

May 21, 1945.

Dr. Leonard Axe,  
University of Kansas.

Dear Dr. Axe:

After studying the new sketch for the remodeling of the swimming pool, we approve the depth line as indicated in red pencil on the blue print.

I desire to call attention to the fact that our diving board is 14 feet long, which might cause a change in location of the fulcrum.

Sincerely yours,

FCA:AH

Director of Physical Education,  
Varsity Basketball Coach.
