

October 5, 1952.

Lt. Commander Nathan Young,
1009 Baltimore Avenue,
Kansas City, Mo.

Dear Commander Young:

I am very happy to write you concerning the personality and the ability of Franklin T. Wright, of the R. A. Long Building, Kansas City, Missouri.

I have known Mr. Wright personally for twenty-five years. I knew him as a student at the University of Kansas and I have had contacts with him off and on up to the present time. Mr. Wright possesses a fine personality and exceptional ability to get along with men with whom he comes in contact. He has made exceptional progress in the lumber industry, at the present time being general manager of the wood preserving division of the Long-Bell Lumber Company.

In addition to his executive ability, Mr. Wright is a man of vision as well as of action. In his student days he was a leader in campus extracurricular activities. Everybody knew him on the campus by his ability to organize the students into the various groups. His character was and is of the best.

I am happy to recommend him without reservation or evasion.

Very cordially yours,

Director of Physical Education,
Varsity Basketball Coach.
