a cement floor and the backboards are only about one and one half feet by two feet. This is such a small backboard that it is impossible to play the board, but it is still basketball to us. Of course you know that we use your plays Dr. To tell you the truth I have played on about eight different teams since being in the army, and I haven't once had any trouble in selling your style of play. We don't have much time to work on fundamentals, but most of the boys have played considerable ball, and the fundamentals mostly come natural.

That time has come for me to go to work again, so will have to stop. If you get time Dr., a note would be appreciated.

Sincerely,

Virgil L Wise
