Professor E. R. Elbel
107 R.

Dear Professor Elbel:

Would it be possible for three occupational therapy students to take your course in kinesiology next semester at the same time that they are enrolled in Anatomy 50? I realize that anatomy is listed as a prerequisite to kinesiology, but since this is the last year for these three students, would it be possible for them to take the courses at the same? All three girls have had biology.

Sincerely yours,

Marjorie Whitney
