

"They are swell fellows.  
I advised them to have  
"all the fun" while the occasion  
was allowable. They have to  
undergo a quelling seven  
week period of conditioning.

The information in relation  
to the Navy at Lawrence was  
most opportune. You see, the  
fellows from my company  
are leaving for there soon.  
I supplied them with the  
fine bit of information your  
letter afforded.

You gave me a new  
"slant" on the Army & Navy  
Reserve set-up. I now see  
that the college kids don't have  
a snap.
