

Last week I chaperoned 9 Jr. Hi girls at Mr. Ford's cottage on Lake Huron 185 miles north. They were a swell group to be with. The Ford Motor Co. furnished transportation, gave us a new station wagon to use while we were there <sup>and</sup> paid all gas & oil for us to go to the lumberman's monument, silver valley, <sup>and</sup> other places of interest within driving distance of the cottage. A cook was provided, too. All it cost the girls was their food. It was really a great way for me to get acquainted, have fun, draw pay & have all expenses paid. I plan to take a group of Sr. girls there for a week - end very soon.

We're hoping to be able to put on a good camping program there next summer, but of course gas & tires may be a drawback as another rumor is out that gasoline will be rationed here before Oct. 1.
