My dear Dr. F.C. Allen:

By way of Harry Green's thoughtfulness it was possible for me to read and meditate upon the letter written your wholly adequate capacity as President of the Lawrence Country Club. Right-off the theme, expansion with foresight of the "little" conveniences which go to give color and sporting purpose to any club, infected my mood with enthusiasm. Briefly, what can be called a definite step ahead in affairs at the Lawrence is now a patent truth.

You have, as O.W. Holmes once put it, "formed your battalions and are now fighting"....and again Forrester C. Allen is seen to be exerting a force....it can never be said of your life that it has not been an abundant history.

Believe me,

Golfingly,

W.L. Winey Jr.
