

Knack-----We've been calling you Doctor Allen, Doc and Phog---  
where does that nickname of Phog come in?

Allen-----

Knack-----So that's it. If they call you Phog I wonder what they ought  
to call Quigley?

Mehl-----Joe, that's where Quigley and Allen form a team. Dr. is called  
Phog and Quigley has been called everything else.

Knack-----Phog, I'm going to knock you over with this question. Who  
will win the Big Six basket ball race this season? And I want the  
truth.

Allen-----

Mehl-----I thought you asked him for the truth, Joe?

Knack-----I did and he answered the truth as well as he could. You  
see, there's different truths. One for the average man and one for  
the coach.

Mehl-----Phog, tell us, do you make those predictions with your  
tongue in your cheek?

Allen-----

Knack-----Apparently, Phog, psychology plays an important factor  
in coaching, doesn't it? Suppose we try out that psychology here.  
We'll imagine the game is on with three minutes left to play. Your  
team is three points behind. I'm a substitute on the bench. How would  
you send me in the game?

~~Allen-----~~
