

January 9, 1942.

Chancellor Deane W. Malott,
University of Kansas.

Dear Chancellor Malott:

I am enclosing a mimeographed copy of some changes that have recently been made in our offerings in physical activity courses. I believe the course "Individual Gymnastics" will fit in with what you have in mind.

These courses have been approved by both the College and School of Education faculties, and are to be in the new catalog. You will notice at the top of the page that we have authority to offer one-half indoors and one-half outdoors, or carry a course throughout the entire semester. They could enroll for the entire semester, and we could treat it expectantly - if we desired to keep it an indoor activity we could do so. It gives us enough of a leeway to handle that under exceptional conditions with this group.

My notion was to have the course listed, if agreeable to you, in my name with Mr. Henry Shenk as my assistant. We believe that we can provide some fine, challenging activities which will benefit the group and also will have a fine salutary effect on the University in general regarding physical fitness.

I will give you the information on the course in Kinesiology in another letter. I am rushing this through so that you will have it for your early afternoon meeting. If there is any other information desired I trust you will call my office and we will endeavor to give it to you.

Very sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball and Baseball Coach.
