Dear Brother Bones:

I am very happy to take your letter into Gwinn Henry's office and ask his Mr. Earl Falkenstien to give you the best seats possible for the Kansas-Nebraska game on the Nebraska side. I am sure that you will be delighted with these seats. I would suggest that anything above the twentieth row would provide the best view.

It was good to hear from you, and my plea is that you are feeling like a million and making that much.

Faternally,
