Dear Sir:

Since, in the past, students from your institution have transferred to the University of Wisconsin in order to complete the major in Physical Education, I feel that you will appreciate receiving the enclosed announcement of certain course changes that have just received faculty approval. I trust that this will help you in advising students who start their college work with you.

If I can be of any help at any time in your problems in advising students who expect to transfer for their professional work, I shall be very glad to have you write me.

Sincerely yours,

Dear Dr. Allen:

In accordance with our conversation in your office last Friday, I am writing to inform you that if you have not already filled the secretarial position which is to be open August 1, I should like to be considered as an applicant.

You may recall that I am employed by Dr. Guild in the research department; he will be glad to give you his opinion of my ability if you would like. Two other men who know me and of whom you might inquire for references are Wint Smith, who is now at Camp Robinson, Arkansas, and John Robinson, of the Union Pacific railroad there in Lawrence.

There is a possibility that I may be in Lawrence again some time this week. If so, shall I come in to your office?

Sincerely yours,

Dear Miss Whitcomb:

I greatly appreciate your kind letter of the 14th.

I believe in all fairness to you I should say that we are considering a young lady who is a K. U. graduate, and who desires very much to stay here at the University.

Through friends in Topeka we have heard most favorable reports of your capability and efficiency. As you know, there is not much opportunity for advancement in this position, and I feel that one of your training and experience might not be satisfied for long. I do trust, however, that you find a position to your liking.

Dear Dr. Allen:

After hearing your really wonderful talk I have not yet gotten myself in the condition so as to be familiar enough to call you "Phog." It really was a grand talk, and I have heard many happy comments on it since.

I have been checking, since the campaign was over, to determine why we did not have a better turn-out, and I find that we were competing against meetings of the A. A. U. W., the Parent Teachers' Association, and the League of Women Voters. Practically all of these groups were making last-minute plans to bring about the election of the Citizens' Committee candidates, who, as you will recall, were endorsing the present administration, headed by our mutual friend, Harry Gowans. Our candidates won by sizable majorities, and we are all back to normal again.

It was grand to have had you with us, and if you should be anywhere near the vicinity in the future, let us know in advance if you can, and if we have no regular planned meeting, we will arrange a special one.

With kindest personal regards.

Dear Mr. Williams:

Mr. John Cress, one of our assistant teachers in Physical Education, delivered your billfold yesterday to Mr. Earl Falkenstien in the Athletic Office, and Mr. Falkenstien brought it in to us. Apparently the kleptomaniac who stole the billfold threw it in a locker, but I was told by the gymnasium assistants that all the lockers were searched in an endeavor to find this.

It might have been that the fellow brought the pocket-book back after he took the money and tossed it in there hoping that at least you would not lose all of your possessions.

I am sending this by mail, and I feel terribly sympathetic with you because I lost some money the same week. I imagine where we have schools we will always have some of this going on. I might tell you that I had police officers stationed in hideouts endeavoring to catch this fellow, but he apparently was too crafty.

I spoke to Mr. Chandler this morning when he was here in a conference with me, and he said that he thought since some sort of a policy would have to be established that it should be presented to the Chancellor. The Chancellor will not return until early September. Mr. Chandler stated that you had spoken about saying someone but that he was powerless to offer any solution so far as recovery of your currency was concerned.

I am leaving this week for Iowa, but I will be glad to hear from you. If there is any way that I can help you please do not feel hesitant in asking.

Regretting this incident and being happy that we can return your credentials and billfold, I am

Sincerely yours,

It would be a pleasure to see you, I assure you.

Please remember me kindly to your family, and say hello to the young matron (Mrs. Reed?) who has served as your office secretary. Tell her that I hope her husband goes back to Iowa State College and finishes his work for a degree. Even though an increase in salary is tempting, it is my conviction that if a student puts off his graduation it costs him money and dissatisfaction.

Dear Dr Allen,

I called Mitt tonight to inquire if you were in town, with the idea of imposing upon you again to the extent of asking you to write another letter for me. Mitt told me that you were out of town but that he would give me your address in the morning. If your letter hadnt been specifically asked for, and if the matter was not urgent and immediate, I would have waited until you return before bothering you.

Sometime ago I put in an application with the Department of Agriculture as a special investigator for the Farm Security Administration. The duties consist of the general "F.B.I.-type" within the offices of the FSA. One goes around and sees how many of the County FSA offices have been embezzling from Uncle Sam. The salary is about twice these teaching jobs pay, and I am desirous of getting the position. They sent a special investigator down today for an interview.

This investigator asked that I have you among others write to him concerning me. He is interested in having you state how long you have known me, (my first correspondence thru the mail with you was the spring of 1938--relative to Bill Wade), the fact that I labored for you last summer in the Physical Education department, and whatever you can say concerning my morals, being a hard worker, ability to meet people, mature outlook on life, etc. The fact that Mitt and I have worked together a lot might do some good as it would show that you had at least some opportunity to know a little about me.

This letter should be addressed to John V. Lannan, 908 National Bank of South Dakota, Sioux Falls, South Dakota.

I will appreciate this a whole lot, and thank you.

Dear Kelley,

I am very happy to send the readers of the Messenger a communication from their university. We in the department of physical education are very happy to recall the statement of Dr. A. Maud Royden the great woman-sociologist. She said, "You cannot break Nature's law, but you can break yourself against Nature's law." This is a statement worthy of consideration by all of us. I saw in last night's paper that Miss Royden had landed in America only yesterday. There was great fear for her safety. She came to America on an English freighter.

The students will hear and read much concerning what she says to young America.

Dear Sir:

The "Messenger" readers have asked us to print the opinion of some notable sports authority concerning what high school athletes need in the way of training, experience, etc. to make good in college athletics.

In consequence we have chosen you since so many of East High's athletes go to your University.

If you would write your reply in the form of an open letter to the athletes it would be greatly appreciated. You may address it in care of the "Messenger."
