

September 15, 1942.

To Whom It May Concern:

I desire to recommend Frank Selbel Allen, of Independence, Missouri. Allen, who is years of age, is a graduate of the University of Kansas with an A. B. degree, with history as his major. He has also had one and a half years in the Law School here. He had two years of R.O.T.C., from 1932 to 1934.

Allen is married and is the father of two children, but desires to get in some activity and try for a commission. He and his wife both have been working, he in the Sheffield Steel Corporation as an auditor, and his wife in an Ordnance plant. For four years Allen was intramural supervisor here at the University under Dr. E. R. Eibel, of the Physical Education Department. He was an official in all sports and did much of that work as well as being an enthusiastic sports follower. He played two years of football in the Independence, Missouri, high school, and here at the University he participated in all branches of intramural sports.

I believe young Allen's training and experience qualify him for consideration if you are taking enlistments for commissions in physical training.

Allen is clean, capable and resourceful. He does not dissipate and has the proper attitude and the benefit of sports in developing cooperation, loyalty and aggressiveness. He worked his way through college and was self-supporting. I think I should say that he is a nephew of mine, but he did not depend upon me for help either financial or preferential.

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
