Dear Phog:

Robert Schrepfer who is taking the Commando course tells me he has on two occasions lost equipment in the gymnasium. On one occasion he said a pair of shoes was taken from the basket in which he checked his clothes, and on the last occasion the equipment was just placed inside the check room by Larry Stream and then, according to him, disappeared.

I am at a loss to know what to say to this young man and was wondering if you could give me some advise about it.

Very truly yours,
