

REPORT OF THE DEPARTMENT OF PHYSICAL EDUCATION

FOR THE SUMMER SESSION, 1938

- - -

Last winter the writer appeared before the budget committee of the Summer Session and outlined an all-inclusive program concerning physical education, coaching and recreation for the 1938 Summer Session. The budget committee did not feel that it was possible to approve the entire program, but they did adopt a recreation and physical education schedule that met with a splendid response from the students and faculty.

Miss Elizabeth G. Dunkel and Dr. Vernon W. Lapp were engaged on a part-time teaching basis. Miss Dunkel directed the recreation of the Summer Session in addition to teaching six hours. Dr. Lapp taught six hours on a five-eighths time basis. The writer spent the entire eight weeks without remuneration assisting in organization and administration, and with certain branches of recreation that Miss Dunkel naturally could not handle. Reference is made to supervision of golf, tennis, handball, horseshoes and softball.

Recreational activity was divided into unorganized play and competitive play. The unorganized play took on the features of a community playground, and included such games as volleyball, darts, badminton, croquet, shuffleboard, and archery. All of these games were supervised on the outdoor playground east of Robinson Gymnasium. The sight of these people, of all ages, enjoying these pleasurable activities every evening aroused much favorable comment. A great many faculty members and students, with their families, came to this cool quadrangular spot on Mt. Oread, - some to watch and others to play.

Competitive play was indulged in more by the men than by the women. A softball league, called "The Big Six National Baseball League", had six teams

entered in a softball tournament. About 80 men participated during the summer. The teams were named as follows: Jayhawkers, Wildcats, Huskers, Sooners, Tigers, and Cyclones. The Jayhawkers won nine straight games, being champions of the league. Dr. J. W. Twente, of the School of Education, and Dr. F. C. Allen officiated all the games, which were played every Monday and Wednesday afternoon at 4:15 on the intramural field south of the gymnasium. These games were a decided success, and much enthusiasm was shown even up to the final afternoon. The all-star team picked from the league played the champion Jayhawkers. Again the Jayhawkers won.

The golf course was in excellent shape and it was used by far more people this summer than any summer heretofore. We were fortunate in securing the services of Glenn Oatman who aided our groundskeepers in maintaining the supervision and upkeep of the course.

The swimming pool was open from June 8 to August 1 at regular hours every afternoon. Provision was made for men and for women. Negro students were given open plunge five evenings during the summer, from 7 to 9 o'clock, and they not only enjoyed it but personally stated that they appreciated the consideration given them. It was more in the nature of a social occasion, with Negro men and women both swimming at the same time under supervision of our life guard.

The tennis courts were kept in excellent shape. A tennis tournament was played by 16 men, being won by R. Browning. But the greatest benefit came in having the courts in shape for all who desired to play. It seems as if there are many using the tennis courts who are not students of the University. Many townspeople avail themselves of the benefit of the courts. This could not be prevented unless a monitor was engaged to check this detail, and that was found to be too expensive.

Handball and horseshoes were very popular for the summer. No tournaments were held but these facilities were open to many students who availed themselves of the benefit of these games.

The budget committee granted us the sum of \$116.00 to be spent on purchasing special equipment for summer recreation. With this allowance we obtained equipment for archery, badminton and croquet. These games were exceedingly popular. Archery took the students by storm. A backstop of canvas was made to catch the arrows that went wide of the target. Next year we are hoping to have lawn bowling and other features that we were not able to have this year on account of limited budgetary expenditures.

A feature that was incorporated for the first time was the service this department rendered for picnics. On the 4th of July a breakfast was held at Brown's Grove for those students in Education who remained here over the holiday. There was a Phi Delta Kappa picnic at Brown's Grove the last week in July. And again, a visiting professor in the School of Education entertained the faculty of that school with their families at Brown's Grove. On each occasion game equipment was transported from Robinson Gymnasium to Brown's Grove by truck, and the placing of the equipment and supervision of the games was undertaken by physical education major students. After the picnics the equipment was gathered up and returned to the gymnasium, with no charge to the various groups. It is planned that this scheme will be followed this fall by the Department of Physical Education for all departments desiring to have picnics.

With the return of better times we are now receiving many inquiries concerning instruction in the competitive sports, like basketball, track and football. Last year the writer received letters from Texas, Alabama, Oregon, Missouri, Kansas, South Dakota, Mississippi, Illinois, California, Maine and Nebraska, and

there is a feeling that we should provide some instruction in these sports for credit in the regular 8 weeks course. A coaching school was held independently this summer from June 13 to 18, inclusive. With this small group as a nucleus, moving pictures and a lecture demonstration in basketball were given to the students of the Summer Session and closed with a game between the K. U. varsity and the coaches of high schools who were enrolled in the Summer Session. After this a symposium was held in which discussions were had for the benefit of the summer students. Many of these students expressed a desire for basketball instruction with academic credit.

The writer is enclosing herewith a summary and recommendations for the recreation program written by Miss Elisabeth Dunkel. Miss Dunkel lists 155 hours total, in addition to her teaching work, that she gave in supervising and administering her part of the program. The writer gave more than 96 hours in supervising recreation, games and picnics. Many more hours were given that were not estimated, as it was a pleasurable activity to see the students at the University of Kansas enjoying a fulsome program of recreation and play.

Recommendations

It is the writer's belief that the activity fee for the summer students should be increased either 50¢ or \$1.00, according to the desires of the committee, for a larger program. It is further felt that the program has proven itself of sufficient merit to be considered for a budgetary appropriation by the University.

There are so many possibilities of increasing the pleasurable activities of the Summer School, such as an outdoor arena where people may dance in the open or the possibility of air-conditioning the Union Building, that it resolves itself into a matter of money. The acute question is the amount of money to be available for such utilities.

Many colleges are putting in lawn bowls, an outdoor recreative game that is sweeping the country. It takes money to obtain these facilities, but

several colleges in the country are making these available through a larger summer student activity fee.

Would it be possible that a committee would be formulated to discuss this feature far enough in advance in order that these conditions could be realized for next Summer Session?

Respectfully submitted,

Director of Physical Education,
Varsity Basketball Coach.

FCA:AH

SUMMARY AND RECOMMENDATIONS FOR RECREATION PROGRAM

SUMMER - 1938

Because I feel fairly accurate figures on the results of this summer's program would be helpful as a guide in planning subsequent programs, I submit the following data with a few interpretive suggestions.

I. Organization and administration

1. Director.

Without any motive other than providing an actual check on the time which I gave to the program personally I kept a record of the hours I put into it. That total is 155 hours:

28 hours before summer school started with committee meetings and planning for juniors, etc.	
22 hours first week	} Naturally more time was necessary in the first weeks to get things started.
33 hours second week	
14 hours third week	
16 hours fourth week	
6½ hours fifth week	
12 hours sixth week	
14 hours seventh week	
9½ hours eighth week and last few days.	

Obviously this amount of time is equal to far more than a two-hour course in matter of teaching load. Of course, opinion may be that the program could be curtailed instead of being extended. And some one else might be able to accomplish more than I did in less time, - but my own feeling in the matter is that any program, to be successful, demands much from a director unless there is capable and plentiful assistance for him. I suggest that in the future whoever has charge of the program teach only the course in Community Recreation (3 hrs.). That course should be integrated with the program, and if the director does not teach the course he should cooperate with the class.

2. Budget.

In the future, adequate provision must be made not only for equipment, but for leadership. This summer we were fortunate in being able to run the playground with only one paid assistant. One paid person to be responsible for

equipment is absolutely essential. Providing the enrollment of the Community Recreation class keeps up to 15 or above, it can furnish much needed leadership, but a budget should consider the possibility of providing leadership at student-wage rate if necessity demanded.

Of course the social program makes small expenditures constantly necessary. So I recommend that the recreative director work under a budget which provides for 1) publicity, 2) equipment, 3) leaders, 4) maintenance.

3. Personnel.

As I have already inferred, the job this summer was almost too much for one person to handle. I recognize the fact that much of the responsibility might have been delegated. For instance, at the program stood this summer it was distinctly a four-headed job. Administratively, an ideal plan would have been for the director to appoint a head and a committee to take care of -

1. Publicity
2. Juniors
3. Social affairs
4. Playground and physical activity.

My reasons for not doing that were several; first, whom to find? I was handicapped in that respect because I did not know summer session students from preceding years, I didn't want to impose on already overburdened faculty, and I didn't want to risk the success of the program on leadership which might have been willing but not capable. I do not mean to imply that I met with any lack of cooperation on the part of the faculty or students. On the contrary, I enjoyed a grand response; but finding people who are enthusiastic about a program is much easier than finding people who want a definite part of its responsibility. Secondly, a feeling that I must be very economical made me hesitate to use help which I felt should be paid; and thirdly, because this whole program represented something of an innovation, I didn't readily think of persons who would fit into each groove. Since the summer's experience I have found those people.

At any rate, I suggest, at least, a director of publicity and a director for social affairs, to be appointed by the main director and to work with him. That would considerably ease his job.

II. Program

1. Playground.

The playground has aroused some very enthusiastic response from faculty, graduate students, and undergraduates. My own feeling is that it represents a fine opportunity for socialized play which approaches the English ideal. It showed an average of 35 - 40 persons each evening -- the smallest evening being 6 people and the largest nearly 65. We were surprised that Friday and Saturday nights proved so popular. A steady increase in patronage followed each succeeding week, and many people have felt the playground should have been given much more publicity.

Shuffleboard, croquet and archery were very popular, and the facilities in these should be increased. The more active games, of course, were popular with the younger group.

Attendance was about evenly divided between men and women, and from 3 to 10 small children were usually there. In the future some special games could be provided for them.

The most popular time was between 7:30 - 8:30, and many requests were made for lights over the grove so they could continue play after dark. My opinion is that the playground should not emphasize competition.

2. Social Events.

There were six of these, the approximate attendance at each was:

Picnic	175
Opening Reception	300 - 325
4 Open Houses	175 - 250

The difference in attendance at the last four parties was occasioned, I am sure, by the weather. We had two very hot nights, but even so an enthusiastic group was on hand.

I feel it is essential that these parties embrace a broad program so there will be appeal to both graduate and undergraduate students.

Our regular parties always opened with a game to encourage introduction, then a mixer using simple marching and Paul Jones figures, community singing, a special attraction for each evening, and then dancing and card games, ping pong, etc. We also had cold drinks for sale. These parties were given at practically no expense, and I feel they were a good indication of what could be done with very little money.

I think the picnic as an opener is a good idea. It was apparent that the picnic drew a different crowd than the other parties, and for that reason another one during the summer would probably be wise.

I feel it is important that the first party be more or less formal with the faculty and administration acting as hosts for the evening.

And I feel it is just as important that the rest of the parties be as informal as possible with emphasis put on making the group happy, and providing for easy introductions.

3. Junkets.

These evenings appealed to an entirely different group than our other activities. Although their continuation is not essential, they did offer a good opportunity for introducing various departments of the University and their informality seemed to please those who attended.

The average attendance was around 75. Approximate figures --

Geology Fluorescent	90
Spencer Thayer Museum	80
Astronomy Observatory	125 - 135
Color Photography	45
Diornas	55 - 60

The decrease in attendance at the junkets late in the summer was probably due to the pressure of school work and a generally full program. If they are continued I believe one scheduled for every other week, or maybe junkets only during the first four weeks, would be wise.

III. Conclusions.

1. From critical summaries submitted by my class, interviews with representative students, and many unsolicited comments, I feel the summer's program reached some 500 - 700 of the enrollment in some way. Certainly those who participated enjoyed the summer, and were enthusiastic in the expression of their approval.

2. In the future I recommend that the director make every possible effort to get the summer session calendar made up early. There is no necessity for conflicting dates; and there were too many of those this summer. Perhaps in our effort to provide a full program we did too much. At least a half dozen evenings through the session should be left open for engagements that may materialize through the eight weeks.

3. Until such time as the Union Building can be air-conditioned, it would be wonderful if an outdoor platform (3 times the size now used) could be used for dances and parties in conjunction with the playground. That would bring many participants and many spectators.

4. More publicity for the summer program is important. Mr. Flint mentioned that he would be glad to cooperate, and I suggest the possibility of making that job a project for some student in Journalism.

5. So many requests for lights on the playground have been made that I feel it should be carefully considered.

6. It occurs to me that our swimming pool does "very little business" in the summer. For the girls there was an attendance of 8 - 10 in Beginning Swimming, 3 in Intermediate, and 3 - 10 in Open Plunge. I suggest that this fact be given some thought, and I strongly recommend the opening of the pool at least two nights per week for recreational swimming as part of the play program.

7. Utilizing student and faculty leadership is essential for a far-reaching successful program. These people have been of inestimable value in our program this summer. As far as I know they will be here next summer and I pass on their names:

1. Dr. Messner - helped with community singing and enlisted aid of his class in Civic Music.
2. Ross Robertson - led community singing.
3. Benny Maynard, Pratt, Kansas - provided a couple of musical "special attractions" and generally helped.
4. Frank Anneberg - knows recreation and can do acts.
5. Dorothy Farrell - plays piano and is cooperative.
6. Don Moore - associated with Mr. Maynard.
7. Joe Williams - teaches music in Lawrence, and is fine help.
8. Hermina Zippie - manages Union, and is both capable and enthusiastic. She was in no small way responsible for the success of our parties.
9. Al Brooks - a good mixer, capable, and a fine leader.
10. Mr. Chandler - who gave good advice and fine cooperation. He knows summer sessions.

8. For most programs 7:00 p.m. seems a little early; probably 7:30 would be better.

Elizabeth G. Dunkel.

Summer Intramural Program Is On

*Many Students Sign Up
For Summer Games;
Athletic Office Gives
List of Sports*

A tentative list of the sports which would be offered to summer school students for intramural competition was announced by the athletic office yesterday afternoon. The list is only a tentative one as it will be impossible to run off some of the sports if not enough people sign up for them. Application sheets have been placed in the main corridor of the western end of the gym and all students interested are urged to sign up for their preferred sports.

Up to last night more people had signed up to play softball than for any other sport. Two teams have already been organized and there is still plenty of room for others. Last summer the league had six teams competing. It is hoped that at least that many will be in the race this year.

A tennis tourney is scheduled to get under way in the near future. Eight have signed up for that sport. The tournament promises to be very closely contested and as each entry is a "dark horse," each entrant has the same chance to win.

Horseshoes has drawn many entrants. This is always a congenial sport because of the opportunity it affords for leisure conversation. It is said that lawyers are always the best horseshoe players although English and History lecturers hold their own against the best of them.

Although handball is strenuous and is usually played in cooler weather, it always has a great following, because of its reducing ability. There is nothing like this sport to take inches off of the waist line.

As yet no one has signed up for swimming, golf or badminton. Here are three sports which require skill and offer plenty of exercise and enjoyment. If enough people want a swimming meet, one will be held. A golf tourney has been proposed. This will be held on the University course which is located on the Hill north of Frank Strong Hall.

Because of the heat, most of the sports will be played between the hours of 5:30 and 8 o'clock in the evening. There's going to be plenty doing in an athletic way on the campus this summer. Make it a point to play in at least one sport. There's still plenty of open spots in teams and tournaments. Sign up today!

Six Softball Teams Organized for Summer Play

*Turn Out for Summer
Play Is High; Double
Round Robin of Games
Scheduled*

More than 60 Summer Session students met for the first softball organization meeting, and from this preliminary conference came the "Big Six National Baseball League." Six teams were formed, each named for a member of the Big Six, and arrangements were made for a double round robin of games, to be played Monday and Wednesday afternoons at 4:15 on the field south of the gymnasium. After a few games, there will be "drafting" of players to equalize the squads. The teams and their captains are:

Cyclones: A. E. Garrison, Capt., F. E. Strickler, L. Eifort, V. W. Lapp, P. P. Innes, E. C. Lauber, J. M. Jantzen, F. Anneberg, R. W. Browning, L. A. Fleming, Milton Senti.

Jayhawkers: Bob Allen, Capt., Rusty Frink, Lyman Corlis, Gordon Clucas, Bill Geiger, Dick Harp, Dick Amerine, Bill Rolfs, Elwyn Dees, Dean Nesmith.

Tigers: J. W. Skidmore, Capt., C. Spong, L. C. Read, C. Seimens, E. F. McRill, J. B. Trimeloni, R. Nichols, N. Evans, H. Bentley, G. S. Simmons, K. Kelsie.

Sooners: C. D. Caldwell, Capt., H. Nelson, M. Forker, L. Roberts, L. Mosser, J. H. Smith, G. M. Blair, J. Starrett, R. White, K. Hill.

Huskers: W. A. McElroy, Capt., Bert Nash, C. A. Sargent, A. Brooks, F. S. Collins, Phil Keeler, F. W. Naylor, L. Stanton, R. Swanson, Johnson, Albert Oetting.

Wildcats: John Buller, Capt., Arden Hayes, Art Lawrence, Clyde Coulson, Keith Roberts, Wesley Cunningham, M. D. Reichart, C. J. Olander, Fred Miller, Vincent Graves, Richard Loomis, Harold Reade.

The schedule for the "Big Six National Baseball League," of softball for the University Summer Session follows:

Wednesday, June 15 and July 6—
Jayhawkers vs. Wildcats, Tigers vs. Cyclones; Sooners vs. Huskers.

Monday, June 20 and July 11—
Jayhawkers vs. Sooners; Tigers vs. Wildcats; Huskers vs. Cyclones.

Wednesday, June 22 and July 18—
Jayhawkers vs. Huskers; Tigers vs. Sooners; Cyclones vs. Wildcats.

Monday, June 27 and July 18—
Jayhawkers vs. Cyclones; Tigers vs. Huskers; Sooners vs. Wildcats.

Wednesday, June 29 and July 20—
Jayhawkers vs. Tigers; Sooners vs. Cyclones; Wildcats vs. Huskers.

Sixty-Five Play In Softball League

6/21/38

Teams Show Promise as Wildcats
Upset Jayhawkers; Cyclones and
Sooners Win From Tigers
And Huskers

The Summer Session softball league got under way last Wednesday afternoon when more than 65 men turned out to play. Play was marked by frequent substitutions. Some of the teams showed much promise.

The Wildcats stopped the Jayhawkers 12-4 in what seems to have been an upset. On paper it looked as though the Jayhawkers were unbeatable. All their men are Kansas athletes with considerable experience. Three of their men were on the all-intramural softball team this spring. However the Wildcats, behind the effective hurling of Buller and the heavy stick work supplied by Reichart and Olander, drubbed the school boys without much trouble. Bill Geiger who pitched for Beta Theta Pi, intramural softball champions this spring, was the losing pitcher. Frink starred at the plate for the Jayhawks.

A. E. Garrison's Cyclones drove their way to a hard earned victory over the Tigers 24-22. Loose fielding and heavy hitting featured the game. Dr. Allen, who umpired the contest, says he got dizzy watching the base runners circle the diamond with such regularity. The Tigers touched Bales, winning hurler for 29 hits, while Hodges, losing pitcher gave up 26 safeties. Lapp, Cyclone center fielder, had a perfect day at bat collecting five hits in five trips to the plate.

The Sooner shut the Huskers out 5-0 in a tight contest. Hill of the Sooners was a contributing factor in the win when he had a perfect day at the plate. Smith was the winning pitcher and he held the Huskers to five scattered hits, while his team mates pounded Brooks for 12 bingos.

Games played last night were between Jayhawkers and Sooner, Tigers and Wildcats and Cyclones Huskers. (Editor's note: Scores were unavailable at press time.)

Wildcats Maintain League Lead

7/1/38

Wildcats and Huskers Play Off Tie Game Tuesday; Jayhawkers Continue Drive for Four Straight Victories By Big Scores

Going into the second half of the Summer Session softball tourney, the league leading Wildcats are still undefeated although they had a close call Tuesday evening. The hustling Huskers almost took the top team's measure —when they played to a nine inning tie which was called on account of darkness.

During the week the Wildcats and the youthful Jayhawkers have continued to set the pace. The Wildcats, behind the effective pitching of Cunningham stopped the Sooners by touching Nelson for 11 safeties and seven runs. The Huskers however were more stubborn and the title bound Wildcats had to give everything they had to secure a 7-7 tie. This game will be played off next Tuesday. In case the Huskers win, the league lead will be tied up with the Wildcats and Jayhawkers on top.

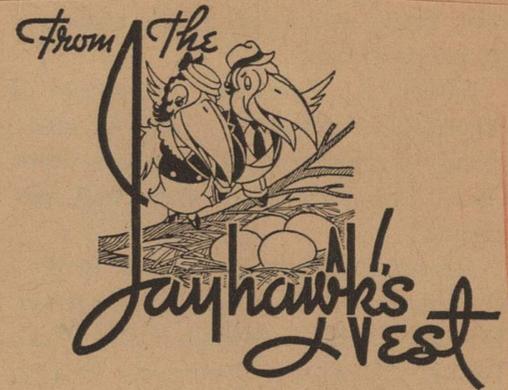

The Jayhawkers are beginning to look like the tournament's 'hot team.' They dropped their initial game to the Wildcats but since then they have been winning with big scores. This week the youngsters stopped the Tigers and overwhelmed the Cyclones.

The Sooners and the Huskers are in a battle for third place. The Sooners, in the third spot with three wins and two loses, have the Huskers close behind with two and two and a play off game to complete.

Fighting to stay out of the cellar are the Cyclones and the Tigers. Both teams have been defeated by the four top teams. When they met earlier in the season, the Cyclones, led by Vernon Lapp out distanced the Tigers by a score of 24-22.

No team appears to be a cinch for the title at this point. The next few weeks will see plenty of good baseball. A whale of a game is predicted when the Jayhawkers tangle with the Wildcats, as the conference title may go to the winner.

* Team	G.	W.	L.	Pct	*
* Wildcats	4	4	0	1.000	*
* Jayhawkers	5	4	1	.800	*
* Sooners	5	3	2	.600	*
* Huskers	4	2	2	.500	*
* Cyclones	5	1	4	.200	*
* Tigers	5	0	5	.000	*

By Jim Bell

Art Lawrence, Wildcat second baseman, is one of the many former K.U. athletes playing in the softball league. Grid fans will remember that Art is the boy whose passing was the talk of the Big Six a few years back. He is still as good as ever and is one of the chief reasons that the Wildcats are leading the league. Art is now coaching at Rosedale High in Kansas City.

A fellow by the name of L. A. Brooks is a headache to the Wildcats. He was the principal reason that the Sooners showed so well against the league leaders'. Brooks is a teacher in East High in Denver. In the play off game Tuesday, Brooks made 11 put outs, more than the average first baseman usually gets. He plays in left field.

Dr. Allen's son, Bob, who is Captain of the second place Jayhawkers is willing to bet anyone his shirt that his team will overtake the fast stepping Wildcats before the season

is over. His team mates feel the same way about it.

"Shorty" Coulson, of the Wildcat clan, is a gym instructor at Newton High. Newton is noted as a great basketball city, but "Shorty" assures us that they can do other things there-- for instance, play baseball.

Wildcats Win Playoff Game

The Wildcats retained their league lead when they defeated the Sooners 6-5 in a play off game Tuesday evening. The game was tightly contested all of the way with the Cats finally

driving across the winning run in the last half of the seventh inning.

In their previous meeting the two teams battled to a tie in an extra inning affair that was called on account of darkness.

The game featured the defense work of Brooks and the pitching of John Buller. Brooks, from the left field garden was credited with 11 put outs. Art Lawrence and "Shorty" Coulson contributed greatly to the Wildcat win.

Jayhawkers Take Lead

Wildcats Lose Two Games During Hectic Week

Sooners Also Lose Two Games and Tie Huskers for Third Place; Cyclones Defeat Huskers 7-6 in Closely Fought Tilt

Bob Allen's slugging Jayhawkers swamped the highly touted Wildcats Monday night to take over the league lead. The Jayhawks gained undisputed supremacy when the lowly Tigers, who have occupied the cellar most of the season, rose up and defeated the Wildcats for their second successive loss on Wednesday evening.

The Jayhawker - Wildcat affair was a slaughter. The Allen men swung viciously at the deliveries of John Buller and massed a total of 22 hits and 16 runs. Lyman Corlis, in the meanwhile stopped the Wildcats cold, allowing them but three hits and three runs.

Corlis completely tamed the Wildcats with his fast ball delivery. Olander, Cunningham, and Buller were the only Wildcats to get hits.

Batting honors also went to Olander, who is also basketball star. He collected four hits out of four trips to the plate and scored each time. Bob Allen got four out of five and Dick Harp connected three times in four chances.

In the Wildcat's Wednesday encounter they took another beating. This time from the Tigers. The winners backed up the fine pitching of Wood with plenty of base hits and

good defensive work.

The Sooners had a bad week when they dropped two games. On Monday they fell victim to the savage attack of the Huskers, 8-5, and on Wednesday the Jayhawkers took their measure 5-2. The last game was tightly contested and for a while it appeared as though the youngsters might be headed for an upset, but they pulled the game out of the fire to win.

The Tigers followed their win over the Wildcats with another over the Cyclones. The Tigers seem to be on a definite up grade and their opponents will do well to be careful against them. The new Tiger pitcher, Wood, is plenty good. He pitches in the night softball league in North Lawrence.

The Cyclones pulled one out of the old trick bag when they upset the Huskers 7-6 in a thriller. The Husker

outfield had trouble holding the ball in the pinches and their frequent errors was the greatest single contributing factor to the Cyclone win.

Standings in Softball League

	Won	Lost	Pct.
Jayhawkers	6	1	.857
Wildcats	5	2	.714
Huskers	4	4	.428
Sooners	3	4	.428
Tigers	2	5	.285
Cyclones	2	5	.285

First Round In Tennis Completed

Summer Session Tennis Tourney at Half-Way Mark Sees Interest At Height

The first round of the Summer Session Tennis tourney was completed last week. Competition has been fast and a great deal of interest is being shown. The outcome of the tournament is still in doubt. All of the favorites came through as expected.

Browning, who played several matches for the K.U. varsity tennis squad during the regular season had little trouble in disposing of R. L. White 6-1, 6-1.

A. D. Oetting eked out a three set victory over James Clark in what was probably the most interesting match of the week. Oetting took the first set 6-4, but Clark came back to win the second 6-3. Oetting took the final set 6-1.

L. Maser defeated C. Packard in an interesting match. Both men played good tennis. Maser is one of the favorites.

Ernie Klann, diminutive Kansas track star, took C. Spong's measure 6-1, 6-2 in a rather erratic battle. Klann furnished amusement for the 'gallery' with his usual clowning.

Weston Wells won from C. Olander by default.

J. Sterrett won his match from L. C. Read in rather easy fashion. Sterrett had a little trouble in settling down during the first set, but he finally got going and steam rolled to victory.

R. L. Dennen defeated C. Lanning in an uninteresting affair.

R. A. Burton advanced to the quarter finals by virtue of a bye.

Browning entered the semi-finals by defeating Oetting. Quarter final matches yet to be played are: Maser vs. Klann, Wells vs. Sterrett and Dennen vs. Burton.

Summer Tennis Tilts In Final Stage

Favorites Progress as Predicted But Upsets Likely as Competition Becomes Tougher; Many Players Show Varsity Calibre

As the Summer Session tennis tournament goes into its final stages, competition becomes tougher. Favorites have progressed as predicted and the matches which are on tap promise to be well worth any tired student's trip down to the Stadium courts.

Browning, the top seeded man, earned his right to the semi-finals last week when he disposed of Oetting easily. He is picked by those "in the know" to cop the title without too much trouble.

Maser, another one of the favorite won the thankless task of trying to stop Browning the hard way. He had to defeat Ernie Klann, Kansas track star. Klann, though he knows next to nothing about the finer points of the game, furnished plenty of opposition with his gameness and unwillingness to admit defeat.

Wells had a comparatively easy time with Sterrett when he steam rolled into the semi-finals. Wells took the first set 6-2 and then smashed his way through the second 6-0. Wells is considered to be the man that Browning will have to beat in the finals.

Burton had trouble with Dennen, but finally emerged victor 6-4, 6-1. The first set was hotly contested with almost every game going to deuce.

Semi-final matches will be between Browning and Maser and Wells and Burton. Unless the dope is upset, Browning should win the first match and Wells should take the other. However Maser and Burton are not players to be toyed with. Both are steady players with lots of spark when the pressure is on.

Individuals In Sport News

Outstanding Performances Feature Eventful Week

**A New Hurling Star Discovered;
Bob Allen to Manage Jayhawkers
From Bench; Buller Sings the Blues;
And Other Sport Notes**

Greatest star discovery of the past week was Kenneth Wood, sensational Tiger hurler, who made his debut in the softball league by beating the heavy hitting Wildcat crew 7-3 and then stopped the Cyclones with no trouble at all. He accomplished what was considered impossible in the Cyclone affair—he fanned Dr. Lapp twice. Other managers are tearing their hair, wondering why they let this boy slip by.

Rumor has it that Bob Allen will manage his league leading Jayhawkers from the bench during the rest of the season. It seems as though Bob has taken a job pitching for the local Ban Johnson team which players are not allowed to play softball. This will be a heavy loss to the youngsters as Allen has sparked his team all season.

The opening games of the second half of the pennant race witnessed a complete reversal of results from the first day of competition. This all goes to show what a cockeyed affair this league is. Cellar teams beat league leaders and upsets are the order of the day.

John Buller, Wildcat manager, is singing the blues these days after two disastrous set backs last week. He says, "Wait 'til next year. With some more practice we'll stop those kids!"

Jayhawkers Cinch Title By Swamping Cyclones

Climax Great Title Drive By Taking Eighth Straight Victory 15-6

7/22

Wildcats Drop Their Third Game
When Sooners Trample Buller 8-1;
Jayhawkers Will Meet All-Stars
Wednesday Afternoon

The inspired Jayhawker softball team climaxed their great championship drive Wednesday afternoon when they slugged their way to a 15-6 victory over the Cyclones. They cinched the title by blasting several Cyclone pitchers from the mound in characteristic fashion. The "kids" have won their last eight starts.

The Jayhawkers started the week out rather quietly when they took an uninteresting affair from the Huskers 3-1, but when the pennant was in sight, they put on a final drive that left their last place opponents by the wayside.

The Tigers kept coming on their winning streak and dumped the Sooners 5-4 in a thriller. The score was close all the way with the lead see-sawing back and forth. The Tigers out hit their opponents 16-5. Wood was the winning pitcher.

The Wildcats managed to sneak away with a 2-1 win over the Cyclones. The Wildcats have never really recovered from the two straight set backs they took a week ago. Their infield was shaky and their hitting impotent. The Cats collected 6 hits while the Cyclones touched Buller for four bingos.

The Jayhawkers cinched the title Wednesday afternoon when they romped their way to a 15-6 victory over the Cyclones, the cellar team. The Cyclones were hitting the ball but couldn't score when the pressure was on. The Jayhawkers got 16 hits while the Cyclones collected 10.

The Sooners became the third team to stop the Wildcats when they slammed John Buller's offerings for six hits and eight runs to win 8-1. The Buller gang who won their first five starts, went completely to pieces and were no match for the inspired play of the Sooners.

The Huskers put an end to the Tigers winning streak when they got to Kenneth Wood for 20 hits and 18 runs. The youngster lost all control and was literally blasted from the box by a furious barrage of base hits from the bats of the Huskers.

Each team has one game yet to play. On Wednesday John Buller, manager of the second place Wildcats, will pick an all-star team from the rest of the league and try to stop high flying Jayhawkers who have won their last eight starts. This game should prove highly interesting. The starting pitcher for the "kids" will probably be Lyman Corlis.

	Won	lost	pct.
Jayhawkers	8	1	.888
Wildcats	6	3	.666
Sooners	4	5	.444
Huskers	4	5	.444
Tigers	3	6	.333
Cyclones	2	7	.222

Mythical All-Star Team Selected by Umpires

Jayhawkers Lead with Four Men On First Team; Huskers Place Three on Squad

L. Corlis Given Pitching Spot; Quality of Players Unusually High; Wildcats Place Three Men on Second Squad

Twenty players in the Big Six National softball league were accorded honor yesterday when the mythical all-star team was selected by the league's umpires—Dr. Forrest C. Allen, Dr. J. W. Twente and Howard Engleman. The great Jayhawker crew walked off with honors when four of their number were named on the first team. The Huskers placed three, the Wildcats had two and the Sooners supplied the remaining man.

First Team			Second Team		
R. Tripp	Sooners	c	J. Skidmore	Tigers	
L. Corlis	Jayhawkers	p	R. Cunningham	Wildcats	
J. Buller	Wildcats	1b	V. W. Lapp	Cyclones	
P. Keeler	Huskers	2b	F. Strickler	Cyclones	
V. G. Hayes	Huskers	3b	A. Hayes	Wildcats	
R. E. Allen	Jayhawkers	ss	A. Lawrence	Wildcats	
B. Stratton	Jayhawkers	rf	W. A. McElroy	Huskers	
D. Harp	Jayhawkers	cf	L. Stanton	Huskers	
A. Brooks	Huskers	lf	N. Evans	Tigers	
C. J. Olander	Wildcats	rs	A. B. Leonard	Sooners	

At the catching position, the judges placed Ray Tripp of the Sooners. Ray played in that spot for the fine Acacia team during the Spring intramural schedule. He is fast, aggressive and a fine sportsman.

The heavy responsibility of hurling went to Lyman Corlis of the Jayhawkers. Corlis is a K. U. basketball star and was named on the all-intramural team this spring. He has everything that a softball pitcher should have—speed, control and a level head.

John Buller, who paced the second place Wildcats during the entire season, was selected for the first base position. Buller is a great leader, a fine defensive man and a consistent hitter.

The keystone sack went to Keeler of the Huskers. Keeler played well all year. He is an excellent defensive player and is noted for hitting in the pinches.

Another Husker, Hayes, was placed at third base. Hayes played almost errorless baseball all season and his selection for the hot corner is a wise one. In addition to being an excellent fielder, he hits well and accounted for many Husker runs during the schedule.

Bob Allen, captain of the pennant winning Jayhawkers, was given the short stop position. Bob was one of the main reasons that the Jayhawkers ended the season at the top of the heap. He is a great leader and a superb competitor. Bob was on the All-Intramural team this spring.

Stratton, of the Jayhawkers, got the right field berth. Stratton was one of the most dependable hitters that the "kids" had this season. He was always dependable for a hit when it was needed. His specialty, however, was base running.

Dick Harp, another Jayhawkers, was named to the center field garden. Dick is big, fast and a heavy hitter. His fielding left nothing to be desired.

The responsible left field position went to Brooks of the Huskers. Brooks was, perhaps, the outstanding defensive fielder in the league. He was noted for his spectacular

running catches. He is a consistent hitter.

Olander of the Wildcats, was placed at roving short stop.

Olander is very fast and covers ground as a roving short stop should. His batting average is up among the top rankers.

Buller Selects All-Stars For Play-Off

Starting line-ups and pitching selections for the Jayhawker-AllStar game to be played Wednesday afternoon were announced yesterday. The team which will attempt to stop the champion Hawks was selected from the other five teams in the league by John Buller, manager of the second place Wildcats.

Lyman Corlis will be on the mound pitching to Frink for the Jayhawkers. Either Cunningham or Nelson will hurl for the all stars. Caldwell will be on the receiving end.

ALL STARS

Player	Position	Team
P. Keeler,	2b	Huskers

Jayhawkers Defeat All-Stars 8-7 in Post Season Game

Victory Stretches Jayhawker String to Ten Straight Games; Corlis Is Winning Pitcher

**All-Star Game Begins in Swatfest
As Jayhawkers Score 6 and All-Stars
Tally 4 Times in First Inning; Victors
Win in 6th**

The champion Jayhawker softball team, led by the powerful bat of Dick Amerine, won its tenth straight victory Wednesday evening when they nosed out John Buller's All-Stars by a score of 8-7. Lyman Corlis, Jayhawker hurling ace, was the winning pitcher.

The game started like a merry-go-round with the Hawks scoring six runs and the All-Stars tallying four times in the first inning. McElroy and Allen, the starting pitchers, had trouble settling down and were both greeted with a barrage of base hits.

Manager Buller replaced McElroy, sending Nelson to the slab at the start of the second frame. At this point the game settled down to defensive work by both teams. Nelson succeeded in holding the kids to only two hits in three innings, while Bob Allen handcuffed the Stars.

In the fourth, the Stars put on a rally which brought them three runs and the lead. Olander and White lead the attack which the Jayhawkers succeeded in throttling after a momentary let down.

The Hawks came back in the fifth inning to tie the score and in the sixth they pulled ahead. They never lost this lead. Corlis was in the game for the youngsters and the Stars couldn't touch the ball.

Amerine, Corlis, Frink and Geiger stood out for the winners, while Strickler, Olander, White and Nelson were the All-Stars which shined the brightest.

In winning his game, Corlis gave but one hit in three innings and allowed no runs. The tall lad struck out six of the 10 men to face him. Nelson turned in the best hurling for the losers. He was touched for only two bingos in three innings, allowed no runs and fanned one.

7/29/38

Look Back on Successful Athletic Activity ^{8/2/38} As Summer Session Ends

Extensive Recreational Program Was Prepared by Department Of Physical Education

Double Round Robin Softball Tournament Takes Most of the Spot Light; Tennis Tourney Gets Much Interest; Greater Plans for Next Year

The Summer Session which draws to a close tomorrow has been the most athletically inclined summer term the University of Kansas has ever known. At the start of the session, Dr. Forrest C. Allen said, "This summer it is our aim that every student on the Hill will have something to do in the way of sports." He, with the aid of his staff, accomplished that goal.

Sports activity was wide. It ranged from a hotly contested baseball league to shuffle board games in front of Fowler Shops. Competitors range in age from 18 to 65 and women were just as much in the whirl as were men.

Focal point of the greatest interest was the Big Six National Softball League. The league, composed of six teams and 65 players, lasted throughout the entire session. The tournament played was of the double round robin variety.

John Buller's Wildcats set the pace for the first half of the season when they won five straight games and suffered no losses. Their initial win was from a squad of young, erratic students who called themselves the Jayhawkers.

After losing their first game, the Jayhawkers vowed that they would not suffer defeat again. They began an irresistible title drive which kept them on the heels of the Wildcats. They were waiting for their second chance to face the Bullermen.

On the opening day of the second half of the tourney, the Hawks were matched against the only team that had defeated them—the Wildcats. Determined to win, they backed up the superb hurling of Lyman Corlis to emerge victors 16-3. The Jayhawkers, under the able guidance of young Bob Allen never let down. They continued to steam roll toward the title, which they finally cinched after taking the nod in 10 straight contests.

When the regular season was over, John Buller, manager of the second place Wildcats picked an all-star team from the rest of the league and attempted to stop the youngsters. The Jayhawkers won the exciting affair by a score of 8-7.

The annual Summer Session tennis tourney went to Browning in a walk away. Browning took the affair by defeating White, Oetting, Maser and Burton. The big kid didn't lose a single set and dropped but six games during his four matches. In the finals he completely annihilated Burton 6-1, 6-0. The semi-finals were Browning, Wells, Maser and Burton.

Though there was no regular golf tournament, the University course was in almost constant use. The fairways were kept in excellent condition and the greens were regularly rolled. Glenn Oatman, Kansas varsity golf coach, was in charge of the

links. (The Kansan is still unable to find out the name of the man who made the hole-in-one a couple of weeks back).

Despite the fact that this year's program was a definite success, Dr. Allen is still not satisfied. He talks of improvements next year which will include additions such as Lawn Bowling and and Peg Golf. If possible he would like to divide the student residential districts into four groups for competition in all sports.

Extensive ^{6/9/38} Recreational Program

Arrangements Are Complete for Diversified Opportunities for Summer Play

A complete program to provide opportunities for diversion, recreation, and friendship is planned for all summer school students and their families this year. The program offers a variety of minor sports, swimming, tennis, volleyball, and golf.

The program centers about Campus Hour, 7 to 8 o'clock on each school day evening, for which varied entertainments are planned. Each Monday during the summer term with the exception of June 13 for which a picnic is planned, there will be entertainment, games, and dancing starting at 7 o'clock at the Memorial Union building.

Campus Hour on each Tuesday will provide discussions of professional topics by prominent educators

which will be held in the Memorial Union building.

Campus Junkets, a series of conducted visits to some of the interesting spots on the campus, on Wednesday evenings will be entertaining as well as informative. A mineral fairyland, a geology fluorescent display, will be visited on June 15. Later there will be junkets to Thayer museum, the Observatory, Dyche museum, the department of design, and an illustrated lecture on "Color Photography" will be given by Oren Bingham, photographer.

Thursday's Campus Hour will include faculty recitals, band and orchestra concerts, community sings, and other musical attractions. Musical entertainment will also be offered on Fridays and Sundays.

Every evening, facilities will be available for croquet, badminton, archery, deck tennis, volley ball, and golf. New croquet and archery equipment has been purchased and will be placed on the lawn in front of Fowler Shops. Tennis courts and a 6-hole golf course are available at all times.

Leagues and tournaments for men students and faculty members will be conducted in soft ball, handball, golf, tennis, badminton, deck tennis, and horseshoes. Dr. Forrest C. Allen,

professor of physical education, said that leagues will be patterned after the Big Six. The names of the teams will be Jayhawkers, Tigers, Cornhuskers, Wildcats, Sooners, and Cyclones. There will be a suitable trophy for the winning teams. Doctor Allen suggested that it might possibly be ice cream cones, but at any rate, it will be edible. Men who would like to play on these teams are asked to register on the bulletin board on the first floor in the men's gymnasium.

A men's swimming meet will be held near the end of summer school. Pool hours for men will be: Tuesday, Thursday, and Saturday from 3:30 to 4:00 elementary swimming; 4:00 to 4:30, intermediate swimming; 4:30 to 5:30, open hour; and from 2:30 to 3:30 on Monday, Wednesday, and Friday, open hour.

Pool hours for women will be: Monday, Wednesday, and Friday: 3:30 to 4:00, elementary swimming, 4:00 to 4:30, intermediate swimming, 4:30 to 5:30, open hour; and from 2:30 to 3:30 on Tuesday, Thursday, and Saturday, open hour.

Over 100 Persons Attend Indoor Picnic

6/14/39

Singing, Ping Pong, Tennis, Dancing
Plays Big Part in Entertainment
For Summer Sessionites

More than 100 persons had a rollicking good time at the all-school picnic held at Robinson Gymnasium yesterday evening. Unsettled weather conditions forced the picnickers indoors and the plans to hold festivities at Brown's Grove were abandoned early yesterday afternoon.

◆ Ping pong proved to be popular while badminton, dodgeball, darts, deck tennis, volleyball and shuffle board each had their share of players and fans. Tables were supplied for those wishing to play cards, while those who wished to sit and chat found facilities close by.

The food, while it lacked the true picnic flavor that is often supplied by the addition of a little honest-to-goodness soil, or an ant or two, was relished by the crowd. Miss Hermina Zipple, director of University food service, served cafeteria style from one of the classrooms on the second floor of the gymnasium. And after persons had eaten salad, ham, beans, pickles, rolls, and ice cream bars, and had drunk some lemonade and coffee, they felt as though they had been to a picnic.

After supper, Ray Wright, Lawrence business man, lead the group in singing. Then a number of the picnickers returned to the ping pong tables and dart courts while others took part in the dancing on the main floor of the gymnasium.

While there may be some aching muscles today, there won't be the anguish from chigger bites that usually are a part of the "day after the picnic feeling."

All-School Picnic To Be Monday

6/9/39
Review

*Free Transportation
To Brown's Grove;
Make Reservations at
Union Building*

An all-school picnic at Brown's Grove on Monday will be the first activity on the summer recreation program. It will furnish an opportunity to renew old contacts and to make new ones, to eat a quantity of food, to relax under a tree, and to play games.

Food, that prime requisite of a picnic, will be supplied by the University cafeteria at 35 cents a plate for adults and 20 cents a plate for children.

Equipment for croquet, deck tennis, badminton, volleyball, and softball will be available for those wanting to play. "But," said Miss Elizabeth Dunkel, assistant professor of physical education, who is planning the picnic, "no one has to play if he doesn't wish."

Those who plan to go should leave their reservations at the hostess desk in the Memorial Union building or at the Education office in Fraser hall by Saturday. Persons going are asked to meet at the Memorial Union building Monday afternoon. Caravans of cars will leave at 4:30 and at 5 o'clock. Transportation will be furnished for anyone desiring it.

In case of rain the picnic will be held in Robinson Gymnasium.

All-School Picnic Monday Afternoon

6/11/39

*Archery, Deck Tennis,
Volleyball, Badminton
Among Games Available
For Students*

Caravans bound for the all-school picnic at Brown's Grove will leave the Memorial Union building at 4:30 and 5 o'clock on Monday afternoon.

"Brown's grove will be in picnic apple pie order Monday afternoon," promises Dr. Forrest C. Allen, professor in the department of physical education. Workmen will mark off courts and take out archery, deck tennis, volleyball, badminton, softball and croquet equipment for those who wish to play. Trees, to supply shade for those persons not so ambitious, will be in abundance.

Persons planning to go must leave their reservations at the hostess desk in the Memorial Union building or at the School of Education office in Fraser hall by today. This is necessary to facilitates plans for transportation which will be furnished for anyone desiring it, and for the preparation of food which will be supplied by the University cafeteria at 35 cents a plate for adults and 20 cents a plate for children.

This picnic will be the first activity on the summer recreation program and will furnish an excellent opportunity for students to make new contacts and to renew old ones. In case of rain the picnic will be held in Robinson Gymnasium.

First Campus Junket Tomorrow ^{6/14/39}

CAMPUS HOUR

7 to 8 o'clock

* * * * *
* Tuesday—Dr. R. A. Schwegler
* to speak at the Educational
* Forum in the ballroom of
* Memorial Union building.
* Wednesday—Junket to a Min-
* eral Fairyland in Haworth
* hall.
* * * * *

A click of a button and presto, a fairyland of glowing colors! This will be the experience of persons going junketing to the fluorescent mineral display in Haworth hall tomorrow evening at 7 o'clock.

This is the first junket to points of interest on the campus which will be held each Wednesday evening during the Summer Session. They are in charge of Miss Elizabeth Dunkel, assistant professor in the department of physical education.

R. P. Kercher, assistant instructor in geology, will show and explain the exhibit tomorrow which Dr. K.K. Landes, professor of Geology, has collected in the last several years. Among the specimens which will be shown are opal, fluorite, calcite, garnet, tin oxide in a matrix of calcite, and an elephant's tooth.

These are arranged on a red velvet background which, under the ultra-violet light, turns to a deep purple and sets off to perfection the predominate colors of glowing rose and blue. A piece of glazed pottery, ordinary appearing in daylight, becomes curiously mottled, and a brown stone becomes fantastically traced with yellow.

The University swimming pool will be lowered to four feet of water in order to accommodate those summer students who are just learning to swim, it was announced late yesterday afternoon. This will go into effect Monday and will continue for a period of two weeks. The pool will be open daily, except Sunday, from 2:30 to 5 o'clock.

Campus Opinion ^{6/14/39}

Letters to the Editor:

Previous to this summer a junket, to the average University of Kansas summer session student, was a preparation which one could miraculously prepare into a dessert. This summer the word takes on new meaning, not for Webster but for us. The University greets us with an entirely new version, "Campus Junkets."

These conducted visits to interesting and worthwhile spots on the campus are only one of the many new features which have been planned for the summer students "Campus Hour" from seven until eight each evening.

To add to the pleasure of this hour some unknown friends of the bewildered and fever-ridden summer students have planned forums in the Union, entertainment and dancing each Monday evening (a hitherto unheard of pleasure for visiting schoolmarms), musical events, and an all-school picnic.

The junkets that we are to know this summer are more highly flavored, have a better consistency, and promise great delight for those who learn to indulge. What is your choice—chocolate or lemon?

Elsie Penfield.

Campus Opinion ^{6/17/39}

To the Editor:

"More than 100 persons had a rollicking good time at the all-school picnic held at Robinson Gymnasium yesterday evening." Who said that man had a gregarious instinct? The above absolutely disproves it.

The other 1000 enrollees in the summer school session could have been found at their usual greasy spoon hangout, eating, for the sixth consecutive evening, a ham sandwich and an indigestible slab of cherry pie. But who could have refused a menu of salad, ham, beans, pickles, rolls, and ice cream bars? Well you did, and I did, and all the rest of the 1000 slackers.

For four summer terms I have overheard complaints of the social offerings of the University of Kansas Summer Session. The first offering this summer was turned down flat by over 1000 students, and if we were to subtract the Profs and their wives who went merely to help make your summer a more pleasant one, we wouldn't be able to say "More than 100 persons."

Anyway if you came to the Union Building Monday night for entertainment and dancing, I am certain that you will see me there.

Another Slacker.

First 'Open House' Monday Evening ^{6/17/39}

A general 'Mixer,' or Open House, and the initial social event of the Summer Session, will be held in the Memorial Union building Monday evening from 7 to 8 o'clock. All Summer Session students, their families and guests, will have an opportunity to become better acquainted with the faculty, their fellow students, and themselves.

Dancing, bridge games, checkers and ping pong will provide some of the entertainment for those who attend. Arrangements have been made to serve refreshments. (Editor's note: See Campus Opinion).

Open House Features Old Dances

Old-fashioned costume dancing of such numbers as the "Virginia Reel" and "Pop Goes the Weasel" by members of the class enrolled in Community Recreation will be a special attraction of the third "Open House" of the summer session to be held at 7 p.m. Monday at the Memorial Union building.

Additional entries in the "Hall of Fame" will be made. Guests at the last "Open House" who were sketched by Carol Johnson, fa'38, were Rita Morris, a student at the Mid-Western Band Camp; Henry Werner, men's adviser, Richard La Ban, editor of the Summer Session Kansan; and Joseph Cochrane, c'38. These cartoons form a nucleus to which new sketches will be added at each following "Open House." At the close of the summer session those who have won a place in the gallery may take their pictures.

Ross Robertson, assistant instructor in economics, will lead group singing. Marjorie Crume, c'39, and Gordon Clucas, c'38, will lead mixer dancing.

With this party the regular schedule will be resumed and an "Open House" will be held each Monday evening for the next three weeks of the Summer Session.

Open House 'Hall of Fame'

Sour Owl Cartoonist Will Make Sketches Of Visitors

Initial entries in the summer session "Hall of Fame" will be made at the second "Open House" of the Summer Session to be held at 7 p.m. Thursday at the Memorial Union building.

Carol Johnson, fa'38, will draw cartoons of persons present and the finished sketches will be put on display. New sketches will be added to the collection at each succeeding "Open House" held this summer. At the close of the term those who have won a place in the gallery may have their pictures.

Johnson has been art editor of the Sour Owl, campus humor magazine, for the past three years and is well known on the campus for his ability as a cartoonist.

Plans for the party include mixer dances, games, bridge, and ping pong, according to Miss Elizabeth Dunkel, assistant professor in physical education. Adequate lighting for the bridge and ping pong tables has been arranged. Lewis Copeland, fa'40, will be master of ceremonies.

Ross Robertson, assistant instructor in economics, and W. Otto Miesner, professor of public school music, will lead group singing.

"Enough fun has been planned for this party to make up for the two Mondays, June 27 and July 4, when 'Open House' could not be held," Miss Dunkel said. The regular schedule will be resumed July 11.

Open House Monday

Music by a piano accordion quartet will be a special attraction at the "Open House" to be held at 7 p.m. Monday at the Memorial Union building.

Members of the quartet are: Benny Marynard, Don Moore, Ruth Hopkins, and Dorothy Parcels.

Ross Robertson, assistant instructor in economics, will lead group singing.

Additional entries will be made in the summer session "Hall of Fame." Summer sessionites who were sketched by Carol Johnson, fa'38, at the "Open House" last Monday night were Dorothy Gehret, fa'41; Edith Ferguson; Howard Palmer, e'uncl.; and Lewis Copeland, fa'40.

"The committee having charge of the party have collected a battery of fans from about the campus," said Miss Elizabeth Dunkel, assistant professor of physical education. So the guests should be cool!
