Dear Dr. Allen:

I am ashamed for not having written you sooner, but I have been pretty busy. I hope that you are getting along O. K.

I am still planning to come to school. I had about given it up for a while but it is raining outside now. The wheat is looking pretty good now. I hope it goes ahead and makes something.

You had tough luck in the finals at K.C. I was pulling for you every inch of the way but it didn't help much. Ind. must have had quite a ball team. It sure sounded like it over the radio.

I see by the paper that you got some of your new rules put into effect. Congradulations! I think they are O.K. (as if it would make any difference) I really think that basketball can be made the best and most popular sport there is. I know that it is my favorite sport.

Well I must close now and get to bed for I have to work tomorrow. I am still working on the ranch and we work rain or ^{no} ~~on~~ rain. Hoping to see you this fall.

Sincerely yours

Bill Wade
