WAR FINANCE DIVISION

STRAIGHT TALK

about the

SIXTH WAR LOAN DRIVE

As we move closer to victory, it wouldn't be surprising if you were saying to yourself—"What's the big idea of asking for all this additional money *now?* Isn't the war almost over?"

No sir, *it is not!* Not by a long shot. Of course, for many months now you've heard mostly about the war with Germany, where our greatest effort was concentrated. That's why many people have the idea that the war's practically over.

But make no mistake about it—nothing could be farther from the truth! The Japanese war is a tremendous undertaking, and victory will come high. We'll have to fight every inch of the way.

Everything Costs More—in the Pacific War

The European war is expensive, but almost everything in the Pacific war will cost more. Take transport costs, for instance. Because of the longer distances, the *same* amount of freight *costs 25 percent more* when shipped to the South Pacific than to Europe. And it takes *twice* as many cargo ships in the Pacific to support a task force of a given size since turn-around time is *twice* as great!

More Planes . . . Tanks . . . Ships . . . Oil

In addition, we will need more of everything. *More* B–29 Superfortresses that cost $600,000 each. *More* P–47 Thunderbolts that cost $50,000 each. *More* M–4 tanks, with bulldozer blades, that cost $67,417 each. *More* amphibious tanks—*more* aircraft carriers—*more* supply ships—*more* gasoline and oil than it took for the invasion of Europe!

Care for the Sick and Wounded

And lest anyone forget, we will need *more* battalion aid stations—*more* clearing stations—*more* evacuation hospitals—*more* convalescent hospitals—*more* hospital ships.

For many, many years the sick, wounded, and otherwise disabled veterans will require medical attention and care. That's the least Uncle Sam can do in appreciation of what they've done for us.

Maintenance for Millions

Did you ever stop to think how much money it costs to maintain the 11 to 12 million men and women in our Army and Navy? Whether the men are actually fighting or not, they must be fed, housed, transported from one training center or battle area to another, cared for in a hundred and one different ways. That all costs money and *will continue to* until the last man demobilized is back in civilian clothes.

In addition, millions of dollars will be required for mustering out pay, for various benefits and services voted by Congress to help the boys get started in civilian life.

These are reasons enough why patriotic Americans will want to buy

heavily during the Sixth War Loan. But here are still more—

Winning the Peace— for Your Country

If we're to win the peace as well as the war, the cost of living must be kept down and the purchasing power of money preserved. A reckless inflation that would necessarily be followed by the catastrophe of deflation—with its unemployment, bankruptcies, misery and heartache—must be prevented at all cost. Let's make no mistake—a dangerous period lies ahead. The American people have nothing to fear, however, if they show in the future the same common sense they have shown in the past, and *continue to put every penny over rock-bottom expenses into the purchase of more and more War Bonds.*

Winning the Peace— for Yourself

Want *another* important reason? *Yourself!* There isn't a better or safer investment in the world today than War Bonds. In helping your country, you are also helping *yourself!* Never in our entire history has it been so necessary to *save* as right now. We'll need money, individually, for education, repairs, replacements, retirement—*and we'll need a lot of it.*

As you can see there are many reasons, *important reasons,* why our Government must have the financial support of everyone, and have it for many months to come.

Let all Americans do their part—for their own sake, for their country's.

TREASURY DEPARTMENT

WAR FINANCE COMMITTEE

OFFICE OF STATE CHAIRMAN

November 18, 1944.

Dear Fellow Faculty Members:

You read General Eisenhower's appeal to the home front for support of the 6th War Loan Drive. Certainly no more need be said to an intelligent faculty and employee group of the University of Kansas. The starting date is Monday, November 20, 1944.

However, our personal experiences indelibly stamp their impressions upon us. Last Monday at Rotary meeting here in Lawrence I heard Marion Covey, a member of the Third U. S. Marines, who was wounded at Bougainville, say: "Morale is not built by having Bing Crosby and Joe E. Brown or other Hollywood celebrities twenty miles back of the lines entertaining. Morale is built when a government for which you are fighting gives you a waterproof cigarette case and a waterproof match box. When you have been in the slough and slime, with mud matted in a two-weeks growth of beard, when you are hungry and wet and tensed to an indescribable degree, when you are throwing hot lead at the enemy, and his machine gun never ceases to chatter, - you reach for a cigarette, and that is all you want then. And if you find that your cigarettes are wet and your matches won't strike, then morale is made or lost right there.

"When your machine gun jams, and you find the Japanese government has put a brush connected with the ejector to clear away the grains of sand to keep the Jap machine gun from jamming, you wonder why you haven't an ejector with a brush on it. The thing that counts at that moment is something to save your own life. You think of your existence, and you wonder about home."

Mation Covey has been in seven American hospitals, and his taut, drawn face, sharp eyes and cutting words make you know that he has been places we have never been or ever will be. Those cutting words were, "Since I have been back all I can see is you fellows chasing the almighty dollar and having a swell time."

And that is the way it appears to those boys. But he wouldn't want us to have a long face and to whine and complain. Really what he wants is to come back to the home front the way he hopes to have it. Let's make it that way by over-subscribing this 6th War Loan Drive with a smashing triumph to show to the boys in every arm of the service that the least we can do is to do the most that General Eisenhower asks.

Sincerely yours,

Frank Carlson

Chairman for the University Drive.

P.S. The University has a fine record to maintain. Buy your bonds at your bank, then please phone Mrs. Hulteen at K.U. 83 or send a communication to this office, stating the amount of your bond. A K.U. drive has never failed.

INSTRUCTIONS CONCERNING INTEREST

No addition of interest is required on purchases of Series E, F, and G Savings Bonds, or Treasury Savings Notes of Series C.

No accrued interest need be collected on subscriptions for $500 or $1,000 of the 2% Treasury Bonds of 1952-54 or the 2½% Treasury Bonds of 1965-70, but interest must be collected on all subscriptions for the 1¼% Treasury Notes of Series B-1947 and the ⅞% Certificates of Indebtedness of Series C-1945.

Accrued interest on all subscriptions from June 26, 1944, except as stated in the last two preceding paragraphs, should be computed on an actual basis, using the following decimals:

2½ Percent Treasury Bonds of 1965-70 $0.068 per day per $1,000
2 Percent Treasury Bonds of 1952-54 $0.055 per day per $1,000
1¼ Percent Treasury Notes of Series B-1947 $0.034 per day per $1,000
⅞ Percent Certificates of Indebtedness $0.024 per day per $1,000

Interest on all subscriptions must be figured to the date funds will be available at your Federal Reserve Bank or branch.

Marines, who was wounded at Bougainville, say: "Morale is not built by having Bing Crosby and Joe E. Brown or other Hollywood celebrities twenty miles back of the lines entertaining. Morale is built when a government for which you are fighting gives you a waterproof cigarette case and a waterproof match box. When you have been in the slough and slime, with mud matted in a two-weeks growth of beard, when you are hungry and wet and tensed to an indescribable degree, when you are throwing hot lead at the enemy, and his machine gun never ceases to chatter, - you reach for a cigarette, and that is all you want then. And if you find that your cigarettes are wet and your matches won't strike, then morale is made or lost right there.

"When your machine gun jams, and you find the Japanese government has put a brush connected with the ejector to clear away the grains of sand to keep the Jap machine gun from jamming, you wonder why you haven't an ejector with a brush on it. The thing that counts at that moment is something to save your own life. You think of your existence, and you wonder about home."

Mation Covey has been in seven American hospitals, and his taut, drawn face, sharp eyes and cutting words make you know that he has been places we have never been or ever will be. Those cutting words were, "Since I have been back all I can see is you fellows chasing the almighty dollar and having a swell time."

And that is the way it appears to those boys. But he wouldn't want us to have a long face and to whine and complain. Really what he wants is to come back to the home front the way he hopes to have it. Let's make it that way by over-subscribing this 6th War Loan Drive with a smashing triumph to show to the boys in every arm of the service that the least we can do is to do the most that General Eisenhower asks.

$500.00 bond purchased at Lawrence National Bank on Dec. 4.
J. D. Stranathan

Sincerely yours,

Frank Carman

Chairman for the University Drive.

P.S. The University has a fine record to maintain. Buy your bonds at your bank, then please phone Mrs. Hulteen at K.U. 83 or send a communication to this office, stating the amount of your bond. A K.U. drive has never failed.

NOV 20 1944

Dear Fellow Faculty Members:

You read General Eisenhower's appeal to the home front for support of the 6th War Loan Drive. Certainly no more need be said to an intelligent faculty and employee group of the University of Kansas. The starting date is Monday, November 20, 1944.

However, our personal experiences indelibly stamp their impressions upon us. Last Monday at Rotary meeting here in Lawrence I heard Marion Covey, a member of the Third U. S. Marines, who was wounded at Bougainville, say: "Morale is not built by having Bing Crosby and Joe E. Brown or other Hollywood celebrities twenty miles back of the lines entertaining. Morale is built when a government for which you are fighting gives you a waterproof cigarette case and a waterproof match box. When you have been in the slough and slime, with mud matted in a two-weeks growth of beard, when you are hungry and wet and tensed to an indescribable degree, when you are throwing hot lead at the enemy, and his machine gun never ceases to chatter, - you reach for a cigarette, and that is all you want then. And if you find that your cigarettes are wet and your matches won't strike, then morale is made or lost right there.

"When your machine gun jams, and you find the Japanese government has put a brush connected with the ejector to clear away the grains of sand to keep the Jap machine gun from jamming, you wonder why you haven't an ejector with a brush on it. F.C.A.

Dear Mrs Hulteen – As usual we are buying our bonds through neighborhood drive – My sister frequently helps on these solicitations – I never have reported the amounts here since I assumed they should not be counted twice – If I am not right, I'll be glad to change in the future –

Sincerely yours
Blanche Woodbury –
