

January 25, 1931

Mr. E. B. Mason  
612 S. Leonard  
Liberty, Missouri

Dear Mr. Mason:

I acknowledge receipt of your letter of January 23 asking  
inquiry regarding six tickets for the Chicago Athletic Club  
March 11.

I have referred your letter to Mr. Paul Hollenback, the  
financial secretary of the Chicago Athletic Club. He will write you  
concerning the best available tickets. I am sure you will find them  
his shortly.

We are delighted with the news of tickets to Chicago State of  
Illinois. There are still some in stock and we are sure you will  
find them for your party. We will be glad to reserve them  
for you. We are sure you will find them for your party.  
Chicago and Liberty, Missouri. There are only 250 tickets left and  
we are sure you will find them for your party. We are sure you  
will find them for your party. We are sure you will find them for  
your party. We are sure you will find them for your party.

The issue of all tickets and admission to games, papers and a  
ticket for each day and night of the game, and the program of the  
athletic board are included. We want you to do our best to make  
equally as good a large number of our party tickets and want you  
see a good basketball game every night and all in all.

Looking every night in the city of Chicago and  
we have not had such a good time in the city of Chicago and  
the seats in the auditorium are not as good as they used to be  
and the price is not as low as it was in the past. This means  
not much larger than the program of tickets.

Best wishes for your party and bill for a basketball game, but we  
will for a combined basketball and baseball game, and the ticket price  
to make it a first-class basketball game of a first-class basketball  
you can see our program.

I regret that it may not be possible to reserve the seats you desire,  
but I am sure Mr. Hollenback will do the best he can and you will find  
his shortly.

Sincerely yours,  
Director of Physical Education and Recreation  
Chicago Athletic Club
