

I have no doubt but what the University Senate will at the next meeting include the 17 and 16 year old boys in the requirement for physical conditioning. The Chancellor has told me to look ahead for an available man to augment this staff if they are needed for this summer, but it is pretty difficult to look outside when we cannot promise our own men at the present tenure for the summer.

Will you please give me a reply to this at your earliest convenience?

Very cordially yours,

Director of Physical Education,
Varsity Basketball Coach.
