Mr. Forest C. Allen
University of Kansas
Lawrence, Missouri

My dear Mr. Allen:

It is the custom of this Department to keep on file a record of the success of its graduates. We shall, therefore, appreciate a statement from you, (on the reverse side of this sheet) concerning both the personal and social fitness of Miriam Wagner for the work which she has undertaken, her professional attitude and her ability as a teacher.

This information is not shown to graduates and will not be definitely quoted to prospective employers without your permission. Will you state, however, your willingness to have it so used if need should arise at some future time?

Very truly yours,

Ruth Everett

Chairman
