

Sincerely yours,

May 2, 1938.

Professor J. J. Wheeler,
Department of Mathematics,
University of Kansas.

Dear Professor Wheeler:

While at Wichita East High School last week, speaking twice at the assembly made possible because of the small size of the auditorium, I ran across your long-time and good friend, Assistant Principal Truesdale. He asked to be remembered to you. I am passing his greeting along.

Principal Truesdale spoke of the many fine contacts he had with you previously.

With every good wish, I am

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
