

6/28

'Junketeers' See Spooner-Thayer

The next All-University Junket will be conducted through Spooner-Thayer museum tomorrow evening at 7 o'clock. Miss M. Moodie, curator of the museum, has arranged for a guide group which will conduct the tour of the museum.

Displays of the oil and water paintings by Paul Mannin, a University of Kansas graduate; prints of Kansas Landmarks furnished by Margaret Whittemore, Topeka; a collection of unusual photographs of familiar subjects, furnished by the K.U. Camera Club under the direction of Oren Bingham of the photographic bureau; and a collection of photographs of wild flowers by Professor Stevens are some of the features that will be in the museum only temporarily.

In addition to these displays on second floor, the tour will be directed through the entire building including all of the permanent art collections ranging from doll displays to displays of the finest of china and furniture.

Members of the guide group are: Mrs. Lindley, Miss Watson, Mrs. Dains, Mr. and Mrs. Bingham; Miss Smelser, Mr. and Mrs. Tom Jones, Miss Ellsworth, Mr. and Mrs. Frazier, Miss Dunkel, Miss Tisworth Wilder, Schmitt, and Trickey.

7/16/38

Junket Affords Trip To Moon

Telescope to Be Used; Astronomical Apparatus Will Be Explained

A trip to the moon via telescope is planned for summer sessionites attending the junket this evening starting at 7:45 o'clock at the observatory.

R. Stanley Alexander, assistant instructor in physics, will demonstrate and explain the use of various astronomical apparatus which includes a sidereal clock used by astronomers to measure time by the stars.

Visitors will have an opportunity to see the moon through the 6-inch telescope in the small dome. "It is impossible to magnify the image of a star," said Mr. Alexander. "While planets and the moon appear as discs and a great deal of detail can be shown through the telescope, a star is seen only as a point of light."

A 27-inch telescope which is used only for photographic purposes, and the spectroscope which breaks the light into its component colors and next to the telescope is probably the most powerful instrument used in astronomy, will be on display for visitors. From data obtained by using the spectroscope it is possible to determine the motion, temperature, chemical composition, and distance of stars.

If cloudy skies interfere with observations of the moon, other activities at the observatory will be substituted for the junketeers.

7/12

Photography In Next Junket

Possibilities in the combination of a camera, a roll of films, and a little ingenuity will be the theme of the University Junket to be held Wednesday evening at 7 p.m. in the basement of Spooner-Thayer museum.

Special emphasis will be given color photography by Oren Bingham of the University Photographic Bureau who will speak on the equipment now available to the photographer at a nominal cost.

Mr. Bingham will show vacation and campus scenes in color from his varied collection of prints. Seeing these prints will be a surprise at the naturalness and beauty of coloring that has been obtained.

Motion pictures taken by Miss Ruth Cady will also be shown. Several gross enlargements will be on display. An opportunity will be given for discussion of the difficulties confronting the amateur photographer.

"Kool Kampus Hour" A New Summer Feature

No longer will it be necessary for the Summer Session student to wonder what to do with that rather boring hour that comes between the end of the evening meal and the time to start 'hitting the books.' He or she can have a swell time by coming up on the Hill and attending the new Summer Session feature; "The Kool Kampus Quad Recreational Hour," held from 6:30-8:00 p.m. in front of Fowler Shops.

Benches, croquet and badminton courts and deck tennis equipment have been set up on the large lawn just east of the gymnasium. On the sidewalks bordering the lawn, students can play shuffle board. Experienced summer sessionists say that this spot is the coolest place in Kansas on warm evenings.

The games are under the direction of Miss Elizabeth Dunkle's class in Community Recreation. Everyone is urged to attend and there is no charge for use of facilities.

Memorial Union Recreation Room Open for Summer Students

The recreation room in the sub-basement of Memorial Union building will be open daily except Sunday from 1 to 3 o'clock in the afternoon starting Monday, Jack Townsend, manager of the Union building, announced yesterday.

As in the regular session facilities for ping pong, billiards, and pocket pool are available.

Archery Popular With Summer Sessionites

"Something for everyone" seems to be the slogan upon which the summer session co-recreational program is based. Archery is the latest addition to the number of sports for which facilities are available.

The target and a net to catch the arrows that miss their mark are set up on the lawn east of Robinson gymnasium. Dr. Vernon W. Lapp, assistant professor in physical education, is in charge of the sport each school day evening from 6:30 until 8 o'clock. Though the equipment has been in place only a few days, the sport has proved to be popular with summer sessionites.

Notice!

The second "Open House" of the Summer Session at the Memorial Union building will be held Thursday at 7 p.m. instead of Monday evening.

NOTICE

Holiday Picnic 'On Tap' Monday

A Fourth of July picnic breakfast for summer session students will be held at Brown's Grove Monday morning at 8:30 o'clock.

Dr. F. O. Russell, associate professor in the School of Education, will act as head chef and will prepare the steak and coffee. Doctor Russell's skill over a camp fire is well known on the campus.

Persons going must make reservations at the School of Education office by Saturday noon. Cars will leave Fraser hall for the grove at 8 o'clock.

Dioramas Seen in Next Junket

*Processes in Making
Model Dioramas Will
Be Explained by
William Campbell*

Some of the arduous processes of making model dioramas will be explained by William Campbell, graduate of the department of design, and supervisor of the WPA museum project, at the Campus Junket held tomorrow night in Robinson gymnasium at 8:15.

A series of six dioramas, which have been completely made in Lawrence, have been carefully and durably constructed and are authentic in every detail.

To those who are unfamiliar with dioramas, the exhibit will resemble miniature outdoor stage sets complete with actors and beautifully executed lighting effects. Mrs. Kerr, national director of WPA museum

Dioramas on Junket

Continued from page 1

projects, on a recent visit to Lawrence highly praised the work on dioramas being done and in none of them have they attempted subjects that show action and human figures."

This exhibit is similar to that made by Bernard Frazier which is in Dyche museum, where a set of these may be placed. Six copies of each diorama is being made and a set will be placed in museums at Leavenworth, Topeka, Wichita, and Lawrence.

One diorama shows the Pawnee Indians engaged in making pottery. A kneeling woman builds the wall of a jar by coiling a strip of soft clay and pressing it in place. In the distance workers lash poles together to form a frame work for brush and sod that will make a weather-proof home. In another, Comanche, one of the largest of the nomadic tribes, is shown as it passes Pawnee Rock in what is now known as Barton country.

Other dioramas picture the Osage hunters anxiously awaiting the results of a shot at a pair of Wapiti, or American elk; a Cheyenne tribe buffalo hunt; and the Eagle dance of the Kiowa tribe; and a harvest scene of the Kansas Indians.

The junket will start at 8:15 in order to avoid conflict with the education banquet to be held the same evening.

Unique Program Features Last 'Open House' Session

Frank Anneberg, '33, tap dancing on his hands, and playing a trombone while standing on his head; Benny Maynard and his musicians coaxing tunes such as "Old McDonald Had a Farm" and "Organ Grinder Swing" from an orchestra of three bass jugs, three sets of bottles, and two sets of test tubes—will be special attractions of the last "Open House" of the summer session to be held at 7 o'clock Monday evening in Memorial Union building.

Anneberg has appeared several times in Ripley's "Believe it or Not." During the 1932 Olympics held in Los Angeles, he walked down the Olympic stadium steps on his hands. The past year he has been assistant coach at North Central College at Naperville, Ill., and at present is recreational director of the Mid-Western Music Camp at the University.

Carol Johnson, fa'38, will continue his sketching of summer sessionites for the "Hall of Fame." All persons who have had their portrait

sketched and who wish to have them must claim them at the close of the open house. Those who have won a place in the gallery to date are: Rita Morris, a student at the Mid-Western Music Camp; Henry Werner, men's adviser; Richard LaBan, editor of the Summer Session Kansan; Joseph Cochrane, c'38; Dorothy Gehret, fa'41; Edith Ferguson; Howard Palmer, e'uncl.; Lewis Copeland, fa'40; Gene Klemp, b'38; Dr. Forrest C. Allen, professor of physical education; Russell Hodge; and Fred Litttooy, c'39.

Ross Robertson, assistant instructor in economics, will lead the group in the singing of "barber house gems." As this is the last party dancing will be continued until 10 o'clock in the ballroom.

Allen Coaches Coaching Class ^{6/11/38}

A special-purpose coaching school will be conducted all next week by Dr. Forrest C. Allen, chairman of the physical education department, starting at 9 o'clock Monday morning. Classes are to be held each morning in the coaching of basketball, and in the afternoon there will be classes in the treatment of athletic injuries.

Dr. Allen, who is dean of basketball coaches in the United States, and has a record of 21 championships in 28 years of coaching, will be assisted by Harp, Allen, Engelman, and Shaake, members of the basketball squad who are in summer session.

Allen's School Is Open ^{6/14/38}

Coaches From Other Schools Attend First Session

Coaches from widely scattered parts of the United States met yesterday morning to attend the opening sessions of Dr. Forrest C. "Phog" Allen's basketball coaching school. Representatives from Oregon, Texas, Kansas and bordering states attended. These men have come to Lawrence for one reason; to try to find out how "Phog" turns out championship basketball teams with such startling regularity.

The first morning was spent in answering questions presented by the coaches and in discussion some of the specific problems which confront basketball coaches. Dr. Allen, aided by Elwyn Dees, Kansas trainer, demonstrated some of the fundamental principles of the treatment of athletic injuries. Special stress was laid upon the importance of psychology in treatment.

In the afternoon, Dr. Allen and his 'class' got down to brass tacks and began talking basketball. Individual offense, the subject for most of the afternoon led to discussions on ball handling, pivoting, and recovery from backboard. During a later part of the session, the coaches adjourned

to the basketball floor and were shown Dr. Allen's theories on several of the fundamental shots.

Beginning today, Dr. Allen will diagram the principles of his offense and defense systems. In order to illustrate plays and defense, members of the Varsity and Frosh squads who are attending summer school will take part. The coaches will be given a chance to try their own hands at the execution of the plays later in the week.

Cunningham—World's Greatest Miler."

Three reels of track pictures, made under the direction of Brutus Hamilton, former Kansas track coach now at the University of California, Deam Crowell, U.S.C., and Lawson Robertson, Olympic track coach, will also be shown.

The program is part of the Summer Recreational program. There will be no admission charge.

To Show K.U. Coaching

"Phog" Allen's Basket- ball Technique on Display Tonight

For the benefit of the coaches who are attending summer school and do not have time to visit Dr. Forrest C. "Phog" Allen's classes in basketball fundamentals, an exhibition of the methods of the Kansas mentor will be given at Robinson Gymnasium, this evening at 7 o'clock. The session will be open to the general public.

Dr. Allen will demonstrate his offensive and defensive system by using a team composed of members of his Varsity and Frosh basketball squad. This team will demonstrate the Allen method of offense by running plays against a team composed of basketball coaches who are attending summer school. The coaches will then take the ball and try to penetrate the Kansas defense, as played by the Varsity-Frosh team.

After this exhibition, a short scrimmage will be held between the Varsity-Frosh team and the coaches squad. Playing for the Varsity-Frosh will be, Howard Engleman and Lyman Corlis at forwards, Bob Allen at center and Dick Harp and Lester Kappleman in the guard positions. No definite lineup has been announced for the coaches. Men who will play are: C. J. Olander, Eudora; Art Lawrence, Rosedale; L. A. Brooks, East High, Denver; Clyde Coulson, Newton; W. H. McElroy, Dennison; Wesley Cunningham, Moundridge; J. W. Skidmore, Bronson; and John Buller, Larned. Dr. Allen will act as referee.

At 8:00 o'clock, Dr. Allen will show six reels of sports moving pictures. A two-reel short entitled "Modern Basketball Fundamentals," illustrating Dr. Allen's coaching technique will be presented first. In this film, made by the Eastman Kodak company, the great Kansas team of three years ago is shown in action.

Of especial interest to all is a film made of Glenn Cunningham, premier middle distance man in the world today, at the Memorial Stadium some years ago. It is entitled "Glenn

Physical 'Ed' Program ^{6/28}

Outlines New Program For Education Group At Meeting

A six-point program for physical education and recreation was submitted at the afternoon session of the summer educational conference at the University of Kansas by Alfred O. Anderson, director of physical education and recreation at St. Louis, and vice-president for the central West of the National Physical Education Association. His program:

1. Leisure time activities should be constructive and educational.
2. Educators should guide the program, since it is so essentially educational in character.
3. There should be a pooling of community assets for recreation, including school grounds and buildings, armories, church recreation halls, and the like.
4. The program should be for all—boys and girls, and adults, too.
5. The program should be for the whole year; after-school playgrounds are as important as vacation playgrounds.
6. The program should be tax-supported.

Mr. Anderson suggested that the growing demand for the use of school properties for community recreational and physical educational projects demanded that educators study the added problems of administration, the question of leadership that the extra-curricular activities should have, and the matter of financing the program. Should the added cost of light and heat and custodial service be provided in the school budget, or should there be a rental charge to cover actual costs?

The speaker added that whoever conducted the program should consider the wishes of the community. A school curriculum, he said, could be laid down, and the children be required to follow it, but a recreation program, to be most successful, must supply community wants and needs, and not be a program handed down by someone above.

Athletic Skill Is Cultural ^{6/28}

Dr. C. H. McCloy Sees Great Satisfaction In Sport

A perfectly executed play in tennis, golf, or basketball may give the player just as much satisfaction as the reading of Carlyle, and the one is just as cultural as the other, according to Dr. C. H. McCoy of the University of Iowa, president of the American Physical Education Association, speaking at the opening session of the state educational summer conference at the University.

"Just as there is no cultural value in trying to read a foreign language with two fingers in the dictionary, but a satisfaction that is cultural comes when we can read well enough to get the flavor of the language, so is there satisfaction and cultural value in physical skills.

"I recall a tennis game in which I hit the ball with the wood and it struck the net, finally going over, by accident, for my point. Again, I struck the ball with full force, exactly with the center of the racquet, and although two inches out of bounds and opponent's point, I felt the thrill of a well made shot.

"As teachers of physical education we should begin early to teach those physical skills that will be useful later, such as poise and posture, both for sitting and standing. We should teach even the children how to handle their bodies efficiently for games and for the routine movements.

"Why should it be necessary for a varsity basketball coach to teach fundamental footwork to his players? As a child, that player should have played tag, and other games to develop nimbleness and quickness of movement. Such physical skill is highly essential in these days of darting automobiles."

Dr. McCloy urged improvement in teaching of physical education courses, not only "vertically" within the subject itself, but "horizontally" to show the part that well developed physical being had in the enjoyment of the more academic but, to his mind, no more cultural subjects.

"After all, it would be better to raise a million people ten "culture-feet" than to raise 100 persons a thousand "culture-feet," he said.

Education Conference Held Here Monday

School of Education Sponsors
State Summer Meeting; President
Of American Physical Education
Association to Speak

Physical education and recreation in the public schools will be the general theme of the State Educational Summer Conference at the University, Monday, June 27. Dr. C. H. McCloy, president of the American Physical Education association, and professor of physical education at the University of Iowa, will be one of the principal speakers, opening the conference Monday morning at 9:30 in Fraser theater. His subject will be "Physical Education in the Public Schools."

Dr. V. W. Lapp, assistant professor in the department of physical education at the University of Kansas, will also speak at this meeting on "Judging Efficiency in Physical Education."

Another out-of-state speaker will be Alfred O. Anderson, of St. Louis, director of physical education and recreation, speaking on "Public School Facilities and a Community Program," at a meeting in Fraser theater at 2 p.m. Dr. McCloy and Mr. Anderson also present the addresses of the closing session Monday evening, Dr. McCloy speaking on "As the Educator Looks at Physical Education," and Mr. Anderson on "Relation of Recreation to Physical Education."

Helen Barnett, of Wyandotte High School, Kansas City, Kan., and W.H. Mifflin, supervisor of physical education in Coffeyville and a former student at the University, will lead in room 205 Fraser at 11 a.m. A. R. Young, principal of the high school at Anthony, will preside.

At a second conference at the same hour in room 206 Fraser, M.J. Whitson, principal of the Sumner Elementary School in Topeka, and Robert F. Campbell, principal of the elementary school in Herington, will lead a discussion on the "Development of Physical Education at the Elementary School Level." V. T. Trusler, who received his M.A. at the University in 1930, and who is at present with the State Teachers College at Emporia, will preside.

A luncheon meeting will be held in memorial Union building at 12:15. Chancellor E. H. Lindley will address the group. R. E. Kanehl, of High School East in Wichita, and a graduate of the University in 1927, will speak on the subject, "What are the Fruits of Our Physical Education Program?"

Alfred O. Anderson, director of physical education in St. Louis, Mo.,

Continued on page 3

Physical Education Conference

Continued from page 1

will discuss "Public School Facilities and a Community Program," at a general meeting in Fraser theater at 2 p.m. This will be followed by a discussion of "What the School Administrator Expects of Physical Education," by Dr. W. E. Sheffer, superintendent of schools at Manhattan. Doctor Lapp will preside.

L. E. Dittmore, supervisor of physical education, Topeka, and A.D. Smith of Emporia, will lead a discussion on "Overcoming Handicaps in Facilities for Physical Education" in room 205, Fraser hall. John J. Buller of Larned will preside.

At the same hour in room 206 Fraser hall a second group will consider the "Value of Demonstrations and Special Programs." Miss Doris Peterson, Winfield, and Miss Merle Henre, supervisor of physical education in Kansas City, Kan., will lead the discussion. Miss Elizabeth Dunkel, assistant professor of physical education at the University of Kansas, will preside.

At 4:45 p.m. there will be a picture show in Fraser theater.

W. L. Rambo, superintendent of City Schools at Paola will preside at the dinner in Memorial Union building at 6 p.m. at which Prof. Otto Miessner, in the department of public school music at the University of Kansas, will lead group singing. Dean Schwegler will speak on "The Aims of Physical Education."

The last meeting of the conference will be held at 7:45 in Fraser theater. L. W. Brooks, principal of High School East, Wichita, will preside. Dr. C. H. McCloy will speak on the subject "As the Educator Looks at Physical Education," and Alfred O. Anderson will speak on the "Relation of Recreation to Physical Education."

All persons in Lawrence and on the campus who attend the luncheon or dinner must reserve tickets by 12 o'clock Saturday noon. Luncheon tickets are available at the office of the School of Education.

Our reputations are made by what folks say behind our backs.
