

April 28, 1942.

Mrs. Ed Ash,
2272 Roswell,
Kansas City, Kansas.

Dear Mrs. Ash:

Since your letter arrived I have been making inquiries about furnished houses that might be for rent during the summer, and I have not had much luck.

If you could drive up some time soon and talk to Miss Marie Miller, in the Adviser of Women's Office, I think that might be the best possibility. At the present time they do not have houses listed, but if they know specifically what you want they may be able to help you. I have called a number of offices and have left word for them to call here if any of the faculty members are desiring tenants for the summer.

It might be well, of course, for you to advertise in the Lawrence Journal World.

We will be happy to have Eddie in summer school, and if there is anything we can do to help you find a place to live you may be sure that we will do it.

Very sincerely yours,

FCA:AH

Director of Physical Education and Recreation,
Varsity Basketball and Baseball Coach.
