

March 18, 1942.

Chancellor Deane W. Malott,  
University of Kansas.

Dear Chancellor Malott:

I am enclosing herewith copy of a letter I am sending to Professor Bert Nash and the members of his committee on Athletics and Physical Recreation.

I have gone back into the files to bring forth some of the data regarding Physical Education and Athletics as they concern the Senate Advisory Committee. For your information, I am sending you a copy of these various reports.

It has always been my thought that we should have as much winter recreation as we have summer recreation. However, the topography of Mt. Oread is such that it has not been possible to extend our program, and the meager budget allowance does not provide opportunities for play space, let alone the supervision of such a thing. With your coming, you did encourage the winter skating rink, or we would not have had that. You will note in my letter of November 2, 1938, this item was listed in our proposed program.

Very sincerely yours,

Director of Physical Education and Recreation,  
Varsity Basketball and Baseball Coach.
