

Recreation Hi Lights

By ELIAS HOWARD

What is archery? What part has it played in man's struggle for civilization? What can it do for me in this machine age? For an answer we challenge you to come out and see for yourself between 7 and 9 o'clock each evening, Monday through Friday.

For centuries man's means of protection and the destinies of nations turned on the flight of the arrow. But as centuries passed and science was perfected, the bow gave way to a more deadly and less sportsmanlike means of protection—gun powder.

Now an attempt is made to renew man's interest and skill in this ancient sport. All K.U. students are encouraged to come out and try their luck at a lost art, in which their ancestors were experts.

Outstanding Coach Replaces DeGroot

Henry Shenk, one of the outstanding men in physical education in Kansas, comes to the University this fall to replace E. B. DeGroot as assistant professor in the department of physical education.

DeGroot recently accepted a position as director of physical education in the 4th Air Corps at Sierra Madre, Calif.

For more than ten years Shenk's basketball, football, and track teams at Junction City have monopolized their league. He is past president of the Kansas Health and Physical Education Association, and also of the Kansas High School Coaches Association.

Besides being an outstanding student, Shenk earned a varsity football letter here. In 1926, in the annual Missouri-Kansas football game, he caught a 35-yard pass from Barrett Hamilton, and ran 45 yards for the touchdown that upset a powerful Tiger eleven, 14 to 7.

He received his B. S. in physical education from the University, and last summer completed work for his master's degree at the University of Wisconsin.

Shenk will supervise practice teaching in Oread Training school, and will also supervise their athletics. In the department of physical education he will teach history and principles of physical education, track, remedial physical examinations. He will also supervise equitation.

The newly-appointed staff member will devote his entire time in the physical education department, and will undertake no coaching duties.

Mr. and Mrs. Shenk and ^{son} daughter will move to Lawrence August 1, and will live at 1235 Kentucky.
