Mr. Solon Ayers, Superintendent,
Haskell Institute,
Lawrence, Kansas.

Dear Solon:

It was grand of you to entertain Lt. and Mrs. Waybur and your party. Your hospitality in permitting us the use of your stadium and field will doubtless be acknowledged by the chairman of the general committee. But I do want you to know that I personally appreciated the personal interest that you took in going out of your way so many times in making the entertainment last night a success.

Your Mr. Berg did one of the most unusual jobs for us in many emergencies. His cooperative spirit, his kindly nature and his general helpfulness aided me no end.

Again thanking you for Haskell's high standard of neighborly cooperation, I am

Very sincerely yours,
