Topeka, Kansas.

Dear Mrs. Workman:

Immediately upon receipt of your telephone call we attempted to secure a young woman who would be qualified to fill the position of Life Saver at Camp Dover.

We have exhausted the names of all available candidates and find that all of them have either been placed in jobs or are attending summer school.

I am very sorry that we are unable to suggest anyone to you.

Very sincerely yours,

Dear Dick:

Mr. John M. Fitzgerald, of the Consolidated Flour Mills Company of your city has written me stating that you are interested in the University of Kansas. Mr. Fitzgerald states that you are a member of the Honor Society and that you are a clean, personable chap.

I am especially fond of good students, and I have always stressed the academic side rather than the athletic side. Going to college is primarily an academic activity. Of course, athletics are fine, but ten years after a man gets out of college the public has forgotten about his athletic achievements. But they scrutinize his activities as long as he walks on this earth and then it becomes a matter of holding his place in society and business.

I am very sure that if a boy is a good student he will be eligible for athletics. If he is interested in athletics he is very apt to make a letter. Hence the eligibility problem vanishes when a man is a good student. For that reason we would welcome you here at the University, and I am very sure that with your athletic ability and your academic achievements you would have an excellent chance to make a varsity letter if your training habits are as splendid as the others above mentioned.

Trusting that you will consider the University of Kansas for your alma mater, I am

Very sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball and Baseball Coach.

Dear Brother Allen:

Just want to call your attention to the fact that Dick Wohlgemuth, 401 South Fountain Street, here in Wichita graduates from East High this year, and is considering attending K. U. Having known the type of basketball player you are interested in since 1928, I believe Dick is one boy that would interest you very much. He is the son of Dr. E. A. Wohlgemuth. Dick is 6 feet $1\frac{1}{2}$ and will grow more. He is a member of the Honor Society, and is a nice clean-cut lad if I ever saw one. Have written the boys at the House regarding him.

Dear Dr. Allen:

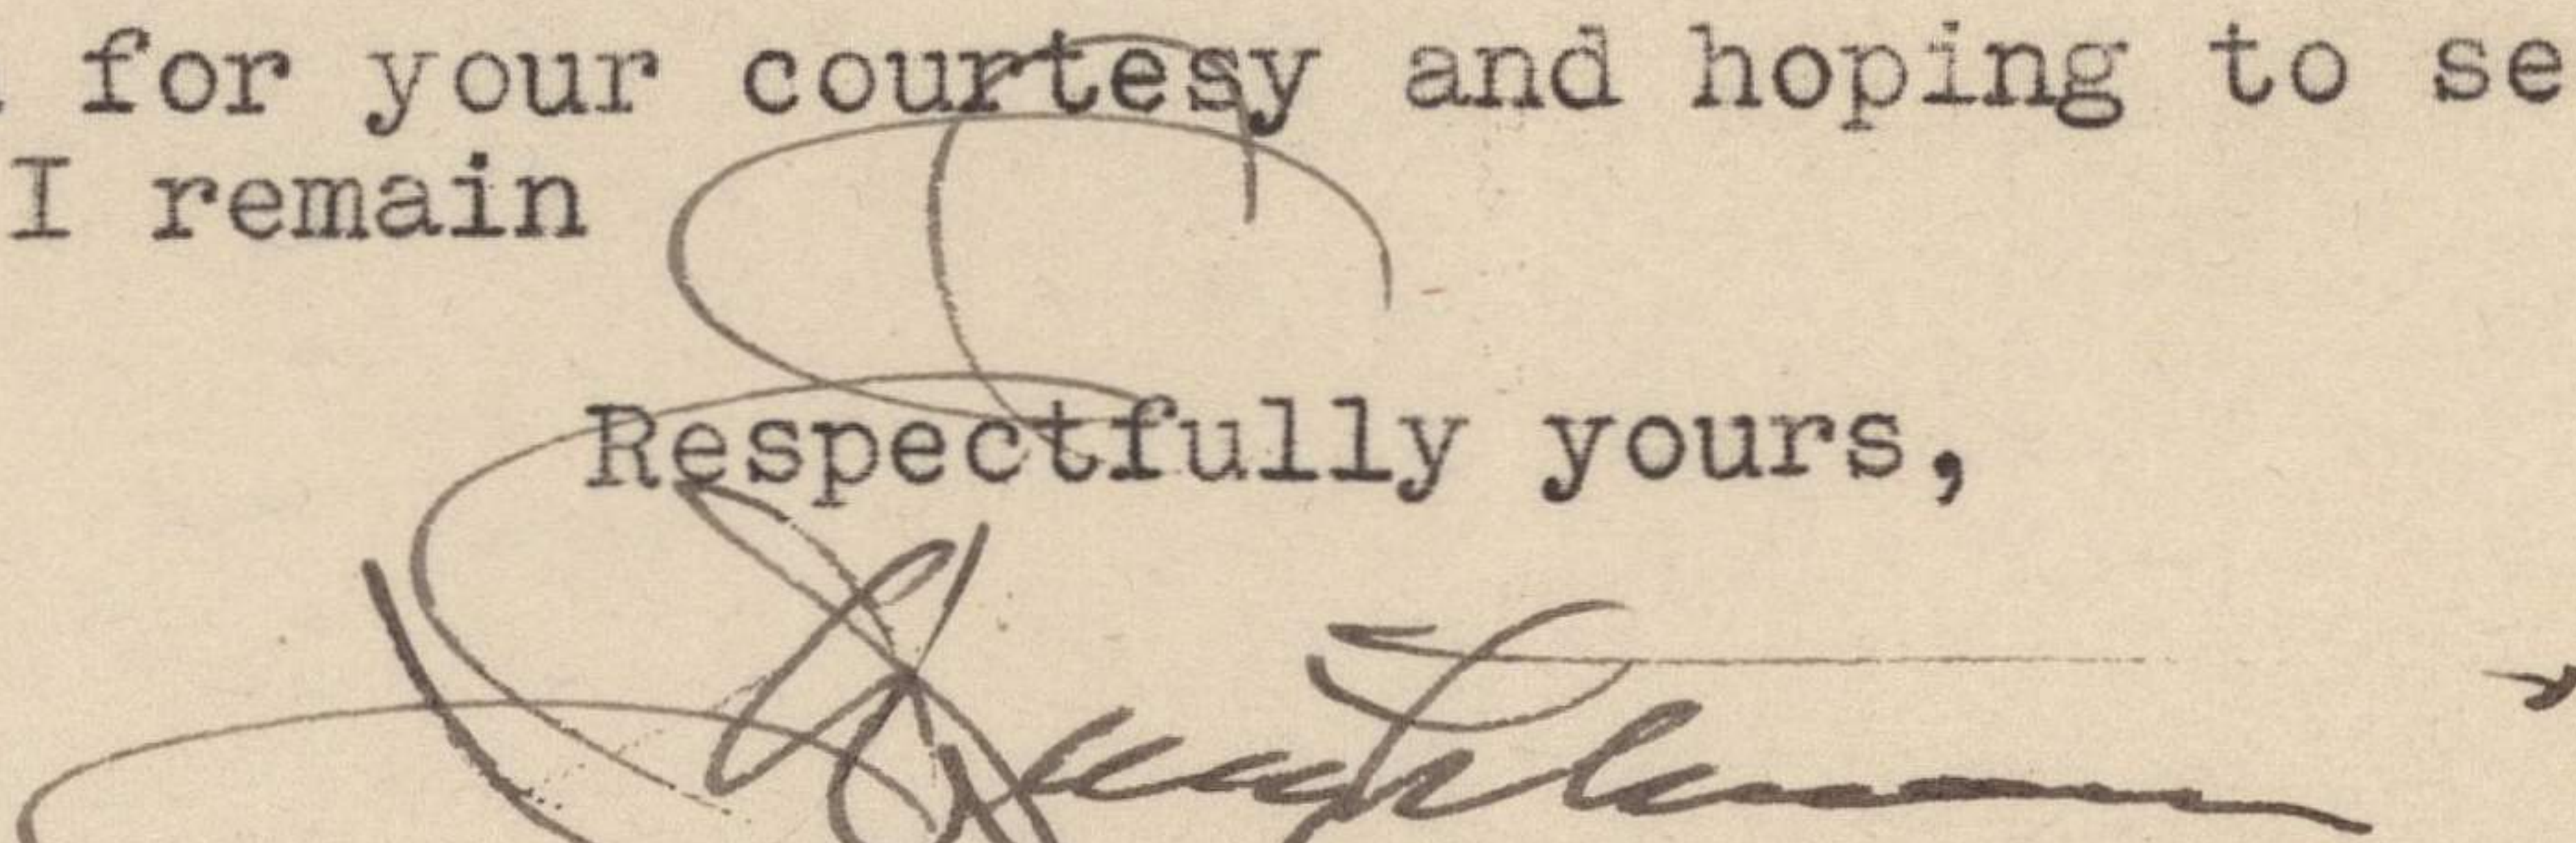

We appreciated very much your prompt attention in making inquiry regarding summer school. Rosalie has definitely decided to attend; so if it is humanly possible, we expect to be in Lawrence about 9 or 9:30 o'clock Friday morning.

It may be impossible for me to come along as I have so many things here to take care of. If an appointment can be made with Dr. Lawson around 10 o'clock Friday morning, I think it will be very satisfactory.

Rosalie has already made application for a room at Corbin Hall but as yet has had no answer.

Thanking you again for your courtesy and hoping to see you while in Lawrence, I remain

Dr. Fred Wrightman,
Sabetha, Kansas.

Dear Dr. Wrightman:

I enjoyed very much the visit in your home last evening, and I just want to let you know that I called the Summer Session office this morning to ask them to send your daughter a catalog. I always call her Nancy, and I trust she will forgive me for not calling her by her proper name. The catalogs are supposed to be off the press by the 15th, so I am sure she will receive a copy in a short time.

Enrollment for the Summer Session is on June 2. I am sure that "Nancy" will be able to live in one of the womens' dormitories at a very reasonable cost. There are vacancies in Watkins Hall and in Corbin Hall, and I am obtaining some booklets from Miss Meguiar, the Adviser of Women, to enclose with this letter.

When you come to Lawrence I want you and "Nancy" to meet Miss Meguiar, who also teaches in the Home Economics Department. I also want you to meet Dean George B. Smith of the School of Education, because doubtless she will be taking some courses in Education. Dean Lawson is out of town at the present time, and will return to his office only briefly during the next ten days. I believe, however, that he will be there on Friday and Saturday, May 22 and 23.

Mrs. Allen and I want you and "Nancy" to stop by our house when you come to Lawrence. We are looking forward to having her in summer school at the University.

Assuring you of my cooperation at all times, and with kindest personal regards, I am

Very sincerely yours,

Dear Max:

Congratulations on your acceptance by the Board of Examining Officers! I am sure you must be impatient to get into active service.

We will be delighted to have Ted come to the University, and if he would be interested in going to summer school and working at the Eudora Ordnance plant at the same time I believe I could help him get a job there. These jobs will pay well, and will give the boys a good source of income for the summer. Most of the summer session classes are in the morning. There is a work shift at Eudora beginning at 3 p.m. and running until 11 p.m. Bus lines will go from Lawrence to Eudora, so the transportation problem will be taken care of.

Many of the boys are planning to enroll in summer classes and working 8 hours at Eudora. If Ted would be interested in this I would be glad to help him get a job.

With best wishes, I am

Sincerely yours,

Director of Physical Education and Recreation

Dear Phog:

Just a line to tell you how much I appreciate your fine letter of recommendation to the Board of Examining Officers at Fort Leavenworth. It was very graciously received and I am sure that it was of great assistance, as they all knew of you and your great work with the youth of Kansas.

I passed the physical and mental tests with a gratifying score, but have not as yet received a call. However the board of Officers assured me that I would probably get in in the near future. I am becoming very impatient. It seems to me that the Army moves very slowly in this respect.

I think that my brother Ted is going to go to K. U. He was certainly very much impressed by the treatment that he received at the K. U. Relays and the basketball workout. He has applied for one of the residence hall scholarships, and if he receives it I am certain that he will matriculate next fall, if the Army doesn't get him first.

Again thanking you for your kindly interest,
I am

Dear Doctor:

Our brief stop in Lawrence was made most effective and enlightening by your courteous attentions, for which we all are certainly appreciative. Some of us in Perry are attempting to interest governmental officials in this spot as a location for a defense industry. We have visited a number of the fortunate places in an attempt to find out how they did the job. Now we are in the midst of briefs, Washington contacts and the like with nothing definitely known. What at one time was an asset to us is now a liability in a big way; namely lands with oil leases and oil pipe lines. It is hard to find any acreage in all our trade area without leases or lines and such tracts are not acceptable for defense plant locations.

Everyone here that come in contact with the boys on your basketball team are still commenting on what a fine, genteel bunch of fellows they were and we all are pleased with their successes they later part of the season. Bill Reckert will jump to physical violence if anyone even insinuates that they are not the finest bunch that has ever hit Perry.

My office has been decidedly improved with a new, fine autographed photograph for which I am most grateful. With kindest regards, I am

Mrs. E. J. Wilson,
Seneca, Kansas.

Dear Mrs. Wilson:

Our Rotary Club program which you ask about was a Song Parade of 1860 to 1940, with young ladies in costumes appropriate to the time. Most of the young matrons were wives or daughters of Rotarians. I am listing below the songs that we used:

- 1860 - "Jeannie With the Light Brown Hair"
- 1870 - "Love's Old Sweet Song"
- 1880 - "In the Gloaming"
- 1890 - "After the Ball"
- 1900 - "In the Shade of the Old Apple Tree"
- 1910 - "By the Beautiful Sea"
- 1920 - "My Buddy"
- 1930 - "Springtime in the Rockies"
- 1940 - "God Bless America"

We had the girls come in one at a time and parade among the tables while singing her song. Or, if she did not sing it as a solo, she at least started it and the crowd sang with her. We invited the Rotary Anns to see the program and they pronounced it a very great success. The girls looked lovely in their costumes, and really made a big hit.

Of course the program could be changed to fit the occasion. I trust this will be of some help to you in your program.

Wishing you continued success in your work, I am

Sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball and Baseball Coach.

How effective is your Citizenship?

The following is a copy of a letter I have just mailed to our own Senators and Representatives in the Congress of the United States, together with a copy of the editorial referred to:

"Enclosed is a reprint of an editorial that appeared on the front page of The Commercial Appeal in Memphis, February 28, 1942.

"It is earnestly commended for your attention.

"It is eminently fair.

"It expresses the sentiment of a majority of the people of this city and section.

"It provoked an avalanche of approving letters, telegrams and telephone calls in Memphis.

"In brief, this editorial seems to me the authentic voice of the great masses of the American people whose elected representative and servant you are. We believe any action you may be able to take and any influence you may be able to exert toward making the sentiments of this editorial effective will mean a great contribution toward the winning of war."

If, after reading this editorial and letter, you will take similar action and will exert your influence toward making the sentiments of this editorial effective, I believe you will contribute much to the early conclusion of this war.

Very truly yours,

Ray T. Wright

Let All Keep Faith!

"To The Commercial Appeal:

"My only son was born while I was in France during the first World War. Today he is a member of the United States Marine Corps. He sailed from California the first of January, and we have heard nothing from him since. We know he is somewhere in the Pacific. We are anxious about him. Thousands of other parents are like us.

"The President says we do not have enough ships to send supplies to our troops, and that we must build ships in a hurry. Even as he spoke several hundred shipbuilders refused to work on Washington's Birthday because they were not paid double time.

"How can fathers and mothers of boys who are in the danger zone and who are being called upon to sacrifice their lives feel any 'surge' of unity when the President and the Congress permit a bunch of shipbuilders and munitions workers to quit when they get good and ready?

"Do our boys at the front get 'overtime' and 'double time' in the fox holes of the Philippines? Do our sons who are giving their lives to protect the jobs of these and others like them quit on holidays? Like hell they do!

"One of my friends, who is a good mechanic, with a family to support, went to get a job in a munitions plant. Every day we hear on the radio and read in the newspapers that such men are needed to turn out munitions for our soldiers, sailors and marines. But this man was refused a job until he could get a union card. He could not get a union card because he did not have enough money to buy one.

"Is it the idea of our Government that it is more important to preserve labor unions than it is to preserve the American Union? Why can't a freeborn American citizen get a job in a plant where the Government needs workers without having to pay tribute to a high-powered labor leader?

"If our sons are to be drafted to give their lives for their country, why should not Labor and Capital be drafted to supply them with munitions of war? Why should Congress, which has the power to make laws, be so tender of the regard for laborers and management who work and prosper in safety while having an utter disregard for the lives of the boys at the front?

"We don't like it, and we don't mind saying so right out loud. Maybe it is time we were electing some senators and congressmen who will crack down and compel Capital and Labor to get into this war. And come to think of it, this is election year, and we might as well get busy while we have the time and opportunity.

Dear Max:

I want to tell you how much I enjoyed my visit to Lyons last Tuesday. It was a great pleasure to be there.

I reached the University Wednesday morning just in time for my class at 10:30. Somebody had siphoned the gas out of my tank, and I was out on the highway a couple of hours waiting for some kind person to give me a lift. I finally reached Emporia about 3 a.m.

But I had a good time just the same, and it was good to see you.

I am enclosing a copy of a letter that I have written to your brother, inviting him to attend our "basketball mixer" next Saturday morning. I know he will have a lot of fun with the boys, and we will enjoy having him here.
