

# Recreation Hi Lights

By ALBERT WABAUNSEE

The K.U. recreation program will close August 5. Dr. F. C. Allen and his physical education classes have organized and carried out this program, and are well-pleased with its success. The supervised playground has been the main branch of this program.

In order to take advantage of nature's gift to K.U.—a cool, breezy hill-top, the playground was placed atop Mt. Oread. It has been open to the faculty and students and their families almost every evening throughout the Summer Session. The playground has afforded facilities for badminton, shuffle-board, archery, ping pong, croquet, organized games, and folk dancing. The gym has been open to anyone who cared to tumble, work on the bars, etc.

Doctor Allen, Mrs. Josephine Sams, Mrs. Ernie Vanek, Miss Evelyn Harriman, Mrs. John Cress, and the elementary playground and community recreation classes have worked hard supervising the various parts of the playground and were extremely gratified by the attendance record—an average of 100 children and 50 adults each evening during the sessions.

Other branches of this recreation program have been the swimming hours, supervised by John Cress, intramural softball, officiated by Doctor Elbel and Doctor Bayles, and the regular weekly dances—one informal dance in the Memorial Union ballroom, three cornmeal cakewalk dances, and one all-Summer Session picnic and dance. The attendance at those events was good and everybody enjoyed them.

The recreation program was begun as a social center for Summer Session students and the faculty and was meant to provide relaxation and entertainment for them. The leaders hope that it will give those who take part in it ideas to take home and use in their own communities. Doctor Allen is already looking forward to next summer and is planning to add new games to the playground and more arc lights.

The recreation supervisors and officials say "Bood-by until next year!"

By BUNNY GREEN

Eight weeks of fun and frolic for the youngsters, who came up to the quadrangle on Mount Oread at night are coming to a close on August 5. During these past eight weeks the children and parents of the community have come up to the community center for a grand time every night. The young children just waited for the minute when the piano started playing and then rushed over to the band platform to participate in the folk dances and singing games in charge of Mrs. John Cress.

The mothers and grown-ups enjoyed watching these rhythmical activities almost as much as the children. The mothers relive their own youth in the dancing of their children, and probably hope they will become a future Ted Shawn or Ruth St. Dennis. Some of the two and a half and three year olds furnished much amusement for the audience because they trot around up on the stage, not knowing where they are going or what they are doing, but having a big time in general.

Mrs. Josephine Sams and her elementary playground class were in charge of games and sports on another part of the quadrangle. Us-

ually older children participated in these games. Some of the games played were: club snatch, three deep, stealing sticks, dodge ball, bat ball, hit pin baseball, etc. The children had some good vigorous play without a hot sun shining down on them which helped a great deal.

The equipment the children used were the three different sizes of jungle-gymns, two turning poles, teeter-totters, swings, a sand pile, loop tennis sets, and croquet sets. Shuffleboard also was popular with the family; everybody seemed to like to scoot the little wooden discs across the sidewalk. The reason three sizes of jungle-gymns were installed was because last summer when the lights went out, two married couples climbed up in the jungle-gymn and were seen sitting there when the lights flashed back on. Doctor Allen decided he should get a larger jungle-gymn to provide for the adults and also the teen-aged children.

There was a good set-up of equipment this summer, but Doctor Allen plans to buy more for next summer. A slippery slide is almost ready to be installed now. The community playground was a great success this summer, and it will be just as good or better next summer.

By CHET GIBBENS

When Doctor Allen conceived his idea of the playground here atop the cool and breezy Mt. Oread, he saw

the need for some competitive sports to give spice and zest to the program. There are hopes for additions next year of which Lawn Bowl or Bowling on the Green is to be the main attraction. However, at the present these sports consist mainly of Loop Tennis, Badminton, Croquet, and Goal-Hi.

Goal-Hi is a game originated by our own Doctor Allen. It consists of one goal placed in a circular court and play resembles that of basketball. However, it has advantages over basketball since it can be played by the oldsters and women as well as the younger generation. The fundamentals of basketball can be learned and practised without the excessive running and physical exertion that comes from the two distant goals of basketball. This excessive exertion is not only tiring but might prove harmful to unconditioned or undeveloped bodies. In this way a com-

petitive spirit and self confidence can be created in individuals who are unable to enjoy benefits of the more strenuous basketball. Also, they can experience the excitement of watching their shots drop through the ring and still get the proper amount of exercise.

## Eat, Sing And Dance Tonight

All students in the University with their families and friends will assemble tonight at 5:30 on the Campus Quadrangle for the All-University picnic.

The playground will be opened at 5:30, and the picnic supper will be served at 6 by the cafeteria staff under the supervision of Miss Hermina Zipple, director of the Memorial Union. The picnic is sponsored by the class in community recreation.

The regular playground will be open as usual with added attractions. Group singing will be led by Dean Hirschler, visiting professor of Fine Arts from the College of Emporia, gymnastic stunts by John Cress of the community recreation class, and the Cornmeal Cakewalk in the street just west of the Anatomy building. Marjorie Henry's all-girl orchestra will furnish music for dancing.

The evening's entertainment will end by 8:20, in time for students to see the play, "Penny Wise" which is being presented in Fraser theater at 8:30.

Tickets for the picnic supper, costing 35 cents, may be obtained at the School of Education office, Business office, Physical Education office, or the Memorial Union building.

## Farewell Cakewalk Tonight

The "Farewell Cornmeal Campus Cakewalk" featuring the popular rhythms of Russ Chambers and his band will be held tonight from 8 to 9:30 on the concrete ballroom between Fowler Shops and the Anatomy building.

Dr. F. C. Allen, director of the recreation program, said that the street dances have been well-received this summer by students in the Summer Session. Each dance has included some waltz numbers for the older students. In addition, up until a week or so ago, the weather has been unnaturally cool, and this has added to the dancers' enjoyment.

Street dancing was begun in last year's Summer Session, under the direction of Doctor Allen. The idea was so popular that it was made an integral part of the famous Dandelion Day of the regular session last spring.

"If you have been unable to attend any of the dances held in our open air ballroom, you certainly owe it to yourself to come to this last dance, and see how much you can enjoy yourself," Doctor Allen said.

# Softball League Completes Schedule

The softball league will complete its schedule tomorrow afternoon. Although fewer teams have competed this year, league officials declare that the spirit and sportsmanship of the players has been the best of recent years. This is probably due to the way in which the umpires, Doctor Twente, Doctor Elbel, and Doctor Allen officiated at the games, it was said.

Massare, with 17 hits, has a lead over his teammate, Wagner, by three hits to lead the league in number of hits to date.

The Huskers are leading the league in team batting with a high average of .419, closely followed by the Sooners with an average of .395.

Following are the team standings, team batting averages, and individual batting averages:

## Team Batting Avgs.

	ab	h	pct.

# Tigers Take Over Softball Lead

The Tigers gained an undisputed lead in the softball league Monday when they took a hard-earned ten inning game from the Jayhawks, 3-2.

Fitzgerald and Bryan of the Jayhawks were the only players on either team to get more than one hit. They collected two each. Wolgast, Tiger third baseman, stopped the Jays when he handled 11 ground balls without a flaw. This game was by far the best played this season by either team.

The Huskers, playing with eight men, stopped the Sooners again, 13-10. Vanek was the hitting star of the game, collecting four hits out of five trips to the plate. One of his four hits was a home-run. Massare garnered three hits in the game.

The Sooners had plenty of hits, but could not bunch them. Arthur, Littooy, and Wolgast each had three.

Owing to an error, Doctor Nash's name was not included in the list of batting percentages in the last issue of the Kansan. He should be listed among the leaders with 11 hits in 26 times at bat for a percentage of .423.

## Standings

	w	l	pct.
Tigers	5	2	.714
Jayhawks	4	3	.571
Huskers	4	3	.571
Sooners	1	6	.143

# Students Will Dance, Eat At S.S. Picnic

Dance and eat! That's the theme of the big picnic-dance to be held next Tuesday evening, according to Dr. F. C. Allen, director of the recreation program.

The evening officially begins at 5:30 with the opening of the playground, Doctor Allen said. Dinner will be served at 6 by Miss Hermina Zipple, director of the Memorial Union, for 35 cents a plate.

Prof. Dean Herschler, visiting professor of Fine Arts from the College of Emporia, will lead community singing before and after the meal, it was said.

After dinner, John Cress and a group of tumblers and gymnasts will present a little exhibition. His wife, Mrs. Dorothy Cress, will follow with several song and dance numbers by children in her charge.

When the program is finished, all may dance on the concrete ballroom to the music of Marjorie Henry and her all-girl orchestra. The dance will last from 7:30 to 8:20, in order that students wishing to attend the summer session play, "Penny Wise," may do so.

"All are invited," Doctor Allen said, "faculty, students, their wives, and their friends."

The recreation head explained that anyone wishing to bring his own picnic lunch may do so, but that tickets for the dinner to be served by Miss Zipple should be purchased early so that some idea may be had as to the number who will attend.

Tickets for the picnic dinner may be bought at the Business office, School of Education office, Memorial Union desk, and the Physical Education office.

## Recreation Hi Lights

By CHET GIBBENS

Perhaps some of you have noticed the mass of welded gas pipes at the south side of the playground where the kiddies play. "Monkey mazes" or "jungle gyms," as they are called, are of three sizes. When the smallest one proved to be so popular, a larger one was constructed. After seeing several married couples climbing on them, Dr. F. C. Allen conceived the idea of making a large one for all ages and both sexes in order to help make the program less formal and more enjoyable.

All the fundamental play activities, running, leaping, climbing, and vaulting, are provided adequately by these mazes. They provide exercise for all muscles which leads to relaxation of the whole body. This also promotes mental diversion and aids development of the reflex actions and self-confidence.

It is best to be barefoot when playing on the mazes to insure sure-footedness. This also helps the arches and enables one to become more skillful in the use of their toes and feet. In addition, it helps create muscular coordination throughout the entire body.

For those who have not enjoyed watching the kiddies climb and squirm among the bars, we state that you are missing some enjoyable entertainment. Although this form of recreation is primarily for children, we want it known that the students and faculty members will find it a good way to forget some of their dignity and formality and enjoy themselves to the utmost.

Other facilities are provided for the use of all, and every person is sure to find a means of enjoyment. Coupled with the cool breeze that floats over the Hill, the whole program has proved to be a great success. It is enthusiastically carrying itself with little encouragement from the promoters. The flood lamps, located at strategic points, provide ample light throughout the evening.

We invite you to come out, get acquainted, and enjoy yourselves.

By BUNNY GREEN

Mrs. Josephine Sams, who teaches physical education during the school year in Dickinson County high school and conducts summer classes in Physical Education at K.U., supervises the organized games for the children; her elementary playground class helps her with this. While Mrs. Sams occupies one group of children in this way, Mrs. Dorothy Cress, major in Fine Arts, has a group of little ones on the band platform trying out their rhythmical abilities. They enjoy it tremendously and always have a group of interested watchers.

Mrs. E. Vanek supervises archery which is limited to holders of activity tickets. Her assistants are Evelyn Herriman and Estle Bayles. Mrs. Vanek is a graduate in physical education and the wife of a well-known K.U. man who made letters in basketball in '32 and '34.

Dave Shirk is custodian of equipment. The setting up and taking down of equipment and caring for the playground in general is done by Shirk with the assistance of Chet Gibbons, well known varsity football player.

The "father" of this whole community center is Doctor Allen who needs no introduction, but his enthusiasm is the life of the whole project. His class in community recreation is present each evening taking part in games where needed, instructing anyone who wants to know the rules of the games, and giving general assistance to everybody.

# Set Wednesday For 'Cornmeal Cakewalk' Date

The first outdoor Summer Session dance, dubbed "Cornmeal Campus Cakewalk," will be held on the concrete ballroom between Fowler shops and the Anatomy building from 8 to 9:30 Wednesday evening. The dance session was originally planned for last Thursday evening, but rain and stormy weather caused postponement.

Russ Chambers' band will again "give out" in the second of weekly summer dances. The band, made up largely of members of Clyde Bysom's Hill band, made a successful debut in the Memorial Union building several weeks ago.

The city police will have the street blocked off Wednesday, Dr. F. C. Allen said, and enough cornmeal will be spread on the pavement to make dancing easy and enjoyable.

Doctor Allen said that the street dance this year is merely a repetition of one held last year. The one last summer was so successful, he said, that the committee which put on the Dandelion Day celebration last semester copied the idea.

As usual the dance will be open to all Summer Session students, their wives, and friends. Waltz numbers for the enjoyment of older persons, will be included as an added feature.

The recreation program in Fowler grove will be continued during the dance, and all games will be in full swing throughout the evening.

## Recreation Hi Lights

By ELIAS HOWARD

What is archery? What part has it played in man's struggle for civilization? What can it do for me in this machine age? For an answer we challenge you to come out and see for yourself between 7 and 9 o'clock each evening, Monday through Friday.

For centuries man's means of protection and the destinies of nations turned on the flight of the arrow. But as centuries passed and science was perfected, the bow gave way to a more deadly and less sportsmanlike means of protection—gun powder.

Now an attempt is made to renew man's interest and skill in this ancient sport. All K.U. students are encouraged to come out and try their luck at a lost art, in which their ancestors were experts.

## Outstanding Coach Replaces DeGroot

Henry Shenk, one of the outstanding men in physical education in Kansas, comes to the University this fall to replace E. B. DeGroot as assistant professor in the department of physical education.

DeGroot recently accepted a position as director of physical education in the 4th Air Corps at Sierra Madre, Calif.

For more than ten years Shenk's basketball, football, and track teams at Junction City have monopolized their league. He is past president of the Kansas Health and Physical Education Association, and also of the Kansas High School Coaches Association.

Besides being an outstanding student, Shenk earned a varsity football letter here. In 1926, in the annual Missouri-Kansas football game, he caught a 35-yard pass from Barrett Hamilton, and ran 45 yards for the touchdown that upset a powerful Tiger eleven, 14 to 7.

He received his B. S. in physical education from the University, and last summer completed work for his master's degree at the University of Wisconsin.

Shenk will supervise practice teaching in Oread Training school, and will also supervise their athletics. In the department of physical education he will teach history and principles of physical education, track, remedial physical examinations. He will also supervise equitation.

The newly-appointed staff member will devote his entire time in the physical education department, and will undertake no coaching duties.

Mr. and Mrs. Shenk and <sup>son</sup> daughter will move to Lawrence August 1, and will live at 1235 Kentucky.

# Huskers Trip Tigers Again

For the second time this season the Huskers defeated the Tigers in a game that featured 45 hits. Both teams, playing without a full roster, ran the score to 18 to 16.

Wolgast smashed out a home run as one of his three hits. Also getting three hits for the Tigers were Pitts, Zerger, Coulson, and Eiffert. Wagner hit five times out of six times up while Massare and Barlow hit four times each.

The Jayhawkers found the Sooners off form to defeat them 12 to 1.

Powell, Jayhawker second sacker, had a perfect day at bat with three hits. Malmgren, star outfielder for the Jayhawkers, had two hits and two walks out of four trips to the plate for another perfect record.

Knox got two of the loser's six hits to lead their attack.

The July 2 games, which were rained out, will be played Monday, July 14.

# Dub Second Dance 'Cornmeal Cakewalk'

The second dance for Summer Sessioners has been dubbed "Cornmeal Campus Cakewalk."

This big, outdoor affair will take place Thursday evening from 8 to 9 o'clock in the concrete ballroom between the Anatomy building and Fowler shops.

Russ Chambers' band will again hold forth, after his successful debut last week in the Memorial Union ballroom.

In announcing this week's dance, Dr. F. C. Allen remarked that a few waltz numbers will be included for the added pleasure of the older dancers.

The city police will have the street blocked off Thursday, Doctor Allen said, and enough cornmeal

will be spread on the pavement to make dancing easy and enjoyable.

The recreation in Fowler grove will be continued during the dance, it was said. All games will be in full swing all evening as usual.

Doctor Allen said that the street dance this year is merely a repetition of one held last year. The one last summer was so successful, he said, that the committee which put on the big Dandelion Day celebration last semester copied the idea. Both the dance last summer and Dandelion dance were so popular that Doctor Allen decided to try the idea again this year.

As usual, the dance is open to all Summer Session students, their friends and relatives.

## Recreation Hi Lights

The evening recreation activities are supervised by Dr. F. C. Allen's class in community recreation. This serves as a laboratory to better acquaint the students with the actual problems encountered in applying what they learn. To make these supervisors more familiar to Summer Session students, the class in community recreation offers the following biographical sketches:

**Chet Gibbens**—Senior in the School of Business. He will be graduated at the end of Summer Session. He is a three-year varsity football letter winner. This lad is a dropkick specialist who had the best average in the nation for conversion of extra points in 1938. He hopes to be employed in sales or advertising work after graduation.

**Lillias Howard**—Received his M. A. degree in history from the University in 1941. He received the A. B. degree in history at Drury college, Springfield, Mo. He placed first in the archery tournament at Springfield, and third in the Class B national archery tournament.

**Estle Bales**—A. B. in business administration from the College of Emporia in 1933. He is now doing work on his Master's degree in education. For the past few years he has coached and taught in the high school at McLouth, Kan. Next year, he will go to Moline, Kan. At the College of Emporia Bales played four years of football. In addition he lettered in baseball and wrestling.

**Homer E. Bigham**—A. B. in business administration from the College of Emporia. Like Bales, who also majored in business administration at the College of Emporia, Bigham is working on his M.A. in education. In the winter Bigham is principal and coach at the Rock Creek rural high school. In his undergraduate years he won letters in football, basketball, and track.

**Al "Buck" Wabaunsee**—Senior in the College. Wabaunsee will be graduated at the end of Summer Session with a major in physical education and a minor in education. He earned a letter in baseball the only year he was out. After graduation, Wabaunsee intends to go into the government's Indian Service.

**Bernadene "Bunny" Green**—Senior in the College. This young lady has two definite sides. Her major is in physical education and her minor is in music. She is a member of the Women's Athletic Association and Tau Sigma, honorary dancing sorority. Bunny reports that she has not yet decided whether domestic abilities or vocational abilities will come out on top. At present she is apparently fostering both.

**William Arthur**—Junior in the College. This is "handsome Bill the Don Juan," so ladies beware. In 1938 he was a freshman football and basketball player. He lives five miles north of Lawrence. His major is physical education, and he is a member of Alpha Tau Omega fraternity.

# Dance In Ballroom Tonight

Even though Russ Chambers and his 9-piece orchestra is the hottest to hit the Hill since Bob Crosby made his one-night stand, Summer Session students shouldn't have any trouble keeping cool at the first summer Varsity in the ballroom of the Memorial Union building, from 7:30 to 9 o'clock tonight.

Sixteen fans and three coolers will make you think Karl Robinson actually defrosted Alaska during his lecture in Hoch last night.

If that isn't enough to keep you cool, the Community Recreation class, acting as hosts and hostesses, will serve punch to get rid of any between-dance tired feeling.

And it's all free.

#### **Firms Donate Coolers**

The coolers to be used tonight are a contribution of the L.T. Harris Co., Bell Music Co., and E. W. Penchard, Sr. An advertising firm has donated use of the fans.

This Varsity is the first of a series of six to be held each week during the Summer Session, as a part of the recreation program. Russ Chambers' band is composed largely of members of Clyde Bysom's popular Hill band, and will play for each of the weekly dances. The band will carry on in the usual Bysom manner, but with less power in the brass section, and the addition of Sidney Dawson, Negro vocalist.

#### **All Are Invited**

All Summer Session students, their wives, and friends, are invited to attend the affair. "Waltzes for older dancers, as well as swing will be featured by the band," said "Phog" Allen, director of the recreation program. "This dance is a

part of the recreation program, and faculty members, and other who have participated in the playground activities, are welcome to attend," said Allen.

The summer Varsity is under the auspices of the Community Recreation class. The dance committee has Bernadine Green as chairman, with Lillian Howard, "Chet" Gibbens, and Estle Bales, members.

This is the first summer that a Hill band has played for a Summer Session dance.

Next Tuesday, weather permitting, the swing session will be outdoors, on the street between Fowler shops and the Anatomy building.

# Tigers Defeat In First Softball

The Little Big Six, Summer Session softball league, got underway Monday afternoon as the Tigers defeated the Sooners, 9 to 7, and the Cornhuskers lost to the Jayhawkers, 11 to 20.

The Sooners, playing without a full team, outhit their rivals with Tharp and Geiger leading the way, but numerous walks cost them the game. The Tigers played a steady game with the hits evenly divided over their batting order.

Bryan and Malmgren led the hit parade for the Jayhawkers in the slug-fest with Ernie Vanek's team. Epp, pitcher, with a home run, along with Massare, Barlow, and Kibler led the Husker attack.

After Wednesday's games the Tigers remained the only undefeated team in the league by defeating the Jayhawkers, 5 to 3. Foote and Zerger led the victor's hitting with two hits each. The Jays couldn't hit the fast-ball tossed by H. Wolgast, getting only six hits.

The Sooners nosed out the Cornhuskers, 12 to 11; with the losers making a great rally in the last inning, which fell but one run short. The winners did some heavy hitting with Bill Arthur, Mosser, Juhnke, and Rowland leading the way.

The loser's heavy hitters were Wagner, Massare, Stutzman, and Lee.

Games are played at 4 o'clock on Monday and Wednesday.

# First Dance To Be Tuesday Says Allen

From 7:30 to 9 Tuesday evening, Summer Session students will swing out to the music of Russ Chambers and his band, in the first of weekly dances to be held on the campus this summer.

If the weather is cool Tuesday night, the students will dance in the ballroom of the Memorial Union building. In warmer weather the affair will be held on the street between Fowler shops and the anatomy building.

Russ Chambers' band is composed largely of members of Clyde Bysom's Hill band, with the addition of Sidney Dawson, Negro vocalist.

Wayne Ruppenthal with his trumpet will direct the 9-piece organization. He has been a member of Hill bands for the past five years. The band will play in the same style as the old Bysom band, with the exception of less power in the brass section.

Instrumentation in the band is made up of four saxophones, a bass, piano, trumpet, and drums, and vocalist Dawson. Bob Carle will play first sax; Carl Bushey, second sax; Russ Chambers, third sax; Hook Richmond, fourth sax; Art Harris, bass; Bill Wilson, piano; Bill Smith, drums; and Ruppenthal with his trumpet.

"Waltzes for older dancers, as well as swing will be featured by the band," said "Phog" Allen, director of the Summer Session, today. The dance program will be announced in Tuesday's Kansan.

No admission will be charged; all Summer Session students, their wives, and friends are invited to attend.

## Allen Plans Picnic For Summer Students

A picnic on the playground will be held sometime after July 4, Dr. F. C. Allen, director of Summer Session recreation announced today.

The archery program began as a part of the recreational activities Wednesday evening. Some bows and arrows are available at the playground, but students should, if possible, bring their own. Mrs. Ernie Vanek, Evelyn Harriman, and Estle Bales are in charge of archery.

(Continued next issue)

## Softballers Organize For Summer Session

Nearly 40 softballers attended the organization meeting in Robinson gymnasium Friday afternoon. Four teams were chosen from the players at the meeting and from those who had called signifying their intention to play in the Summer Session league.

The four managers are Waldo Miller in charge of the Sooners, Ernie Vanek for the Huskers, Roy Flaherty for the Jayhawkers, and Carl Zerger is the Tigers' manager.

In past summers a six-team league was formed, but this year, with fewer players entered, a four-team schedule will be used. After the schedule is completed, a series will probably be played between several picked all-star teams, said Dr. F. C. Allen.

More players are needed, and anyone wishing to play should call

Ku 83, giving his name, address and telephone number.

Dave Shirk is in charge of the softball program.

The teams and their players are:

**Sooners:** Waldo Miller, captain; W. Zerger, Paul Yankey, Richard Rowland, James Tharp, William Juhnke, Mit Allen, Monte Merkel, D. Wolgast, R. Hogen.

**Huskers:** Ernie Vanek, captain; John Cress, Orlando Epp, George Wagner, Mack Barlow, Ralph Stutzman, Arnold Rodde, Bert Nash, Howard Rankin, Quido Massare, and James Lee.

**Jayhawkers:** Roy Flaherty, captain; Chester Gibbens, Leslie Malmgren, Joe Thomas, Don Fitzgerald, Charles Varvel, Russell Mosser, Jack Powell, Oren Bingham, and Lee Nelson.

**Tigers:** Carl Zerger, captain; M. Forker, Kenneth Harden, Orin Bliss, Lawrence Effert, H. Wolgast, O. Foote, L. Stanton, Ed Dissinger, John Campbell.

### Sams and Cress To Direct Swimming

The swimming schedule for the summer session has been announced. Mrs. Josephine Sams will direct women's swimming, and John Cress the men.

Women will swim on Tuesday, Thursday, and Saturday from 3:30 to 5:30 p.m., the period from 3:30 to 4 being reserved for beginners with the pool only half full of water. From 4 to 4:30 intermediate and advanced classes will swim, and from 4:30 to 5:30 will be open plunge.

Men will swim on Monday, Wednesday, and Friday from 4 to 6. Four to 4:30 is for intermediate and advanced classes, 4:30 to 5 for beginners, and 5 to 6 the pool is open to all men.

## First Softball Game Monday At 4:30 p.m.

The opening game of the Little Big Six, Summer Session softball league, will begin at 4:30 Monday afternoon on the intramural fields south of Robinson gymnasium.

In the first game, the Jayhawkers, captained by Roy Flaherty, will play Ernie Vanek's Huskers. The other opening day game will see the Sooners, managed by Waldo Miller, in action against the Tiger team captained by Carl Zerger.

Umpires will be Dr. F. C. Allen, professor of physical education; J. W. Twente; and E. R. Elbel, associate professor of physical education.

There will be two games each

week, one on Monday and one on Wednesday. No admission will be charged.

### Recreation Program Open To Girls State Delegates

Swimming, archery, softball, tennis, and folk dancing are included in the recreational schedule of Sunflower Girls' State activities. Marjorie Rader is in charge of the recreation program.

Swimming began Monday and extends through June 22. The girls may swim from 2 to 2:30 p.m. on Tuesday, Wednesday, Friday, and Saturday.

Softball will be from 3:30 to 5 p.m. Tuesday, and from 2:30 to 3:30

Wednesday and Friday. The tennis courts and playground will be open from 1 to 5 p.m. daily.

### Education Meet To Hold Picnic

The all-conference steak fry for the curriculum conference being held on the campus this week is scheduled to begin at 5:30 Wednesday evening in the quadrangle north of Fowler shops.

Following the meal, Dr. F. C. Allen and his class in Community Recreation will provide a period of play and recreation.

Fifty cent tickets are on sale until Wednesday at noon in the Education office and with R. W. Browning in the curriculum laboratory.

Dr. F. O. Russell has secured the following committee for the steak fry: Mr. and Mrs. Carl Althaus, Mr. and Mrs. H. E. Chandler, Mr. and Mrs. Gilbert Ulmer, Russell Mosser, Fred Montgomery, Mr. and Mrs. Leslie Robertson, Mr. and Mrs. Orville Eaton, B. Rosswell Russell and Mr. and Mrs. F. O. Russell.

## WELCOME STUDENTS

The 1941 Summer Session has opened, and the Kansan wishes to extend a hearty welcome to all students. Already a bankers' clinic is underway, and next week Kansas teachers and administrators will take over with their conference on curriculum.

Also next week the first of two insurance meetings will be held. Following that, Prof. Bert Nash's reading institute will hold the center of the stage.

Dean D. M. Swarthout has released the schedule of musical events and lectures for the summer, and from all indications, students will be well entertained.

In addition, Dr. F. C. Allen's recreational program will provide ample opportunity for athletic activity for every person enrolled in school. In many ways there is a better recreational program in the summer than in the regular winter term. The summer schedule is so inclusive, that no student is left out.

The enrollment this year is somewhat less, but that must be blamed on the selective service. Doubtless, enrollments in all universities and colleges will be much less from now on—at least until the present emergency has passed.

## Recreation Program Underway Monday

The summer recreation program is expected to be in full swing by Monday evening, Dr. Forrest C. "Phog" Allen, director of the Summer Session recreation program, said today. "Playground facilities may be available this weekend if the lights are erected in time," Allen said. ♦

The playground will be on the lawn in front of Fowler shops just east of Robinson gym, and will be open every night except Saturday and Sundays from 7 to 9 o'clock. The entire quadrangle and the area in front of the gymnasium will be lighted.

Shuffleboard, loop tennis, volley ball, goal-hi, and folk dancing are a few of the recreational facilities available. Monkey mazes twice as large as last year will be up this week.

Use of the play facilities not limited to students. The family as a unit is urged to make use of the playground, Doctor Allen said. Special play arrangements will be made for children.

A band stand will be erected for folk dancing and for Sunday night band concerts. Dorothy Garrett will teach folk dancing to children. During hot weather road dances will be held between Fowler shops and the Anatomy building.

The swimming pool in Robinson gymnasium will be available afternoons to both men and women. Mrs.

Josephine Sams is in charge of the women's swimming program.

A faculty volleyball league will be organized soon.

Doctor Allen's class in Community Recreation will have charge of the evening games. Dave Shirk, William Greene, Denzel Gibbens, and John Cress, are among those who will aid the recreation director.

# League Games Begin June 23

All persons interested in playing softball this summer will meet at 4:30 Friday in room 204, Robinson gymnasium. Players should get in touch with Dr. Forrest C. "Phog" Allen by telephone, if it is not possible for them to be present at the Friday meeting.

The softball season gets off to an early start this summer with three games scheduled for Monday, June 23, when the Sooners will play the Cornhuskers, the Wildcats will play the Jayhawkers, and the Cyclones will play the Tigers.

The games will be held, as formerly, on the intramural fields south of the campus behind Robinson gymnasium. There will be no admission charge, and one game between the league champions and an all-star team will be offered as an extra attraction at the end of the season.

Umpires will be Doctor Allen; J. W. Twente, professor of education; and E. R. Elbel, associate professor of physical education.

There will be two games each week, one on Monday and one on Wednesday.

## Girls' State Closes

The third annual Sunflower Girls' State closed here Sunday noon with the presentation of certificates of award. Earlier in the morning a special church service was conducted by the Rev. Alpha H. Kenna, department chaplain of the American Legion and also chaplain in the army reception center at Fort Leavenworth.

A formal dance in the Union ballroom Saturday evening climaxed the week's social activities.

Mrs. Patricia Solander, representative of the state highway division, spoke on safety during the Saturday morning session. "Taking A Foresight" was the title of an address made by Robert Hart, department Americanism chairman of the American Legion.

All Girls Staters were excused on Saturday afternoon to go shopping, sightseeing or whatever they chose.

Two hundred forty-seven girls from all over Kansas attended this year's Girls' State session. Girls were housed in six sorority houses but ate their meals at the Union building. All meetings and lectures were held at the Union.

## Students To Dance Next Week

Russ Chambers' and his band, a dance organization composed mostly of members of Clyde Bysom's Hill band, will play for a dance on the campus some time next week, Dr. F. C. "Phog" Allen, director of Summer Session recreation, announced today.

This will be the first of a series of six dances to be held each week, and the first time that a Hill band will have played for Summer Session students. Allen set Tuesday as a possible open date for the affair, other nights being taken by Music week activities and the lecture series.

In cool weather the dances will be held in the ballroom of the Memorial Union building, and during warmer weather on the street between Fowler shops and the anatomy building. The road will be closed, and corn meal spread on the pavement.

Sidney Dawson, Negro fine arts student, will do the vocals for Russ Chambers' band. Dawson is noted for his classical presentations, and only recently made his debut as a jazz singer with Clyde Bysom's organization.

"The aim of the band is to play the same style as the old Bysom band, with the exception of the brass section, and to add a commercial touch with Dawson," said Russ Chambers.

Wayne Ruppenthal will front the organization with his trumpet. Ruppenthal has been a member of Hill bands for the past five years, and last semester composed many of selections for the student musical show, "On with the Show."

No admission will be charged to the dances, and according to "Phog" Allen, "all Summer Session students, their wives and sweethearts, are welcome."

### Archery To Begin

Archery will be added to the recreation program some time this week, Dr. F. C. Allen, director, announced today.

Mrs. Ernie Vanek will have charge of the practice.

### Faculty Wives Entertain

The wives of resident faculty members of the Education department will entertain the wives of students in the department Wednesday afternoon at 2:30 at the home of Mrs. H. E. Chandler, 2245 Rhode Island.

This is the first of three parties to be held during the summer. There will be tables for bridge and Red Cross sewing.
