Head of Physical Education Department
University of Kansas
Lawrence, Kansas

Dear Sir:

I am very much interested in obtaining a position in physical education in a larger college. At present I am associate professor and head of the physical education department at Anderson College.

I have recently completed work for a doctor of education degree from the School of Physical Education at the University of Oregon.

If you are making any additions to your staff, I should like very much to be considered. You may obtain my credentials from the Placement Bureau of the University of Oregon, or I shall be glad to give you any further information which you may desire.

Yours truly

Clifton W. White
