Mr. A. E. Woestemeyer,
Peoples State Bank,
Lawrence, Kansas.

Dear Woeste:

You are a real engineer. You put things over with such dispatch that my admiration increases hourly for your tact and your ability to execute difficult things.

Will you kindly express to the club and all of your "co-operators" our deep appreciation for your wonderful hospitality and kindness in inviting us?

I am sorry that I rushed away. In the melee I failed to personally express to you the deep appreciation of the team and myself.

Devotedly yours,
