University of Kansas
Lawrence, Kansas

Dear "Phog"

The first thing I want to do this morning (Monday) is to write and tell you what I have said behind your back many, many times, and that is that I think you have done a wonderful job this year, not only in bringing that team of yours through with greater improvement in every game all through the year, but for your part in the N. C. A. A. Tournament. It goes without saying that the people in this part of the country will not soon forget those great games.

That game last Saturday night certainly did bring back memories of a certain Butler College-K.C.A.C. game back in 1924. Butler sunk baskets from the center of the floor and made a good percentage of their shots as Indiana did Saturday night. Honestly, I am commencing to believe that these Indiana teams are impossible to beat. Anyway, I can imagine that a certain "Phog" Allen, as well as the rest of us, did get to see a certain play that the Indiana team did work to perfection for the goal. The play I refer to is the one with the real low pass which resulted in about four or five goals.

Anyway, old boy, here's one who has always admired you from the very beginning, and here's hoping you continue to enjoy good health and happiness for many years to come.

With always my very best personal regards.

Sincerely yours

George L. Williams
