

October 23, 1941

Mr. Raymond Nichols
Chancellor's Office
Frank Strong Hall
Campus

Dear Ray,

This morning at 8:30 Prof. F. A. Russell asked me to speak to the freshman engineers at their engineering assembly. I drove over to the engineering building and parked.

At 9:30 I got in my car to drive to my parking space behind the gymnasium.

This does not worry me any, but I should think that there should be some designation of tags for faculty members so when they drive to different parts of the campus for appointments this annoying situation should not obtain.

Sincerely,

FCA/pg

Director of Physical Education and Recreation
Varsity Basketball and Baseball Coach
