Dr. F. C. Allen
Professor of Physical Education
University of Kansas

Dear Dr. Allen,

Finding that you were out of town Saturday May 18 I talked to Mr. DeGroot relative to the advisability of holding the horse show on the intramural playing field. There is a very real danger of infecting the field with tetanus spores, and I would strongly recommend that horses not be allowed on the field.

As you have long recognized in the care of the Stadium field, use of artificial fertilizer and motor equipment is important in avoiding animal contamination of the field.

Sincerely,

Ralph I. Canuteson

Ralph I. Canuteson, M. D.
Director, Health Service
