

THE UNIVERSITY OF KANSAS
LAWRENCE

OFFICE OF
THE CHANCELLOR

March 26, 1946

Dr. F. C. Allen, Director
Dep't. of Physical Education
University of Kansas

Dear "Phog":

It has come to my attention from various students that the wire netting backstops at the new concrete courts is so badly gone to pieces that the students are chasing lost balls and running around hunting them a good deal of the time. We have spent so much money on these courts that I want to see that they are in the very best condition possible. Can you see that the proper backstops are placed in position on these courts?

There is, also, a good deal of unhappiness about the condition and maintenance of the other tennis courts of the University. They need more attention, both on the surface of the courts and on the general maintenance, marking, and care of backstops than has been given. I would appreciate it very much if you would do what you can, because with this big enrollment I am eager to have every recreational facility utilized and in the best possible working order.

Thanks, ever so much.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Deane W. Malott". The signature is written in dark ink and is positioned above the typed name of the signatory.
