

THE UNIVERSITY OF KANSAS  
LAWRENCE

OFFICE OF  
THE CHANCELLOR

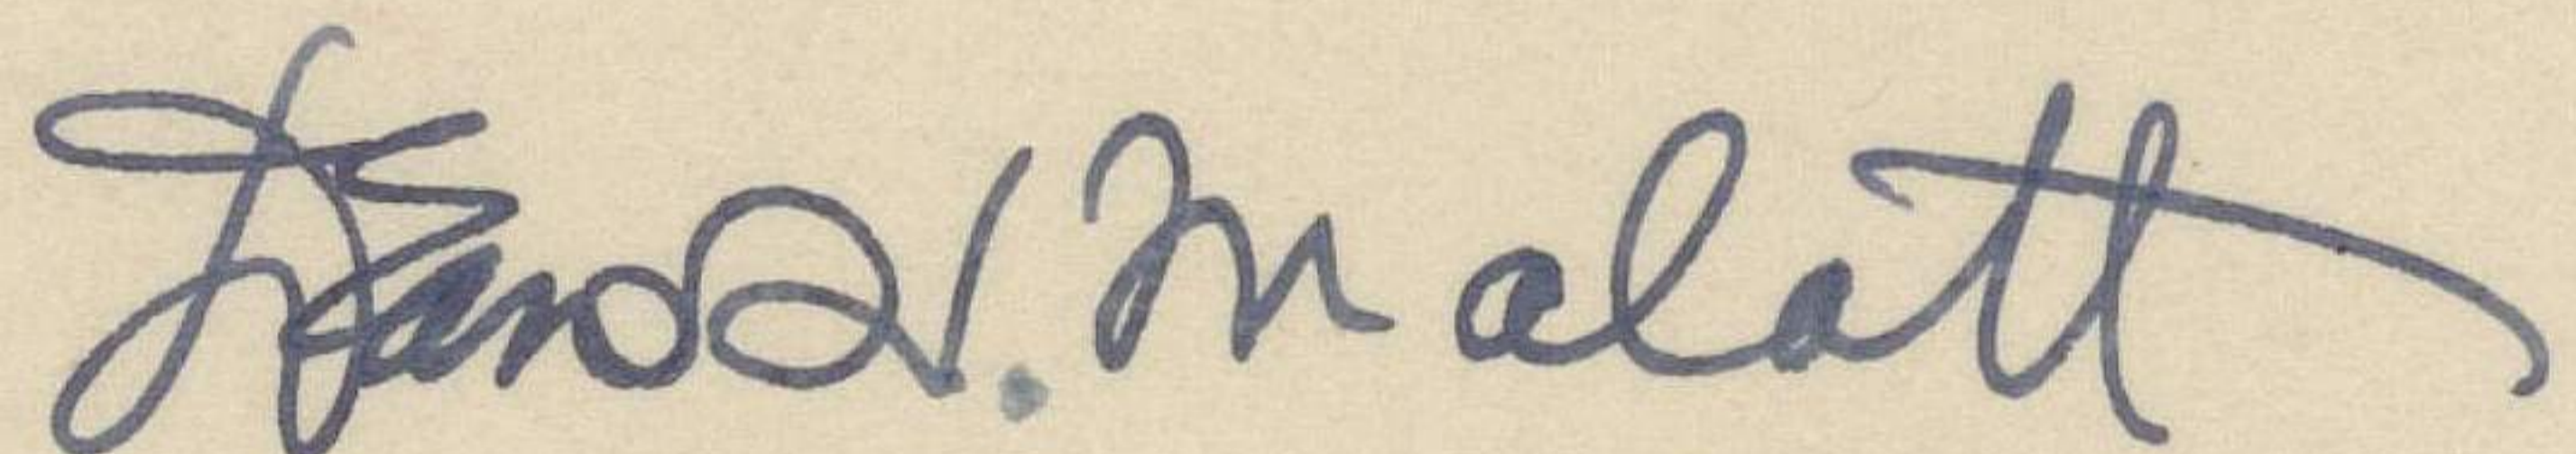

January 2, 1941

Dear Phog:

I have seen the skating rink only from a distance, but it looks to me as though it would be entirely up to expectations if you can just do something now about the weather.\* I am delighted at the way the water seems to be holding and it should give smooth and serviceable ice if we can keep people off of it when it is too soft for proper use.

I think you have done a grand job in making this type of recreation possible.

Sincerely yours,

Deane W. Malott  
Chancellor

DWM:h

\*Dictated December 31!
