Committee on Student Section

Dear Committee Member:

Did someone once say "at long last"? Well, here it is. I am sorry to be so late in getting back to you the summary of the answers to one of the questionnaires. Following the example of some of you, the flu caught up with me too!

You will no doubt recall that when I first wrote to you I suggested that we send out to schools questionnaires on the problems we were asked, as a Committee, to help solve so that we might get their ideas and send a summary back to them. Because of your help the distribution of these was made possible. I have endeavored to keep the load of work as light as possible for each of you because I know how busy you are. Functions 2 and 4 (plans for students at the Convention) I have tried to carry out without calling upon you since the student chairman is in my College. I hope that the meetings etc. planned follow your lines of thought. You will find them written up in the April issue of the Journal.

As soon as I have completed the summary of the state and district questionnaires (I sent out the district ones) I will send them to you. The district summary will be sent out from here. I hope you will find it possible to distribute the state report to the states allocated to you. This leaves a maximum of 50 teacher education institutions and in most cases less than that to be sent the enclosed report by each of you. I do hope that you will find it possible to get this out now. It may do some good for the National Convention. I will be glad to send the stencils for this summary to any of you who find it impossible to get them cut at your institution.

I am enclosing also, the report of our Committees' work which I sent to the Board of Directors. I hope it meets with your approval. It is my understanding that our work finishes when we have fulfilled the duties listed in this report.

In conclusion, I wish to thank each of you for your cooperation, your many good ideas, and your support. I hope that we have fulfilled our work satisfactorily. I hope also to meet each of you in New Orleans.

Sincerely,

VB:hf
