

lanes and so on ring the bell. All I know is that his teams always win basket ball championships . When he tries to explain to me how it's done I'm confused.

Dr. Allen---You fellows haven't asked me but I will supply the information that I don't win championships. The players do that for me.

Knack----And you have nothing to do with it at all, I presume?

Mehl----- We want no modesty on this program, Phog.

Dr. Allen----~~a~~ coach can do only certain things. First he has to have the material. Then it's up to him to get the most out of that material.

Knack-----Well, P hog, does a basket ball player require certain definite specifications?

Dr. Allen----He certainly does. Basket ball demands a great deal of skill. Speed is an essential. Body co-ordination is necessary . An alert mind and a stout heart are qualities he can't be without and become a star. I doubt whether any other sport demands more of the player than basket ball.

Mehl-----I know this, it demands a great deal more endurance than football, for example. Or baseball. And with the center jump eliminated that means more endurance than ever.

Knack-----~~Phog~~ Now that you've sworn to tell the whole truth, Phog, we're going to start tonight's celebrations with a battery of questions. But first, Ernie, tell the whole truth and nothing but the truth yourself.
