

THE UNIVERSITY OF KANSAS  
LAWRENCE

OFFICE OF  
MEN STUDENTS' ADVISER

September 18, 1939

Dr. Forrest C. Allen  
Department of Physical Education  
The University of Kansas.

Dear Dr. Allen:

I am very interested in your proposal concerning air conditioning in the Union Building. The idea has been current for some time and the main obstacle seems to be the expense involved. The high ceiling of the ballroom makes for a costly installation and the only feasible suggestion seems to apply to some of the smaller rooms which would serve only a limited clientele. However, thank you for your interest and let me assure you we will keep the matter alive for such time as funds and improved methods of air conditioning will permit.

Cordially yours,

*Henry Werner*

Henry Werner, Chairman  
Union Operating Committee.
