

Facts regarding playground, Tuesday, June 27:

Dave Shirk: I came to the gymnasium at 4:30 intending to open up the playground for people in the Reading Institute if any desired to play. Got out the archery material, and ping pong tables were being used. No one came for out-of-door recreation. I waited around until 6:20, then went down town to eat. I told Jim Raport, who was there, that he could get out any play equipment that was needed during the evening before I got back. I said this not knowing that he did not have a key to the room where the equipment is kept. I came back about 7:15, found a few people wanting to play, and got the equipment out in about five minutes.

Jim Raport: I was here on the playground from the time Dave Shirk left to eat until late in the evening. A few minutes before 7 o'clock a few members of the Community Recreation class came ready to assist with the games. Then about six other people (not members of the class) came, desiring to play. Altogether there were about 15 or 20 people. I was unable to get any of the play equipment out for them because I did not have a key to the equipment room. Dave arrived sometime between 7:15 and 7:20 and we immediately got things ready.
