Tentative Suggestions for a Summer Recreative Program.

Questions

1. Are there any provisions for physical exams or health check-up in a summer session?
2. Is this program supposed to provide the general school mixers and socials?
3. Program of activities to include recreational, social, educational, civic, art appeal (which, or all?)

Possible Activities

1. Co-recreation nights or afternoons utilizing "game room" facilities - could include both gymnasium and Union Building -
 - a. Billiards
 - b. Croquet
 - c. Ping pong
 - d. Shuffleboard
 - e. Darts
 - f. Archery
2. Provision for instruction in golf, tennis, swimming - organized efforts to utilize these activities in programs, meets, etc.
 - a. Any chance of Potter Lake being usable?
3. Social Dance class - married couples or mixed?
4. Series of meetings to challenge women's interest in improving self - "Know your own possibilities", Charm, Influence, Leadership, etc., Health, Dress, Personality, Manners, etc., use specialists as speakers and combine with actual practice.

5. Browsing room - place with literature relative to our work and combining rest room features with reading material.
6. Mixers - picnics, etc., for departmental and school groups.

With the heat we have in ~~Kansas~~ and from what I know of the ~~summer enrollment~~ the ~~above suggestions~~ may be too heavy on activity.

If it were possible to institute a weekly series of teas or general social get-togethers where the material suggested in No. 4 could be introduced or where just pure visiting could be done ~~I believe~~ it ^{might} ~~would~~ strike the fancy of a large group who desire social contacts but who wouldn't be interested in physical activity.

Question:

to secure from your office
Is it possible to give general ~~data~~ ^{data} concerning students for the past few summer sessions concerning ~~concerning~~ age. so that this group could then might be possible to more definitely prescribe a recreational program that would more nearly fit.

TO HEADS OF DEPARTMENTS:

Attached you will find the schedule for the summer session departmental budget conferences for 1938. A conference period is listed for each department regardless of whether or not the department offered any courses last summer.

In order that the procedure for the summer session may be uniform with that for the regular term, the summer session conferences are to be conducted by a committee consisting of the Central Budget Committee and the director and assistant director of the summer session.

The budget committee for each department consists of this general committee, the dean of the division in which the department is budgeted, the head of the department, and all deans interested in the work of the department. The members of the Central Committee are Dean E. B. Stouffer (chairman), Dean Paul B. Lawson, Dean Frank T. Stockton, and Raymond Nichols (secretary). The summer session director is Dean R. A. Schwegler, and the assistant director is Professor H. E. Chandler.

Department heads are requested to bring to the conference all material and information bearing on any program being proposed for 1938 and any suggestions for future improvement of the summer session offerings of their departments. It is expected that the summer session will necessarily follow the lines of last year, but the committee desires to know what each department would consider as the ideal summer session program.

The conferences will be held in the Chancellor's Office. It is hoped that the schedule can be followed without change.

Cordially yours,

E. H. LINDLEY,
Chancellor.
