Congratulations on keeping up that traditional N.U. basketball spirit and record! The team is making another splendid record.

You will not remember it but back in '28 and '29 I was on the track team when "Doc" Huff was coach. I ran on the Cross Country team one fall and there was one man named Leo Mosher, or Mosier on the team. I'm not sure about his first name but his last name was spelled one of the two ways I have given. Mosher was an exceptional individual in having a heart rate and pulse rate of only 28 beats per minute.

One of the leading heart specialists of the country is interested in getting some data on Mosher. Would you be able to check back on your records and give me his present address? Thank you and Best Wishes.

R. A. Youngman M.D.
