

174. TESTS AND MEASUREMENTS IN PHYSICAL EDUCATION. Three hours credit. The course is designed primarily for the teacher in the field who has a need for a testing program. Actual practice with tests and their administration is provided. The aim of the course is to give a practical approach to testing and provide an adequate testing and grading program for the public schools. The following types of tests will be studied: strength tests, cardiac tests, posture rating scales, means of classification, sport tests, motor ability tests, knowledge tests, etc. Anthropometric measurements, test construction and scoring methods will also be tested. The material will be presented through outside readings, lectures and laboratory work.
