next Saturday.

If the pool is full I will not be able to tell you very much about your trouble, so if possible have the pool empty when I come up. If the pool is full I would not want you to empty it for my inspection as I feel that would be a waste of the cost of the water. It might be more convenient to wait until you clean the pool then you would loose that water.

Let me hear from you as soon as possible.

Best regards to you and Bess,

Sincerely.

H M Ashley

(Kinie to you)
