Dear Phog:

I am enclosing herewith a copy of the Culver school paper in which there is a cartoon about Skip's basketball playing. I just had a letter from him today in which he told me that he had been elected one of the co-captains for next year. He also told me that they had co-captains this year and the voting resulted in co-captains for next year. He also told me that Culver won their conference this year. He graduates this year and likes it so well that he wants to go back for another year, to which I have consented. Odd, as you know, also is going up next year, and they will have a hard time eventually keeping him off the varsity basketball team because he really loves the game.

I was sorry to see O. U. beat K. U. the last game, but am still proud to see K. U. tie for the Valley Championship. Odd keeps me informed after each game, telling me who made the goals and so forth. He keeps a record of every play as each game progresses.

I hope everything is running along to suit you and that you produce a winning baseball team. With kindest regards, I remain

Sincerely yours,

Dr. Forrest C. Allen
