

golf be best adjusted to the
conditions of young America
returning to college? I am
anxious to know if the Department
of physical Education has ideas
for golf after the-war.

Switching to the

immediate scene I could say
things are normal. My health
has withstood both typhus fever
and Malaria. The sun shines
full overhead, and light breezes
play the tall palm tree branches.
Men are busy - nearly contented here.

C. S. Weaver Jr.
