

I never once realized I would prefer to return to the life abroad. But just this has happened. With a growing distaste for the "war dollar free spending" and careless concern the people here seem to express, I long to be returned to that environment - which wars are most enjoyed by healthy young men - the field!

No doubt from time to time my letters shall frequent your mail call. I enjoy it and see no reason for discontinuance.

Believingly  
W. Wiley
