

SUGGESTIONS FOR SUMMER RECREATION PROGRAM

ALL-SCHOOL SUMMER SESSION PICNIC: Tuesday, June 20, Brown's Grove, 4:30 p.m.

Registration at Education Office -
Hostess Desk, Union Bldg.

Transportation: cars leave Union at 4:30 and 5:00

Food: 35¢ for adults, 20¢ for children.

Games and play equipment.

Publicity.

In case of rain make plans to use Gymnasium.

Plan one more all-school picnic before the close of school.

MIXERS - each Monday evening from 7:30 to 8:30 in Union Bldg., beginning June 26

First party more or less formal, with faculty and administrators acting as hosts.

General outline of program for each party:

1. Community singing
- *2. Special attraction or entertainment each evening
3. Dancing, cards, pingpong
4. Cold drinks for sale
5. Fans, comfortable chairs, etc.

*Have "Amateur Nights" once in a while?

Persons who were particularly good last year: Benny Maynard (accordian), Frank Arneberg, Joe Williams, Al Brooks, Mr. Chandler, Miss Zipple.

JUNKETS - plan a trip for every other week, so as not to crowd summer program.

4th OF JULY BREAKFAST - Prof. F. O. Russell, "chef"

COMPETITIVE GAMES - TOURNAMENTS

Have sheets for persons interested to sign up in Gymnasium and Fraser
Softball, Tennis, Golf, Horseshoes, Handball

Ball games each Monday and Wednesday, 4:15 p.m.
Umpires: Twente, Allen, Raport, Shirk

Could not the Tennis and Golf Tournaments include women if any desired to enter?

Suggestions - cont., page 2.

8
PLAYGROUND - 7:00 to 9:00 every evening

Check on attendance each evening (men, women, children)

Do not over-emphasize competition

Mark courts

Benches

Lights

Wax shuffleboard discs (?)

Co-recreational swimming 7:30 to 8:30 on Tuesday & Thursday (?)

Pingpong table on platform

Assistance for men	75

August 11, 1939.

Mr. C. G. Bayles, Supt.,
Buildings and Grounds,
University of Kansas.

Dear Mr. Bayles:

I have been pleased with the grading and the leveling that has taken place in front of the library preparatory to sowing seed or sodding - I knew not which.

I am wondering if it wouldn't be possible for us to level off the east end of the quadrangle so that we could put in lawn bowls for next summer. I wanted to see Colonel Baldwin and see if it wouldn't be possible for him to drill some place else until this could be accomplished so that it could be either sodded or sown. I am wondering what the cost of leveling it and fixing it up preparatory to sowing would be.

I realize that you have no budget to do this extra work but I would like to have you give me a ring after you have estimated it and see if this cannot be put across. With lawn bowls on the quadrangle next summer we would have perhaps the most pleasurable spot in Lawrence. Hundreds of people would come up to the quadrangle to cool off and see these games in progress, - and the best part of it is that people of all ages can do it with extreme pleasure to the participants. It is also a thing of beauty for the spectators to observe.

Sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.

August 11, 1939.

Mr. Henry Werner,
Adviser of Men,
University of Kansas.

Dear Fritz:

I do not want to annoy you, but I have a deep conviction that if the Union Building could be air-conditioned undoubtedly it would be by far the most popular building on the campus. When the great army of engineers who are paid by their companies to promote air-conditioning I believe that if these fellows were encouraged to figure on such a project at your Union Building that before long air-conditioning would become a reality in that building.

At Southern Methodist University they have air-conditioned the library and several other buildings. I have written Raymond Nichols suggesting that the library here be air-conditioned, but if it could not be air-conditioned at least screens should be put on the windows. It is more than torture for the students to be subjected to the hot weather in the Summer Session while they are pursuing their laborious work.

A graduate student told me that there were eight people from a town a little more than a hundred miles from Lawrence who decided they would go to summer school last year. Six of them went to Colorado. The other two came to Kansas, but they picked courses that had no library, or as little library reading, as possible. That movement has spread among the wise ones and it is being talked about - a fellow is not bright if he picks a course that takes too much library reading.

I am just passing this suggestion on to you as a thing that can be put over if we encourage it. It is not necessary that you answer this letter because I am leaving Sunday for a coaching school down in Georgia, but I would want to emphasize the necessity of having at least bearable places for our students to study and other places for them to enjoy themselves in comfort.

Sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.

REPORT OF THE DEPARTMENT OF PHYSICAL EDUCATION
FOR THE SUMMER SESSION, 1939

At the meeting of the Summer Session Budget Committee last fall an item of \$145.00 was requested by the writer for the installation of floodlights on the quadrangle in front of Fowler Shops to light the playground for the Summer Session students. This item was granted, and the lights added much to the attractiveness of the recreational program.

Recreational activity on the playground was open to both young and old, and the attendance every evening was three and four times as much as last summer. Seven shuffleboard courts were kept busy every evening. Other features of the playground were croquet (for both adults and children), darts, badminton, ping-pong, archery, and the putting clock. Additional equipment for the enjoyment of the children was installed - a monkey maze for climbing, teeter-totters, horizontal bars, a sandbox, and a swing.

The competitive games included in the recreational program were softball, and golf and tennis tournaments.

The golf course was kept in excellent condition during the summer, and was even better than it has been in the past. The driving range was an added feature this summer, and met with a splendid response.

The tennis courts were kept in fine shape, and the installation of a drinking fountain near the courts proved a wonderful convenience for the players.

The swimming pool was kept open at regular hours every day during summer school with Mr. Ed Hyatt in charge for the men and Miss Irene McAdee in charge for the women. A number of co-recreational splash parties were held in the evenings, and these were exceptionally well attended. The average attendance of women at the pool was 25, with a high of 42. For the men the average attendance was 30, with an attendance as high as 60 and 70 at the open plunge hour. Approximately 25 or 30 individuals swam during the co-recreational swimming periods.

At the request of the colored students enrolled in the Summer Session, they were permitted a co-recreational swimming hour three evenings during the summer.

Two all-school picnics were held, one at the beginning of the session and one near the close of the summer school. Both were well attended and were enjoyed by many faculty members and students and their families. At the first picnic the food and program were taken care of in Robinson Gymnasium. The second picnic was held out of doors on the quadrangle. Following this picnic the class in Community Recreation presented three one-act plays on the out-of-door stage.

Each Monday evening informal mixers were held in the Union Building, and these were exceptionally well attended. The Kansas Electric Power Company very generously loaned us several large fans which were installed for the dances. Entertainment at these mixers consisted at times of a girls' swing trio from Emporia, a male quartette of summer students, specialties by members of the band camp, and on two occasions we danced to music played by a 12-piece orchestra from the band camp. The mixers were very popular - the attendance at one of them ranging well above 300.

The new game "Goal-III", originated by the writer, brought us much favorable attention, and a number of games were played in the evenings by adults, by boys of 14 years of age, and by youngsters 10-12 years of age.

Dear Friends:

You have been chosen to play in the first demonstration game using the new "Goal-Hi" basketball goal, on Thursday night, July 13. The game will be played out-of-doors under lights, and will start at 8:30 p.m.

Plan to be at Robinson Gymnasium by 7:30 to suit up and receive instructions about the game. If you find it impossible to play, do not fail to notify me or Mrs. Hulteen at K. U. 83 at once, so that we may get someone to take your place.

To make this demonstration game a success we need your cooperation, and its going to be a lot of fun - so, let's go, fellows!

Cordially yours,

Director of Summer Recreation.

July 23, 1939.

Mr. Tom Jones,
2012 New Hampshire St.,
Lawrence, Kansas.

Dear Tom:

I want to thank the Panthers and the Tornadoes for the very fine game they played the other night on our campus playground. I think everyone enjoyed it immensely.

Tom, next Monday afternoon the Paramount News people are going to shoot some reels of this game of Goal-Hi, and I wish you would get all your boys together, and any others that you want to bring along, and join the spectators in the stadium. The pictures will be taken in the stadium at 1:30 o'clock next Monday afternoon.

A team made up of men who are in the Summer School will play a team of Indians from Haskell Institute. I think it will be quite a colorful affair. It will be rather hot, I imagine, in the stadium at that time of day, but we won't be there very long, and I would appreciate it if you and your friends could be there to swell our crowd.

With best wishes to you, I am

Very sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.

Dear Jack:

Next Monday afternoon at 1:30 the people from Paramount News are going to take some pictures of our new game, Goal-Hi, in the stadium, and I want to invite you and any of your friends to come and join the spectators. These pictures will be released all across the country, and I thought you and Jimmy and some of your friends would like to be in on the shooting of them.

A team made up of men who are in Summer School will play a team of Indians from Haskell Institute. I think it will be quite a colorful affair. It will be rather hot, I imagine, in the stadium at that time of day, but we won't be there very long. It would be fine if you could bring a crowd - I'm sure you would enjoy it.

Very sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.
