Dear friend "Phog":

Now that it is all over, permit me to again congratulate you upon another marvelous accomplishment. It has been a glorious season.

What I had in mind to say to you some time ago will keep, but I think you will enjoy discussing the matter I had in mind. I wish you would call me the first time you have occasion to be in Topeka.

Cordially yours,

P.S. When convenient to you I shall thank you for letting me know about how much "net" we have realized for the association during the basket ball season.

Dear "Phog"

The first thing I want to do this morning (Monday) is to write and tell you what I have said behind your back many, many times, and that is that I think you have done a wonderful job this year, not only in bringing that team of yours through with greater improvement in every game all through the year, but for your part in the N. C. A. A. Tournament. It goes without saying that the people in this part of the country will not soon forget those great games.

That game last Saturday night certainly did bring back memories of a certain Butler College-K.C.A.C. game back in 1924. Butler sunk baskets from the center of the floor and made a good percentage of their shots as Indiana did Saturday night. Honestly, I am commencing to believe that these Indiana teams are impossible to beat. Anyway, I can imagine that a certain "Phog" Allen, as well as the rest of us, did get to see a certain play that the Indiana team did work to perfection for the goal. The play I refer to is the one with the real low pass which resulted in about four or five goals.

Anyway, old boy, here's one who has always admired you from the very beginning, and here's hoping you continue to enjoy good health and happiness for many years to come.

With always my very best personal regards.

Sincerely yours

*George L. Williams*

Dear Dr. Allen:

Thank you for your kind letter of April 10. I wish to say that it was a real pleasure to have an opportunity to work with you in a small way on the national basketball tournament. You are to be highly congratulated on the great achievements which you have made this year. It seems that Dr. Allen is in the habit of making great achievements, but it takes something like the Kansas City event to keep the people fully awake of what has been going on all along.

Hats off to you, Dr. Allen!. It was needless for you to send the little token which you sent in your letter, but I assure you that it is greatly appreciated and again I want to thank you.

Dear Neal:

Thank you very much for your gracious note of the 16th instant with reference to the use of Robinson Gymnasium by the high school students for the district music festival.

I am sure that something can be worked out next year to the mutual satisfaction of everyone concerned.

I might explain to you that since such events disrupt the regular class schedules here in the gymnasium, we feel that the ballroom floor of the Memorial Union Building might be used for the checking of instruments. The only inconvenience in that case is the distance of the Union Building from Hoch Auditorium.

We are glad to cooperate in any way possible, and I hope that next year we can get together early enough to make these arrangements.

With best wishes, I am

Very sincerely yours,

Dear Phog:

We appreciated very much the use of Robinson Gymnasium for students attending the District Music Festival last Friday. It was really much in use, I understand.

You should understand that this event was first invited to Lawrence by the School of Fine Arts of the University and that all requests for use of buildings and rooms were taken care of by that school.

I am only sorry that you were not better and earlier informed of our needs and wants. If the Festival comes to Lawrence under similar management again next year, I shall myself assume responsibility to see that you are informed well in advance of the requests that we will make.

Dear Dr. Allen:

This will acknowledge the well-documented protest against usurpation of the gymnasium by the music competitors last Friday. I shall be glad to call to the attention of Mr. Wherry the extent of class interruption that resulted, apparently from inadequate supervision and misunderstanding about facilities available. Situations involving high school students can hardly be anticipated, but with your cooperation we shall do our best to protect you in the future.

Dear Dr. Allen:

I have at hand your reply of May 9 to Mr. Howard W. Boltz, our Associate Secretary, in which you state that you would be glad to help us out at Camp Wood as speaker on either May 27 or 28. I am putting you down definitely for Tuesday, May 28.

The program will start at 9:00 o'clock in the morning, and there will be time for about a 30 or 35 minute talk followed by about a 45 minute forum on the subject of your speech. We should like to have you give a talk on Sportsmanship, and then our forum can be on the same subject. We find this is one of our most discussed topics at any Hi-Y period, and so of course we are glad to have you as our speaker and resource person for the forum.

Was it your intention to be with us for the evening meeting on that day also? Please let me know soon, if it was, because we can use you definitely as a speaker in the evening if you would care to stay. If not, then I shall have to make arrangements for someone else to be with us at that time. The evening talk would be about 25 minutes in length, and could be somewhat of an inspiration talk or a summary concluding statement on the topic of Sportsmanship as you presented it in the morning and as it was developed in the forum. I will await your reply eagerly to know whether or not you can be with us for the evening also. I hope you can, but if, of course, you have other duties, please feel free to say so, because I can get someone else to make the evening contribution.

I believe Mr. Boltz explained to you that we could not pay honorariums, but that we would be willing to take care of your transportation--3¢ a mile--so that you would not be out any actual expense as you make the

trip and help us in working with the boys. The group will be a senior high school group of Hi-Y boys, much as the group that you addressed at Lawrence at the district meeting about a year a  $\frac{1}{2}$  ago. There will probably be between 200 to 250 there. If you care to stay for the evening program and then would like to spend the night with us, we will be more than glad to get the best accommodations we can for you, and of course there will be no charge for this or for the meals while you are there.

You will recall that I talked with you in the gym yesterday about an engagement to speak at Camp Wood during the Senior Hi-Y period. Rudi Wiens will be in charge of the Hi-Y period at Camp Wood. He suggested Wednesday May 29 as a desirable day for you to come, however the camp period is May 25 to June 3 and if you found the 29th impossible, they would surely be glad to have you set your own time. I would suggest that you plan to go out during the day and stay for the evening meeting if possible. That is the logical time for a general presentation, however if it were more convenient for you to drive out in the evening and stay over for the next forenoon, that would be quite all right. They will put you on whenever you can make it.

If you will let me hear from you, I will pass the word on to Mr. Wiens as to the date and time.
