

March 11, 1946

Mr. J. F. Wellemeier, Principal
Wyandotte High School
25th and Minnesota
Kansas City 2, Kansas

Dear Friend J. F.:

I was delighted to get your good letter of the 8th instant and regret exceedingly that I am not in a position to offer you and the fine Wyandotte Hi teachers complimentary tickets for the game on the 18th.

There is an agreement at the hall between the University authorities and the hall people not to give any complimentary tickets to anyone.

There will be tickets given to the boys for their families but each university will pay the established price for every ticket. It is something like the tournament arrangements for your state high school game. It is necessary to do this to protect the hall and the other authorities who get their share of the receipts. I am sure that you will understand this, you having been placed in a similar situation many times.

I never have had anything to do with handling the tickets for the past nine years.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
